M. C... Munkers, Ostrander, Porter, Re... ...Savage, Thompson, Walls, Whitenker, Walden, Mr. Speaker—28.

Those voting for George H. Williams were: Apperson, Carson, Dunn, Dunbar, Davenport, Earhart, Harris, Holman, Hare, Hussey, Kelly, Laughlin, Mills, Olney, O'Regan, Paquet, Quimby, Starkweather, Whalley—19.

The vote having been declared, on motion, the House adjourned until to-morrow morning at 10 o'clock.

SENATE.

Senate met at 10 a. m., and after prayer by Rev. Father Goens, the minutes were read and approved.

Mosher gave notice of a bill to provide for election of a separate Supreme Court.

Baldwin gave notice of a bill relating to rate of interest.

Fay introduced S. J. R. No. 7, instructing our Senators and Representatives in Congress to support Humboldt Railroad bill, with William's Amendment. Which was adopted unanimously.

S. B. No. 5, to amend code, was read by title, referred to Judiciary Committee.

Senate concurred with H. J. R., calling for copies of act of Congress relating to election of U. S. Senator.

S. B. No. 6, relating to bonds of Grant county, was read a second time and referred to Committee on Counties.

Baldwin introduced S. B. No. 9, to amend laws relating to roads and highways, which was read.

Trevitt introduced S. B. No. 10, to tax capital stock of national banks.

The Senate then took a recess until noon.

At 12 m, being called to order, the Senate was informed by the President that he found on his desk a petition from B. F. Dowell and others, claiming pay for two companies of Oregon volunteers in 1856, who went out "to fight emigrants."

Trevitt moved to refer it to the Third House.

Mosher moved to refer to Committee on Public Lands, and that amendment was accepted by Trevitt with the proviso that Dowell's picture should accompany it.

This laughable episode served to put the Senate in good humor for the Senatorial election.

The President announced the business in order to be the election of a U. S. Senator to succeed Geo. H. Williams, whose term expires March 4, 1871.

Stout placed in nomination Jas. K. Kelly.

Cornelius placed in nomination Geo. H. Williams.

The vote being taken the following named Senators voted for Mr. Kelly:

Messrs. Baldwin, Brown, of Baker, Burch, Cochran, Crawford, Hendershott, Holtzclaw, Hoult, Lieuallen, Mosher, Patterson, Stout, Trevitt, Mr. President; 14.

Those voting for Geo. H. Williams were: Messrs. Brown, of Marion, Cornelius, Moores, Powell, Thompson, Watts, Witham: 7. Absent Mr. Pershbaker.

Mr. Fay introduced a bill to provide a uniform system of education, which was read first time and ordered to be printed.

The motion to suspend rules and read second time by title failed.

Senate adjourned.

AFTERNOON SESSION.

Senate met at 2 p. m.

Fay offered S. J. R. No. 9, to appoint Joint Committee to see if rooms of commodious nature can be leased for use of the State, which was adopted.

The House then went into Committee of the Whole on the Benton county contest, and Judge Strahan, on part of the contestants, read the voluminous evidence in the case, to the edification of the members, several of whom are reported to have been asleep.

After the Committee had risen, Burch introduced S. B. No. 12, to amend an act to appropriate funds to aid the construction of a canal and falls at Oregon City.

Senate adjourned.

Supreme Court Proceedings.

SATURDAY, Sept. 17th.

Johns appellant vs. the county of Marion, respondent, appeal from Marion, was argued and submitted. Lawson and Sullivan, for appellant, Williams and Willis, for respondent.

Court adjourned to Monday morning at 9 o'clock.

MONDAY, Sept. 19th.

Smith & Davis, appellant, vs. Ellendale Woolen Mills, respondents, appeal from Marion county. Motion to dismiss appeal argued and submitted, and the case argued on the merits and submitted.

Anderson, respondent, vs. Bolter, appellant, appeal from Polk county, argued and submitted.

