FOR CHOLERA.

Diarrhoea, dysentery, inflammation of the bowels or colic take internally from five to ten drops of Darby's Prophylactic Fluid in a tumbler of water every hour or two till improvement takes place.

CHILLS AND FEVER, MALARIA.

"Many cases of fever and ague, dumb ague and congestive chills were promptly arrested and entirely banished by the use of Simmons' Liver Regulator. You don't say half enough in regard to the efficacy of this valuable medicine in cases of ague, intermittent fevers, etc.

DIPHTHERIA.

"I am living in a neighborhood surrounded with diphtheria and was attacked with necrotic sore throat. I at once commenced to use Darby's Prophylactic Fluid, diluted about one-half with water, and in a few days the membrane and mucus came from my throat, and the attack passed off. I am satisfied of its efficacy as a preventive and cure for diphtheria."

LISTEN TO YOUR WIFE.

The Manchester GUARDIAN, June 8th, 1885, says: "At one of the 'Windows'..."

"Looking on the woodland ways! With clumps of rhododendrons and great masses of May blossoms!..."

"I included one who had been a 'Cotton spinner,' but was now an 'Ironing board'..."

"That he could only bear to lie in a reclining position. This refers to my case."

"I was first attacked twelve years ago with 'Locomotor Ataxy' [A paralytic disease of nerve fibre rarely cured and was for several years not able to attend to my business, although many things have been done for me. The last experiment being nerve stretching. Two years ago I was voted into the 'Home for Incurables' near Manchester in May 1882.]"

"I am no 'advocate.' 'For anything in the line of patent 'Medicines' and made many objections to my dear wife's constant urging to try Hip bottles, but finally to pacify her—"

"Consented! I had not quite finished the first bottle when felt a change come over me. This was Saturday November 1st. On Sunday morning I felt so strong I said to my room companions, 'I was sure I could 'walk'!"

"So I started across the floor and back. I hardly knew how to contain myself. I was all over the place, going around each day, and can walk quite safe without any 'stick' or support."

"I am now at my own home, and hope soon to be able to earn my own living again. I have been a member of the Manchester 'Royal Exchange' for nearly thirty years, and was most heartily congratulated on going into the room on Thursday last."

"Very gratefully yours, JOHN B. GREEN, Manchester (Eng.) Dec. 29, 1882. Two years later am perfectly well."

ONE EXPERIENCE OF MANY.

"Having experienced a great deal of 'Trouble in digestion, so much so that I came near losing my 'Life'."

"My trouble always came after eating any food—However light—And digestible."

"For two or three hours at a time I had to go through the motions of 'Excruciating pains,' 'And the only way I ever got 'Relief'."

"Was by throwing up all my stomach contents. No one can conceive the pains that I had to go through, until—"

"At last! I was taken! 'So that for three weeks I lay in bed and—"

"My sufferings were so that I called two doctors to give me something that would stop the pain. Their efforts were in vain to me. At last I heard a good deal 'About your Hip bottles.'"

"And determined to try them." "Got a bottle—in four hours I took the contents of 'next day I was out of bed and have not seen a 'stick'."

"Hour from the same cause, since. I have recommended it to hundreds of others. You have no such 'Advocate as I am.' Geo. Kendall, Alton, Boston, Mass."

GO EAST VIA OREGON SHORT LINE.

11 to 500 miles the shortest and 12 to 48 hours.

Terrible Surgical Operation A FATAL MISTAKE.

The Cleveland, Ohio, Press, of February 23d, 1883, published an account of a fatal surgical operation which caused a great commotion among medical men throughout the whole country, Dr. Thayer, the most eminent surgeon in Cleveland, pronouncing it scandalous.

It appears that a Mrs. King had been suffering for many years from some disease of the stomach, which had resisted the treatment of all the physicians in attendance. The disease commenced with a slight derangement of the digestion, with a poor appetite, followed by a peculiar indescribable distress in the stomach, a feeling that has been described as a faint, "all gone" sensation, a sticky slime collecting about the teeth, causing a disagreeable taste. This sensation was not removed by food, but, on the contrary, it was increased. After a while the hands and feet became cold and sticky—a cold perspiration. There was a constant tired and languid feeling. Then followed a dreadful nervousness, with gloomy forebodings. Finally the patient was unable to retain any food whatever, and there was constant pain in the abdomen. All prescribed remedies failing to give relief, a consultation was held, when it was decided that the patient had a cancer in the stomach, and in order to save the patient's life an operation was justifiable. Accordingly, on the 22nd of February, 1883, the operation was performed by Dr. Vance in the presence of Dr. Tuckerman, Dr. Perrier, Dr. Arms, Dr. Gordon, Dr. Capner and Dr. Halliwell of the police board. The operation consisted in laying open the cavity of the abdomen, and exposing the stomach and bowels. When this had been done an examination of the organs was made, but to the horror and dismay of the doctors there was no cancer to be found. The patient did not have a cancer. When too late the medical men discovered that they had made a terrible mistake; but they sewed the parts together and dressed the wound that they had made, but the poor woman sank from exhaustion and died in a few hours. How sad it must be for the husband of this poor woman to know that his wife died from the effects of a surgical operation that ought never to have been performed. If this woman had taken the proper remedy for Dyspepsia and Nervous Prostration (for this was what the disease really was), she would have been living to-day. SHAKER EXTRACT OF ROOTS, or SEIGEL'S CURATIVE SYRUP, a remedy made expressly for Dyspepsia or Indigestion has restored many such cases to perfect health after all other kinds of treatment have failed. The evidence of its efficacy in curing this class of cases is too voluminous to be published here; but those who read the published evidence in favor of this dyspeptic remedy do not question its convincing nature, and the article has an extensive sale.
