THE PROPERTIONISTS.

A Correspondent Has Something Timely to Say of the New

Third "Party." WHITEAEER, Oc., March 22, 1886. EDSTOR STATESMAN: As the several political forces have begun to form their lines for the coming struggle next June, and a new element has made its appearance upon the field of combat, all painted and tattooed in the ochre of its creed, colors flying, "and nailed to the flagstaff" watch-word buttle cry, and I wish to say a few words in regard to the history, composition, formation, and aspiration of their nondescript sailing under the nom de plume of "prohibition." Ever since the world has been peopled and those people formed into tribes and nations, there have been persons ready to advocate or assume anything that will aid them in selfelevation, and more has been done by persons having the true welfare of those whom they try to deluie at heart. It is always done by persons who have not sufficient merit to be elevated by the people in the regular channels, or those who by their cheek and intrigue ride their friends and party until, like the old pack horse, their backs become chaled and the rider is thrown into the guiter, then in a spirit of revenge he gets up and flings the first missile at the old horse, which has patiently borne him until forbearance ceases to be a virtue, hoping at the same time to either intimi-date him and enable the rider, covered with the must, rust, and dust of the getter, to climb sack on the tired old horse and unwisciully ride him to death, and then there are always persons ready to be gulled and deluded by thequixotic doc-trine taught by the narrow minded persons. Since the organization of the re-publican party it has fought the butles for national advancement and high moral standing of its people, and it has also championed the temperance cause in every fight that has been made by temevery fight that has been made by temperance against intemperance. To it we are indebted for every law governing the manufacture and sale of alcohol, and especially to the splendid laws of the State of Oregon, which with a few slight amendments are all the deep thinking and liberal minded man can ask. We have the alcoholic traffic under complete control. We derive a considerable revenue from it, while to prohibit or try to prohibit it the manufacture and sale we enue from it, while to prohibit or try to prohibit the manufacture and sale we would lose this revenue, be compelled to keep an army of police on the lookout, and whisky would be manufactured and sold all the same. This party is com-posed of the outcasts and se and class material of republican and democratic parties, men who have rode their party until like the old horse, forbearance has parties, men who have rode their party until like the old horse, forbearance has been dispensed with; who aspire not to prohibit the manufacture and sale of intoxicating liquors, but to elevate thousands into positions where they are not wanted. Four of the present prohibition nominees are men who were refused office by the republican party two years ago, after having ridden the poor old horse until no human influence of the people said, you shall walk awhile. How many of them have been heaved overboard with the garbage of the democratic party I do not know, but I will venture this assertion, that there is not more than one true temperance man on the than one true temperance man on the prohibition ticket. The rest are actuated by mercenary motives. The ticket of of this party is formed by men who either civilly or politically have proven them-selves mentally incapable of fulfilling the trust reposed in them by the people. They (so claim) aspire to quixotic doctrine of prohibiting the manufacture and sale of intoxicating liquors, which at the present time could not be inforced. No one more deeply deplores the evils caused by the use of intoxicants, but success must be gained step by step and until a majority of the people of the State of Oregon are willing to enact prohibitory laws, how is this step to be attained? We answer by leaving it to the people in such a manner that every man can vote whisky or no whisky irrespective of party. Can this be gained by a third party and and all of the three fighting each other? Our answer is invaribly no. Had Wellington and Blucher been fighting each other, each ready to take advantage of the other, the battle of Waterloo would have worn a different aspect. Negative forces combined produce negative results. Position and negative forces combined produce negative results, and to produce positive results all the forces brought to bear against the object must be positive. Take the democratic, republican and prohibition parties, each ready to take any advantage of the other, and let them array themselves against King Alcohol, and alcohol will invariably win. But let the people decide whether they will ex-clude whisky from our state. Let the legislature place it before the people and let them make common cause of it. Let all the forces brought to bear against it be positive, and the result will invaribly success. For my part I am a republireared by a republican mother, and I can look back on the history of the republican party with pride. It has met King Al-cohol upon many a field and has fought him with varying results, and I cannot but think that after the prohibitionists have fired off their premature blast and the smoke has lifted they find a little dirt loosened, but no damage done to the giad to call upon the old republican party to remove the obstructions that lay in the of success. Like Nero, I can cry, I would to the gods that the cord that binds every damnable influence arising from cord, that I might sever it at a single blow and thus banish this demon king at a word, and this is the opinion of many old temperance republicans who fall to see how success is to be gained by the use of a third party, headed by men who do not care a straw for temperance, but only want office at any price. TEMPERANCE.

