Magazines.

The Herald of Health, for August, i received, containing valuable reading of the best character, including articles on Physicians and the Temperance Reform, A Visit to Father Cleveland, Teaching of young Children, Home Life, Secret of a Wholesome Life, About Human Longevity, Good Recipes, William Howitt's Habits of Life, Tobacco, and many others.

Home and Health is another magazine which treats of healthful topics and home interests, published by W. R. De Puys & Brother, 805 Broadway, N. Y., at the low rate of \$1 50 per anoum. Twenty copies to a club for \$1 each. This kind of literature is annually becoming more popular, and as it is of great value to the public to receive such information the fact is of the

greatest importance.

Woods' Household Magazine seems to be gaining ground rapidly. It has a good corps of writers and pays them well. Its matter is excellent and useful as well as entertaining, and its price is only one dollar a year. It is published at Newburg, N. Y.

Beecher's Illustrated Magazine is a new candidate for popular favor, published by Beecher & Sanford, Trenton, N. J., dollar per year. There is no reason wby everybody cannot have plenty of good reading at these prices.

The Manufacturer and Builder, for August, is also received It offers many valuable facts for \$1 50 per year, and every mechanic should subscribe for it or some such work, and it will prove valuable to all persons who wish to be commonly well informed of modern mechanics and scientific anbjects connected therewith.
