R Co. to decide what point shall be the commercial metropolis born of its construction. We expect to see that road built down the north side of the Columbia, and we see no reason why Kalama will not be fully able to compete with any city to be built upon the Sound for the trade from the ocean and from the interior. To that point the great sea going ships can come, and there seems no rea or why it should before we get it we can only judge by looks not also become the supply depot of the interior of the continent. We expect to see the East side road continued to the Columbia river to connect with the continental road, and we see no reason why the idea lately advanced says he has turned over one hundred acres by a correspondent of the Mercury, West side road should also be continged direct to the Columbia river, to cholly fact that the numbers sent to the Insame Asylum the past year exceed those connection. It seems to us that these sent there during the previous to that time. are proper and inevitable results of a

State, perhaps incident to the greater ex- As another result of the present itement consequent upon the development f time, and of construction of the North the country.
