TUESDAY. Our Public Schools.

We give considerable space to-day to the report of County Superintendent, Rev. L. J. Powell, which will be found to contain many valuable facts and

suggestions. The schools of the county seem to be generally in a satisfactotation from Eagene city ry condition, and those in this city are thriving as well, and as successful as

they can, under the circumstances. The Superintendent seems to favor the improvement of these schools, by placing them on an independent basis, and making them really free schools, by raising a tax sufficient to cover all the expenses of tuition. This would indeed be an important thing achieved

for our town, and we are inclined to think would redound greatly to its

prosperity, as it certainly would to its reputation for liberality in aid of popthe laws of the State of Kansas, is ular education. It remains for the hereby authorized to purchase from voters of the School District to decide the question for themselves, and if they are prepared to answer in the affirmature and horticuleure, that portion of tive, these public schools can be, made the Fort Leavenworth military reser-vation bounded and described as foluniversal good to its rising generation.