Longsworth, et al., respondent, vs. Adams, appellant, appeal from Marion. Motion to dismiss the appeal, argued and submitted.

TUESDAY, Sept. 20, 1870.

The motion to dismiss the appeal in the case of Longsworth, vs. Adams, et al, was overruled, and the case was argued on the merits and submitted.

Court adjourned to Wednesday morning, at 9 o'clock.

CITY AND COUNTY.

IT IS.—It is rumored that Dr. Ellis has been appointed visiting physician to the Penitentiary.

Marshal Glover is on the mend, he expects to be out to-day.

Deputy Hamilton is still pretty sick, but we hope to have better news of him to-day.

The Street Commissioner is making a great improvement in the long bridge by putting new planking on the south end of it.

STARTED.—Mr. D. W. Prentice started his elementary class in singing last night under favorable auspices. He informs us that the signatures obtained indicate a class of beginners, numbering fifty or more.

CIRCUS.—Lake & Wilson came on us suddenly and played last night without warning. Considering the limited notice given the turnout was fair, and the performance, as usual, was first rate.

LOST AND FOUND.—Yesterday a gold chain was lost by a young lady riding horseback through town. The finder will be rewarded if it is left at this office.

We know of a small silver watch being found yesterday, which can be heard of at Uzafovage & Wrights.

INCORPORATED.—Articles of incorporation were yesterday filed in the office of the Secretary of State, by Messrs. A. L. Stinson, ...abcock and T. McF. Patton, incorporators of the Masonic and Odd Fellows' Building Association. The object is to purchase and own real estate, and erect a brick building, to contain store rooms on the ground floor and two halls and rooms for offices in the upper stories. Capital stock $50,000, in shares of $25 each. Principal place of business, Salem.

APPLEGATE'S LECTURE.—Several hundred persons were out last evening to hear Hon E. L. Applegate address the Temperance Union. "Lish" was in his happiest mood, and kept the interest of his audience to the highest pitch for an hour and a quarter; at one moment in a scream of laughter, and at the next thrilled by a burst of eloquence. His idiosyncracies are his own, but they smack more of common sense than many men's logic, and a few of such talks would do the temperance cause more good than a million prosy sermons. We hope to hear from him again. The Union adjourned to meet again two weeks from last night.

AT THE FAIR GROUNDS.—The track was completed yesterday and the construction train run as far as the Fair Ground. This is as far as there is iron to lay down, but sufficient is now due in Portland to reach the depot. Work progresses rather slowly on account of the iron being the last of a lot which from having been stowed at the bottom of a cargo has been bent, and requires a great deal of labor in straightening it. A platform will be built at the Fair Ground, and probably a way-station will be located a short distance below there to accommodate the large products of Howell Prairie and the country east of that.

REED'S OPERA HOUSE.—We learn that Mrs. Belle Bird sailed last Saturday for Portland on the Oriflamme, and brings with her Mrs. Carfarno, a leading lady of acknowledged talent; also Miss Eva West and Miss Grigsly, and two other ladies, who with the talent already engaged, will form a company of seventeen artists, claimed to be the strongest that ever came north of San Francisco. Their first performance at Reed's Opera House will take place next Saturday evening.

INDIAN FARMING.—Capt. Lafollett, Agent at Grande Ronde Indian Reservation, informs us that the harvest of the present year has been excellent. The Indians have raised about three thousand bushels and the department nearly one thousand. This is more than sufficient to supply the Reservation with breadstuffs, and in addition they have abundance of oats for feed and some for sale. It is not all thrashed yet, but will be before there is any danger of loss from rain.

INAUGURATION BALL.—We are authoritatively informed that there will be a grand Inauguration Senatorial ball at Reed's Opera House some time next week. Prominent citizens of Salem have the matter in hand and are determined to make the ball, what it will be, *the* event of the season. It will be both unsurpassed and unsurpassible. Due notice of the day will be given and Committees will be announced within the next one or two days.

