TURNER ITEMS.

No church services here yesterday. Miss Blanch Rains is visiting at Sublimity.

A. Shaw of the Waldo Hills spent Sunday in town. Dentist Caldwell, of Stayton did this

town last week. The mill has been shut down the past week on account of high water.

Harry Helmkee visited the metropolis of the northwest the 21st instant.

Our young men have consulted their better judgment and boycotted the Sunday foot racing.

A. Cartwright and J. K. Smith, of Hogum, were in the city Saturday on important business. The church and Sunday school is in receipt of 100 of the late revised Epworth

Hymnal song books. A corps of our boys organized a Salva-

tion Army and gave their first exercises at the church, Friday. The next reporter that calls Macleay

by its maiden name (Lick-Skillet) is to die the death of a rag baby. Friedman's auction, the latter part of the week, drew many honest tillers of

the soil to town, where they imagined an eldorado was to be given away. The bell for the church has been put on its pegs, and sounds very inferior to what

our citizens expected from a \$50 bell. It can probably be heard over town, but will never bother the sextons from their midnight slumbers. The Capital Adventure company has

moved its stock of drugs to Albany and its notions and etc., to Salem. Ed.
Thornton goes to Albany with the drugs
and Mr. Bridges returns to Salem.

SUSPICIOUS MOVEMENTS.

Italy and France Getting Ready for Any

LONDON, Jan. 20.-The Italian government has purchased the National line steamer "American," and will convert it into an armed cruiser.

France is buying large quantities of timber in Alsace and Lorraine with which to erect barricades at various points on the frontier. It is the German theory, freely expressed, that France wishes to facilitate and encourage any invasion of the German territory. Things begin to look a little "squally" on the continent.

Stanley's Expedition.

London, Jan. 20 .- Henry M. Stanley the explorer, is flooded with offers from good men who wish to accompany his expedition for the relief of Emir Bey, and he has found it difficult to select from the many competent applicants the few required. The British government has supplied the expedition with a major and a lieutenant of engineers. Stanley is de-termined to reach Emir Bey by July, at latest. He will meet Dr. Junker at Port Said, on his way out. He will establish a station at a safe distance from the Congo, on the way to Lake Victoria Nyanza, to be used as a base of operations.

Notable Death,

LONDON, Jan. 21.-Lord Chesterfield died in this city to-day. Two Heavy Failures

London, Jan. 21 .- Daile & Co., extensive timber merchants, and Patton & Co., large ship owners, both failed to-day. The liabilities and assets of each firm are very large.

The War Rumors

London, Jan. 21 .- Rumors of war are becoming more and more frequent. The North German Gazette, the National Gazette, and the Cologne Gazette, as well as the Times, Standard, and Daily News, of London, all report that France is making elaborate preparations to dispatch to the German frontier strong reinforcements.

A Hundred Soldiers and Seven Mandarins Drowned. London, Jan. 22.-The British steamer Leopold to-day collided with and sank a Chinese transport near Shanghai. The disabled vessel went down immediately

with all on board. One hundred soldiers and seven mandarins were drowned.

LONDON, Jan. 23 .- The Daily News professes to know that there is extreme danger of war. It says the government is alarmed on account of its having heard that Germany is likely within a few days to ask France to explain her military movements on the frontier.

A French Victory.

PARIS, Jan. 24.-Dispatches from Tonquin give news of the fact that the French carried the rebel position at Mikal, Thanhoa, and five hundred insur-gents were killed, in a very hot engage-

Excitement among the Colliers through-

The first reports of the effects of the present high water over the country are coming in. On Sunday night, the old dam at the McAllister place, about eight miles east of this city, on the Cranston road, gave away under the enormous pressure of the swollen waters of Pudding river, and the torrent went rushing on, carrying every thing before it. The wagon bridge and railroad of the narrow gauge railroad, near the same place, were unable to resist the power of the waters, and went floating down stream.

The railroad bridge was on the switch of the narrow gauge, and had not been used for sometime. The cost of building it must have been at least \$1000. The wagon bridge was on the county road, and will of course have to be rebuilt by the county. It was probably worth \$250 or \$300. The dam belonged to what was formerly known as the McAllister place. The mill burned down July 4th, 1880. Its value might be considered as nothing, since there was no prospect that the mill would ever be rebuilt.
