TALLMAN ITEMS.

Wheat is selling for a good price at this place.

Prof. Brower gave his singing class an oyster supper last Friday night. The evening was spent in games of different kinds and vocal music.

Burnie Marks, while cutting feed with a cutting knife, had the misfortune to get the three first fingers of his left hand very badly cut. The hand was immediately dressed and is getting along nicely.

FRITZ.

MADE HIM VIBRATE.—Yesterday afternoon Rev. J. R. N. Bell, Mr. Benjamin, of Douglas, and Mr. Blundell, the small member from Douglas, were discussing the acoustic properties of the new hall of representatives. Mr. Benjamin remarked that he had raised his voice above natural pitch, in order to make himself heard all over the house. "Yes," added Mr. Blundell, whose seat is the second directly in front of Mr. Benjamin, "and it is very annoying to me, for every time he raises his voice, it causes me to vibrate." The smile that went around was quite audible, and Mr. Bell gave him a receipt for three months' subscription to the Roseburg Review, without payment.

THE LECTURE.—Rev. J. R. N. Bell's lecture, delivered on Tuesday evening, at the Congregational church, was well attended, and proved very interesting. Good attention was paid throughout, and the lecture was well enjoyed.

A TERRIFIC EXPLOSION.

A Cargo of Powder on a Wreck Blows Up and Wrecks the Cliff House.

SAN FRANCISCO, Jan. 16.—At midnight last night the Merchants' exchange received a telephone message from Point Lobos signal station that the schooner Parallel had been driven on the rocks near the Golden Gate and would probably prove a total loss. An hour later another message was received that an immense quantity of giant powder aboard had blown up, destroying the Cliff house and other buildings on the shore in the neighborhood. Reporters and police officers were hurriedly dispatched to the scene of the disaster.

The schooner, in beating against the rocks, had caused the powder to ignite, and the entire quantity aboard, nearly 100,000 pounds, had exploded.

To those living in the neighborhood the effect was frightful. The signal station was completely demolished, the life saving station was also wrecked, and the west side of the Cliff house, notwithstanding its elevation, was blown out, and every window pane in the building broken. The large concert room on the beach, and other buildings lower down, had all their windows broken and otherwise more or less damaged. The long carriage shed adjoining the Cliff house was tumbled into a mass of ruins. Adolph Sutro's conservatory, on the lights above, was shattered to atoms and all the windows of the life-saving crew, who built a fire on the beach and decided to remain near the wreck, were hurled into the air by the concussion and severely injured in being again dashed to the earth.

At 1 o'clock, the sleepers were thrown from their beds by a great explosion which upheaved the cliff and a tidal wave swept up from the Pacific. A great wave dashed up and vaulted over the Cliff house building. The whole shore and cliff literally trembled and shook as no earthquake has shaken the earth for years. People were rudely thrown from their beds by the force of the explosion. Furniture and bedsteads were tossed and heaped about the room. The famous Cliff house presents a scene beggaring description. The west side of the building, overlooking the ocean, is completely ruined and only held together by cross-beams. The windows are smashed, the doors twisted off the hinges and the whole building left in such a shattered condition that it will have to be taken down, what is left of it, even if it does not topple over into the ocean.

MARRIED.

BOURGEOIS—McCOY.—In Salem, Jan. 18th, 1887, by Justice J. O'Donald, Clementine Bourgeois to Ambrose McCoy, all of Marion county.

JERNEGAN.—In Davisville, Yolo Co., California, December 4, of consumption, William L. Jernegan, aged 53 years.

Deceased worked on the STATESMAN eighteen years ago.

CHAMBERS.—In Albina, on Friday evening, Jan. 14, 1887, at 10 o'clock, John N. Chambers, aged 66 years.

Deceased was born in New York in 1821, and when quite young moved to Ohio where he remained with his parents until 1846 when he came to Oregon and settled in Polk county. In 1849 he was among the thousands that visited California; returning from thence he made his residence near Salem, where he remained until three years ago, since which time he has resided in Albina. Mr. Chambers was a man noted for his Christian charities and humanity. "Blessed are the merciful, for they shall obtain mercy." He leaves a wife and eight children to mourn his loss. His many friends throughout the state will learn of his demise with sorrow. He was buried in the Odd Fellows' cemetery near this city yesterday morning.

HE HAD SEEN THEM.

"Let me show you some of this diamond jewelry?" said the persuasive salesman to a puzzled Christmas buyer. "Naw," said the other, "cost too much." The wily merchant pulled out another tray and said: "It don't cost anything to look at diamonds, Mr. Margin. The shopper jingled four cartwheel dollars sadly in his pocket and sighed: "Yes, it does, though; cost me \$100 to see five diamonds in another man's hand last night."

SUPERSTITIOUS.

"Your honor," pleaded the condemned man, "will you put my execution for Thursday instead of Friday?" "Why?" inquired the judge. "Because Friday is such an unlucky day."

WHAT AILS THE NATION?

The Average Length of Life Decreasing—Not Pestilence—Not Famine—All our own Fault.

MODERN COOKING AND MODERN LIVING have brought it on. It comes upon us unawares. The patients have pains about the chest and sides, and sometimes in the back. They feel dull and sleepy; the mouth has a bad taste, especially in the morning. A sort of sticky slime collects about the teeth. The appetite is poor. There is a feeling like a heavy load on the stomach; sometimes a faint, all-gone sensation at the pit of the stomach which food does not satisfy. The eyes are sunken, the hands and feet become cold and feel clammy. After a while a cough sets in, at first dry, but after a few months it is attended with a greenish colored expectoration. The patient feels tired all the while, and sleep does not seem to afford any rest. After a time he becomes nervous, irritable and gloomy, and has evil forebodings. There is a giddiness, a sort of whirling sensation in the head when rising up suddenly. The bowels become costive; the skin is dry and hot at times; the blood becomes thick and stagnant; the whites of the eyes become tinged with yellow; the kidney secretions become scanty and high colored, depositing a sediment after standing. There is frequently a spitting up of the food, sometimes with a sour taste and sometimes with a sweetish taste; this is frequently attended with palpitation of the heart and Asthmatic symptoms; the vision becomes impaired, with spots before the eyes; there is a feeling of great prostration and weakness. All of these symptoms are in turn present. It is thought that nearly one-half of our population has this disease in some of its varied forms. Shaker Extract of Roots (Seigel's Syrup) changes the ferments of the Digestive organs so as to convert the food we eat into a form that will give nourishment to the feeble body, and good health is the consequence. The effect of this remedy is simply marvelous. Millions upon millions of bottles have been sold in this country, and the testimonials in favor of its curative powers are overwhelming. Hundreds of so-called diseases under various names are the result of indigestion, and when this one trouble is removed the other diseases vanish, for they are but symptoms of the real malady.

Testimonials from thousands of people speaking highly of its curative properties prove this beyond a doubt. Sold by druggists.