SINGULAR ACCIDENT.—Mr. Shannon Myers met with a singular accident the other evening. He was swinging on his hands between the counter and a shelf in McCully & Co's store when his hand slipped from the counter and he fell, striking his head against the counter. The blow was so severe as to stun him and cut a bad gash just above the ear. Dr. Grubb was called, and restored him to consciousness and dressed the wound. Yesterday he was doing well as a man could with a broken head.

DAILY PAPER.—The Daily Albany *Democrat* reached us yesterday morning. As the County Fair has not yet commenced it contains but few of the promised items. The rain had been just sufficient to put the ground in good condition. A great many visitors were already in town, though a great many deferred going until after the senatorial ballot of yesterday. Rev. S. G. Irvine fell while working on his farm, and hurt his leg badly.

FRESH AND FINE.—Mr. Lanegan, who keeps a nice stand in the Opera House, on Liberty street, yesterday received a large lot of fresh oysters direct from Shoalwater Bay, and we advise all who know a good thing to call and see them.

FAIR.—The Linn County Fair, the first of the season, commenced yesterday. The Albany *Democrat* will issue a daily edition, and from its columns we expect to be able to compile a good report.

LOST.—On the road between Sublimity and Salem, a small leather covered pocket diary, having the owners name, Josiah Callison, written plainly on the inside. It contains a note for $20, some bills, a letter addressed to Watkinds & Co. and other papers useful to the owner and to no one else. The finder will confer a favor by leaving the same at the STATESMAN office.

THE AMOUNT OF MONEY which can be saved in every family by buying silver or copper tipped shoes for children, will surprise any one who has not tried it. All parents may lessen their shoe bills two-thirds, and at the same time avoid the disagreeable sight of ragged stockings and protruding toes, always seen when shoes are not protected by metal tips.—*N. York Post.* z1:sep22

IMPROVED.—The Portland papers hear information that the gas light in Salem is not very good. We are pleased to be able to correct that impression. The first night while the gasholders contained a great quantity of air, the light was not very bright, but the next time showed a visible improvement, and now the light is all that can be desired. We are told that when the gas was first turned on at Portland, it was so mixed with air as to give scarcely any light at all.

ARTISTIC.—No one with one eye for taste, can pass the elegant show windows of Murphy & Crossman, in the Bank building without remarking the excellent style in which Al. has arranged his fine goods for inspection. We learn with pleasure from him that his first week as a business man on his own account was even better than had been anticipated.

BITERS BITTEN.—We learn from the Dallas *Republican* that some sharp fellows from Marion county, and one from Polk, recently took some fast running ponies from here to the Grande Rounde Reservation to clean out the Indians. They succeeded in getting a good race, on which the aborigines staked every cent they could raise *and won*. How's that for "Lo?"

NEW WASHING MACHINE.—We have an opportunity to speak from actual knowledge of the excellent work done by Smith's new washing machine, advertised in our columns. We have had a washing done with it, and its operation has been to all intents successful, as the washing was done at short notice and done well. We have arranged for a machine for home use and shall get it as soon as Anderson & Brown can make it. One important fact we discovered without any help was that the washing done with this machine is, that very little soap does excellent work.

Hop Raising.

ED. STATESMAN:—The approaching commencement of the State Fair induces me to make a few suggestions to its managers in regard to a very important branch of industry, and one if conducted and fostered properly by the State Agricultural Society would contribute in no small degree to the advancement of our State. I mean hops raising. In our sister states of California, Michigan, New York and others, the societies in their list of premiums give a paying premium to the hop raiser, and by that means have succeeded in making their several states famous as hop growing countries. That branch of industry is fast growing into importance in this State, and yet our State Society has apparently ignored that important mode of developing the resources of our young and prosperous State. I do not for a moment suppose that they are opposed to it, but believe they are not fully aware of the proportions hop raising has assumed. Should a prize sufficient to defray the trouble and expense incident to getting a bale of hops in the market be given by them. The patrons of the fair should, I am sure, be surprised to see the rapid strides Oregon has already made in this important branch of industry. Come out gentlemen directors, and give hop growers a premium worthy of competing for.