KELLY -- At his residence, 310 Liberty street, about S o'clock p. m., March

23, 1886, Andrew Kelly.
Andrew Kelly was born in County
Longford, Ireland, March 25th, 1831, and was at the time of his death, 55 years old lacking two days. He leaves a wife, four children, a brother and a host of friends to mourn his loss. Mr. Kelly had long been identified with Salem and its interests, having lived in the city for 27 years. He was a member of the fire department, having served in the hook and ladder company, and had received his exemption certificate. He had served the city also as mayor, for a full term, preceding the administration of the present incumbent. He did honor to the office, and gave general satisfaction to all parties. 'He was a member of the Maonic fraternity, having been inducted into its sublime mysteries, March 10th, 1865, in Salem Lodge, No. 4. He was a charter member of Pacific lodge No. 50, of this city, having held in said lodge many positions of bonor and trust. He was also a Christian, having been a member of the Christian church of this city during the whole time of its existence here, and had long served efficiently the church as a deacon, and was an honored mem-ber at the time of his death. He was always a gentleman, and was loved and respected by all who knew him. He had a high sense of honor and never swerved in the line of duty. He had firm convictions but they were so tempered with good judgment that he rarely, if ever, made an enemy. He will be sadly missed and long remembered in this community. His funeral will be conducted at the Christian church of this city, March 25th John Flannery and W. B. Zumwalt will start for eastern Oregon next Thursday.

CONGESTION OF THE KIDNEYS, BACKACHE. INFLAMMATION OF THE KIDNEYS BLADDER. OR URINARY ORGANS.

Catarrh of the Bladder, Gravel. Stone, Dropsy, Enlarged Prostrate Gland, Impotency or General Debility, Bright's Disease

WHY? Because it is the only remedy known that has power to expel the uric acid and urea, of which there are some 500 grains secreted each day as the result of muscular action, and sufficient, if retained in the blood, to kill six men. It is the direct cause of all the above diseases, as well as of Heart Disease, Rheumatism, Apowell as of Heart Disease, theumatism, Apo-plexy, Paralysis, Insanity, and Death.

WHY? All these troubles, as is well known by every physician of education, arise from congestion and impaired kidney action, causing stagnation of the blood-vessels and breaking down, and this is the beginning and the direct cause of all the ailments from which women suffer, and must as surely follow as night does the

WHY Warner's Safe Cure is acknowledged by thousands of our best medical men to be the only true blood purifier, is because it to be the only true blood purifier, is because it acts upon scientific principles, striking at the very root of the disorder by its action on the kidneys and liver. For if these organs were kept in health, all the morbid waste matter so deadly poisonous if retained in the body, is passed out. On the contrary, if they are deranged, the acids are taken up by the blood, decomposing it and carrying death to the most remote part of the body.

WHY 93 per cent of all diseases which afflict humanity, arise from impaired kidneys, is shown by medical authorities. Warner's Safe Cure, by its direct action, positively restores them to health and full working capacity, nature curing all the above diseases herself them the cause is removed, and we guarantee that Warner's Safe Cure is a positive preventive if taken in time.

KING'S EVIL

Was the name formerly given to Scrofula because of a superstition that it could be cured by a king's touch. The world is wiser now, and knows that

SCROFULA

can only be cured by a thorough purificaion of the blood. If this is neglected,
he disease perpetuates its taint through
generation after generation. Among its
earlier symptomatic developments are
Eczema, Cutaneous Eruptions, Tumors, Boils, Carbuncles, Erysipelas,
Purulent Ulcers, Nervous and Physical Collapse, etc. If allowed to contime, Rheumatism, Scrofulous Catarrh, Kidney and Liver Diseases,
Tubercular Consumption, and various other dangerous or futal maladies, are
produced by it.

Ayer's Sarsaparilla

Is the only powerful and always reliable blood-purifying medicine. It is so effectual an alterative that it cradicates from the system Hereditary Scrofula, and the kindred poisons of contagious diseases and mercury. At the same time it enches and vitalizes the blood, restoring healthful action to the vital organs and rejuvenating the entire system. This great
