The Failure of the Hop Crop.

CANAJOHABIE, N. Y., July 7 .- By coned reports from Montgomery, Oswe-Schell, Oneida, and Madison counties, it is estimated that the hop crop this fall will not be over one-quarter of the average yield. Three weeks ago pros-pects were never brighter, but now the yards are literally covered with lice, Eng-lish files, and honey dew. Either, ap-pearing at this stage of the vine's growth, augurs failure of the crop. Of eighteen yards, near Shaston Springs, visited none had escaped their ravages. The leaves are dry and curled, and growers who de-pend wholly upon their crop are very de spondent. Where 4 and 6 cents were offered for last year's crops three weeks it is estimated that the hop crop this fered for last year's crops three weeks to, now 16 and 18 cents are easily ob-ined. Very few old hops are in grow-

Why Warren Green was Rejected.

WASHINGTON, July 8 .- The Critic says the senate did not refuse to confirm the nomination of Warren Green to be consul-general at Yokohama solely because of his freaks at poker. It says that when his nomination was taken up by the committee on commerce its members were informed that Green, soon after ar-riving in Japan, established a harem, after the manner of native dignitaries of the sast American families at Yokohathe east. American families at Yokoha-ma felt themselves scandalized by this conduct of their consul-general, and they sent to the senate specific allegation as above outlined, and protesting against his confirmation. It is said the reading of the charges in the committee room caused several of the senatorial salons to squirm and others to blush. The com mittee then unanimously reported against confirmation, and Streathouse was ap-pointed and confirmed.

THE ENGLISH SITUATION.

Speculations as to the Future Action of

NEW YORK, July 10 .- Times' London cablegram: The new parliament approaches so near us now that, like the British files at Bunker Hill, we can see the whites at bunker rhin, we can see the whites of their eyes. The tories will not have a majority. They have a total of 264 members, with 146 more elections to take place. Of these, the tories car-ried last autumn 20 English, 5 Scotch, and 7 Irish constituencies. If they do so now, it will give them a total of 296 mem-bars, which is thirty-nine short of hel-bars. now, it will give them a total of 296 mem-bers, which is thirty-nine short of half the house. If the tide continues to run as it has heretofore, they will be likely to gain fifteen seats. This will leave them twenty-four short of one-half. But of the remaining vacancies, ten are in Yorkshire, four in Cornwall, five in Ches-bire, four in Dorset, four in Derby and hire, four in Dorset, four in Derby, and four in Cumberland, all Gladstone strong holds, and so are most of the others The tories' gains are therefore more like ly to number ten or under. Nothing but a miracle can give them a clear majority. Thus Chamberlain will occupy in the next house of commons the position of arbiter of the ministry's action, which Parnell held in the last parliament.

GLADSTONE'S INTENTIONS.

There is a story in circulation that Gladstone will ignore the division in his party when the house is called to meet, assuming that all members are liberals assuming that all members are liberals who are not branded tories, and let the home rule bill lie over one session. But I learn that the aged premier desires nothing so much as the formation of an-other ring for a second fight, and is al-ready planning to smash the future Salis-bury ministry, drive Chamberlain out of mublic life, and after a sharp series of public life, and after a sharp series of debates in the house go to the country

The Last Hope of Success of Home Rule Gone.

Lonnon, July 7 .- The last hope of the Gladstonians-the vote in the countieshas failed. The English counties are going unionist. The counties of Somerset, Warwick, Hereford, Derby and Shopshire, in which centers the agricult-

ural vote, have returned conservatives. Scotland continues Gladstonian. Numerous county polls have not yet been taken, but it is impossible to reverse the defeat of the government. The unionists are confident of an ultimate 370 against 300. The conservatives are certain, with a

compact phalanx of 300 members, that Lori Salisbury will form a purely con-servative ministry. Cable Specials from London.

NEW YORK, July 7.-Times' London pecial: Every body in London concludes that the question whether there shall be home rule or not has been decid-

ed in the negative. Leaders of the Irish party, while not altogether disheartened, are wholly angry because of side issues which have caused or helped to cause their defeat.

Result of the Elections in England.

Loxpon, July 9 .- It is believed, unless the counties yet to be heard from entirely change the situation, the Marquis of Hartington will be offered a chance to form a ministry. This belief is not shared by faithful adherents of Gladstone, who hope he may be in a minority so small as to justify him in retaining office and in-troducing a bill designed to meet the views of all parties in the country who favor any sort of home rule. The most alarming prospect, however, is the possi-ble conjunction, merely for anti-home-rule purposes, of conservatives and so-called unionists against Gladstone and Parnell. This would give 388 anti-home-rule votes against 282 for home rule, and this is just what conservatives here are tington will be offered a chance to form a this is just what conservatives here are hoping for.