GENERAL NEWS.

MULTNOMAH.

The *Bulletin* under the head of local intelligence has six items from the STATESMAN. The *Herald* has three. Our "loke" says neither of those papers pay him a cent.

From the *Oregonian:* We learn that the Bates troup met with a great success in their rendering of the new play "Frou Frou."

William Ryan was sentenced to thirty days for petit larceny and was committed for trial for grand larceny.

A Salem man had a couple of acquaintances arrested on a charge of stealing his watch, but found it and apologized.

Preparations have been made for a grand reception of General Sherman.

LINN COUNTY.

From the *Journal:* Last Saturday as Mr. Joseph Green was crossing one of the old rotten bridges a short distance this side of Maxwell's ferry, it gave way and precipitated him and his team and wagon about twelve feet. Fortunately for him he made a leap just as the wagon began to go down, and striking on his hands he made another leap which put him out of the way of the wagon which fell exactly where he first jumped. There were three horses to the wagon. One hung suspended across a beam, while the other two fell to the ground, striking on their backs. The horses were all more or less injured, while the wagon and its loading were completely smashed up.

Sheriff Poindexter has been quite ill for several days.

BENTON COUNTY.

The *Gazette* has the following mention of a couple of "smarties," who left Salem after our free puff of their operations: A pair of sneak thieves, from Portland, have occupied a street corner all the with a lottery swindle in which bogus jewelry constituted the prize. They carried away considerable money without leaving anthing in exchange—except in one instance, and that occurred in this wise: They went to a young clerk in the Postoffice store, and arranged that he should "cap" for them by taking a dollar of their money and throwing for a prize. He did so, and, much to the astonishment and admiration of the bystanders drew a very decent looking silver watch. This was all a blind to "toll" in the spectators, but when ye gentlemen of the dice came to demand the watch, privately, of course, our mercantile friend lifted his finger to the larboard side of his nose, and plaintively intimated that the mild request was very ancient. Not only did he keep the watch, but told everyone how he got it—which was of course edifying to the Portland "sharps." Served him right.

WALLA WALLA.

From the *Statesman:* Two large pack trains started out on Sunday, both loaded for Cedar Creek. These trains only came in a few days since, and starting out so soon is the best indication that packing to the new mines pays.

On Monday night, about 9 o'clock, a tremendous storm of wind and rain passed over this valley. For a time the rain descended in torrents, and the wind blowing a perfect tempest, the whole presented a very fair specimen of a tropical storm.

We hear it rumored that most of the military in high rank positions are endeavoring to have Fort Walla Walla garrisoned and to be occupied as a school of practice for the cavalry arm of the United States service.

With the District Court in session, the circus and other attractions, we have never known Walla Walla as crowded as it has been for the last week. So great has been the pressure that in many instances strangers were unable to secure beds, and the man who could secure a pair of blankets and a soft plank, was in luck.

A man named Wilson, who lives on Birch creek, Oregon, had his left foot amputated, on Saturday last. Some months since he sustained an injury in his foot which had resisted medical treatment, and gangrene having set in, amputation became necessary to save life. The amputation was performed by Dr. Steinberger and at this writing the patient is doing well.

United States Marshal Kearney estimates that the population of Washington Territory will foot up considerably less than 30,000—possibly 27,000. Even this is an increase of one hundred per cent. on the census returns of 1860.

DOUGLAS COUNTY.

From the *Ensign:* Peaches sell in Roseburg at $1 50 per bushel.

Mr. A. Miller had his fences destroyed by fire, and only saved his barn by the assistance of his neighbors.

A new trail is being made from Brown's in Coquile valley to Camas Prairie. This is done by private enterprise and will be an improvement on the old route.

From the *Plaindealer:* A carriage overturned with Mrs. Field, Mrs. Haynes and Mrs. Mosher. The party were all bruised but none of them seriously hurt.

A little son of Mr. Jordan, of Roseburg, fell from a barn and broke his arm below the elbow. It was set by Dr. Palmer and is doing well.

The total sales of land in Douglas county during the past few months amount to 11,191 acres, the aggregate price of which was $51,305.

The bills allowed by the County court amount to over one thousand dollars exclusive of road work and lumber.

LATEST BY TELEGRAPH.

DATES TO SEPTEMBER 20.

[SPECIAL TO THE STATESMAN.]

London, Sep. 17.—A dispatch from Bermush, eleven miles northwest from Strasbourg, says:—There has been heavy firing all day from heavy guns in the third parallel, causing great destruction to the walls and citadel. An effort to carry the fortifications by storm will doubtless be made to-morrow. Several fires have broken out in the city. The sufferings of the people are very great. Provisions are served out in limited quantites.

Paris Sep. 16, 9, p. m.—The rappel has just been surrounded, forces called to arms and sentinels doubled. The Prussians have been signalized. This morning an engagement took place on the road from Melem to Rie, between our sharpshooters and the Prussians, in which many were wounded, but the result is unknown.

London, Sep. 16—A dispatch from Paris says Trochu received to day the advance guard of a corps of 10 000 American volunteers.

Metz holds out. Bazaine has 75,000 men and an abundance of provisions and ammunition, and is constantly harrassing the enemy.

The bombardment of Toul was resumed yesterday forenoon, and continued all night.

Paris, Sep. 16.—Prussia demands the restoration of Napoleon.

The Prussians occupy some small woods around Paris that were too green to burn. Cannon and musketry firing had been heavy all day in the direction of Bourge.

Berlin Sep. 16.—The Belgian Legation has been officially notified of the raising of the French blockade in the Baltic and North seas, on the 11th inst.

Paris Sep. 16.—The advance of the Prussians steadily continues. They are closing on Paris in a way indicating an attack on the south and southeastern sides and in that direction, so as to secure supplies, and at the same time prevent reinforcements from the southwest being received. Military men of experience say that the power of the city is limited only by the supply of food.

Tours, Sept. 17.—The French have blown up a fort at Rincimes as untenable. An engagement has taken place outside of fortifications.

The usual lines of communication between London and Paris have been intercepted. The Orleans railway is cut. It is thought a heavy battle is in progress near there, as heavy firing is heard.

London, Sept. 17.—A sharp fight has occurred. Grain stored at railway stations has been removed within the city.

Berlin, Sept. 17.—Considerable excitement exists from an attempt to assassinate the French Emperor by a German apprentice.

London, Sept. 18.—Prospects of peace are thought to be no better than at any time since the beginning of the war. Lord Lyons conducted negotiations between Farri and Bismarck. It is said a brief armistice has been arranged.

Paris, Sept. 18.—Strasburg is nearly untenable and the inhabitants are deserting the city.

The Prussians crossed the Seine last evening near Athis but were driven back. Cannonading is now heard toward Bictre. The King still refuses to recognize any other than Napoleon or Bazaine as the Government. A committee of German workmen protest against the war.

Tours, Sept. 18.—The Corps Diplomatique arrived to-day. There was a fight yesterday between the Prussians and three regiments of the Line, assisted by some Battaliions of the Gardes Mobile and a battery of artillery. The enemy fell back.

There was hard fighting around Paris yesterday. The foreign Ministers left Paris in haste, expecting a serious attack to be made.

Paris, Sept. 17—1 p. m.—A messenger from the King's headquarters reports that Bismarck and the King insist upon the permanent occupation of Strasburg and Metz. Indemnity is not a question of so much consideration, but the other condition is absolute.

The Prussians are delaying operations against Paris, depending upon an insurrection against the Provisional Government.

London, Sept. 18.—The Prussian cavalry was defeated on Thursday afternoon near Guignes and driven back on Melun, which town was occupied in force.

...he extensive mills and granaries at Essonne were destroyed by fire with all its contents. The city of Calais was this morning declared in a state of siege, and put under martial law.

Paris, Sept. 17.—Victor Hugo's address to-day is exciting all classes to oppose the return of Napoleon.

A balloon has arrived from Metz with letters.

Paris, Sept. 18th.—A fight took place yesterday, ten miles from Paris, between the advance guard of the Prussian army and a reconnoitering party of French. The latter were driven back and the Prussians established themselves on the heights which the French had been holding. The Prussians numbered thirty thousand. The fight is said to have been very bloody one, and the French though beaten, inflicted heavy loss on the Prussians. The contest raged upwards of two hours.

Trains on the northern railroad from Rouen only run as far south as Burteal at present.

The Prussians are expected at the latter place on Saturday.

Fragments of the Sedan army has arrived at Rouen, cousiting of six hundred men, who previously escaped from Metz.

London, Sept. 19th.—Rome is not yet occupied, though the Italians advanced to within a short distance of the city.

Paris, Sept. 19th.—The Red Republicans continue to placard walls in the city with hand bills, announcing a new Government. Trouble is apprehended, and citizens declare that they prefer Prussian rule.

London, Sept. 19th.—The *Post* says a balloon with fifty thousand letters from Metz, was captured at Neuf Chattel. In one of them Marshal Bazaine says his army is well supplied with everything, and the French have been victorious in every fight up to the 31st of August.

Bismarck insists on evacuation of Metz and Strasbourg, or else Paris is to be starved out.

Germans laugh at Bazaine's hopes of escaping from Metz.

London, Sept. 20th—2:30 p. m.,—There has been skirmishing near Ivony and Challetou, on the outside of Paris.

The Prussians now occupy Chamont and Meudon.

The Crown Prince is nearly to Fontablean. The Prussians crossed the Seine at Choiss.

Advices have been received from Strasbourg up to yesterday. On Monday the cannon of the garrison was nearly quiet. General Uulrich has been badly wounded, his headquarters have been removed to the cellar of the Prefect of Police. A vote was taken by the people of the city on the subject of surrendering, and it was decided by a large majority to continue the defence to the last.

Postal service with Paris is now performed entirely by messengers.

A sortie from Metz was ordered yesterday, but subsequently countermanded.

The French peasants continue to murder German officers, by picking them off with rifles. They have also cut the telegraph, and inflicted other damage near Evernay.

The demonstration of the people of London, last night, was one of the greatest popular assemblages ever seen at the British capital. Resolutions of the meeting were friendly to the German people, but bitter against German Princes.

The *Times* Berlin correspondent confirms the report that the Prussians are ready to meet with any French Government capable of making any guarantees of peace. Barricades are rapidly forming at Paris, inside the fortifications.

Lyons is in a state of defense. There are many troops there.

There is horrible suffering at the seat of war. Soldiers are suffering from starvation, women are violated, the dead outraged, and prisoners famished.

The Italians are about to force the Roman gates, and a feeble resistance is anticipated.

DEATH OF THE GREATEST OCULIST IN THE WORLD.—Von Graefe died at Berlin on the 21st of July, and in his death Prussia sustains a loss that will be felt like the loss of a battle. He died aged forty-two years the chief oculist of the world. Although the son of a rich father, and inheritor of a large fortune, he entered into his profession with enthusiasm, and pursued it with energy. He was first to operate successfully in iridectomy, and the first to bring the opthalmoscope into use. When he commenced practice but two operations out of three for cataracs succeeded. Now, nine out of ten under his present system succeed. His inheritance and fees he devoted to a hospital for one or two hundred patients, one-third of whom were supported and operated upon gratuitously. Before he was thirty, noble and crowned heads of Europe came to him for relief, and many patients from America crossed the ocean to secure his services. He never made a charge or presented a bill. His patients made their own estimates of his services. It was usually a liberal one by the rich, and if by chance any one sent less than was reasonable it was at once returned. He excelled as a teacher, and his school drew students from all parts of Europe and America, and threw Paris and Vienna quite in the shade. His continued application and intense devotion to his school threw him into a decline.

EPISCOPAL CONVOCATION.—The Eighteenth Annual Convocation of the Protestant Episcopal Church, in the Missionary District of Oregon and Washington Territory, met in Portland on Friday morning, after the morning service and a sermon by the Rev. T. A. Hyland of Astoria, in Trinity Church in that city. Most of the clergy of the jurisdiction were present, and a number of the laity. The usual routine of business was gone through with, with dispatch. One important matter of interest, was the report of the Secretary of the Missionary Convocation held in the jurisdiction during the past year. It exhibited an amount of aggressive work such as has never been wrought in the field before. The Episcopal Church is doing a good work in Oregon, and is showing herself a truly energetic and missionary body.

In the evening a large congregation assembled to hear the Bishop's annual address. It was deeply interesting, and was full of the earnestness and Godly zeal so characteristic of the Bishop. It revealed a vast amount of Episcopal work accomplished during the year; of schools established, church property secured in many places, churches being built, and of services performed, all proving what an energetic and wise and executive Head the Episcopal Church has in this land. Before closing the Bishop gave some wise and faithful council to the clergy of his charge, both as regards their work as preacher and pastor.—*Herald*

TARRANT'S SELTZER APERIENT.
The Great Salubrient.—Prepared in an instant, bright and sparkling as champagne. Thirst satisfying, cooling and refreshing. TARRANT'S EFFERVESCENT SELTZER APERIENT is the most convenient and palatable preparation ever administered to an invalid. If it were not classed among the most celebrated medicines of the age because of its wonderful efficacy as a corrective and alterative, it might be well styled a choice summer luxury. It is a swift remedy for all the pains and penalties of imprudence in eating or drinking, immediately relieving acidity of the stomach, flatulence, bilious headache, nervousness, physical prostration, colic, and all derangements of the stomach, bowels, liver, or kidneys, occasioned by undue indulgence or other causes.

False Pretences.
The vast and continually increasing sales of Hostetter's Stomach Bitters have provoked the envy of a certain class of dealers in various parts of the country, who are trying to substitute their utterly worthless local nostrums for the most popular proprietary medicine in the world. These impostors hope by their false statements to obtain from the millions who patronize the great American Tonic, a sufficient number of customers to make their speculations upon the health of their neighbors profitable. As the demand of Hostetter's Bitters is now so large and urgent as to tax to their fullest extent the facilities for its manufacture, these petty attempts to wring in the cheapest trash by false representations, are of little consequence to its proprietors. They are, however, a serious evil to the victimized. If, for example, at this season when a real invigorant is greatly needed, the sufferer from general debility, indigestion, biliousness or nervous weakness, is coaxed into using wishy-washy compound without any medicinal virtue, instead of the sovereign specific in which the restrative tonic and alternative vegetable elements are scientifically combined, it is obvious that he will rue the day when he allowed himself to be thus deluded. It is in the interest of parties who have been or may be influenced by the persuasion of plausible charlatans, that this article is published. With the light of twenty years experience to guide him, why should the invalid take a leap in the dark.

Sacramento	11½ "	San Fra'co "	8 p. m.

The Stages of the O. & C. S. Co. connect with the Cal. & O. R. Road at Chico, 230 miles North of San Francisco; also at the Junction with the Great Overland Railroad to New York.
Time through to San Francisco........ 5 days.
" " New York .... 12 "
☞ Passengers allowed to lay over along the route.
Those who travel by this route avoid the dangers of the sea and that dreaded and terrible feeling of sea-sickness. The wild picturesque scenery, beautiful valleys and snow-capped mountains, alone, doubly pay the tourist for a trip over this route.
The route passes through the principal agricultural districts of Oregon, the valleys of the Willamette, Umpqua and Rogue River. To the immigrant coming here in search of a house or investment, this route is strongly recommended.
