STATE AND TERRITORY.
The Case of the Scissors, Pen, and Paste-pot, versus Northwestern Exchanges.

It is confidently expected, says a Cheney paper, that a surveying party will soon be put on to run the preliminary survey for the Big Bend branch to leave the main line at Cheney.

We do not hear of any great loss of either cattle, sheep or horses in Baker county thus far, and the weather indications are most favorable to the stock interests, says the Democrat.

Dalles paper: It is feared that the peach crop has been killed. In conversation with Mr. Benson, of Five Mile, he says he does not think his trees will produce any fruit this season.

A party writing from Rockville, Gilliam county, says that Ben Snipes has lost 4500 head of cattle, and that Hendrix Bros. have lost cattle at the rate of twenty a day, and another cattle firm at the rate of from six to fifty head.

It is said that the Northern Pacific railroad company has purchased eighty acres of land north of and adjoining the town of Wallula, where they will erect a depot, shows, etc. Already a number of buildings are talked of in the new town.

The Oregon Pacific ran into a flock of sheep about two miles this side of Albany on Tuesday. Six head ran into a cattle-gard and before the train could be stopped they were run over and killed. Several others were thrown from the track and injured.

Engineer in charge Huson, of the Cascade division, says there is but thirteen miles of track to lay on the switchback, and the road will be finished between the 1st and 15th of May, and the tunnel will be finished in a year, provided the same progress is made in the future as in the past.

Last November a Hungarian named John Bino, who had worked for Thomas Lister for about two years, left Prineville on foot, intending to go to the Dalles, and has not been heard of since. When he left here he expected to meet his wife at the Dalles, having sent money to her to pay her passage from Hungary to that place, and then return to near Shear's bridge on the Deschutes, where a countryman of his resided, and take a place. He had about \$200 with him, and he was very careless about showing his money, it is feared he has been put out of the way by some one to get his money.

For many mornings a noble looking chancier was in the habit of getting into Charles Curran's barn and lustily announcing and approaching day by vigorous crowing. Mr. Curran has a horse possessed with a little more sense than is usually allotted such animals, and being aroused before his customary hour was more than he desired. He quietly stood it for some time, however, but finally forbearance ceased to be a virtue, and one morning the rooster sought his accustomed stand for business, the horse, apparently with premeditation, was there and waiting, and with the first crow came a kick, and now the rooster is heralding the break of day on the other side of the dark river.—[Albany Herald.]

J. R. McCollum, of Curtis, Nebraska, writes to the Boise Statesman that the extension of the Chicago & Northwestern west from Fort Pettegarn, Wyoming, the point to which the road has been completed, will be pushed very rapidly this spring and summer. The firm with which he is connected has a contract for one hundred miles of the grading with eighty miles of the track to lay, work on which to begin April 1. The proposed point of entry into Idaho territory is near Eagle rock, where the road will cross the Snake river. By a short cut to the Boise river it will then strike a good grade to Boise City. This road, it is generally understood, will connect at Boise City with the Oregon Pacific.

In the United States circuit court on the 9th indictments against the following persons charged with conspiracy in connection with the anti-Chinese riots of the winter of 1886 were dismissed: Samuel F. Wiltermod, Joseph Wilson, John W. Gioson, Wm. Meyers, Lewis Hamilton, George Brown, John Bellis, Allen White, Lyton Miller, W. B. Stafford, Nat L. Baker, Wm. McLaughlin and Hisam Straight. The indictments against these persons were dismissed because the United States supreme court recently decided that United States courts had no jurisdiction in the matter of trying cases of the nature which the accused were indicted, and that only the local courts had power to deal with offenses of that character.

We are informed that a shooting affray took place at Antelope a few days since, in which Mr. Kenneth McClelland shot at and wounded two men named Morgan and Slocum. It appears that Mr. McClelland and a man named Sandy went to the house of Mr. Slocum and picked a quarrel with Mr. Morgan, Slocum's sheep herder. As soon as the quarrel commenced, Mr. McClelland pulled his revolver and commenced shooting. Mr. Slocum was an old man, very deaf, and not knowing what the quarrel was about, stepped in to part the combatants. At which juncture McClelland shot Slocum, striking him in the arm. Mr. Moran received a slight flesh wound across the abdomen, amounting to nothing but an abrasure of the skin. A warrant was sworn out against McClelland, and he is now under arrest.—[Times-Mountaineer.]

Baker City Revolve: A serious cutting affray occurred at the school house about four miles above Vale in this county, one night last week, in which one Thebo, an elderly gentleman and an innocent party, was seriously injured. It seems that the two Stacey boys came to the schoolhouse in company with others for the purpose of breaking up the literary society. Harry Stacey got into trouble with another person whose name we could not learn, when Mr. Thebo interfered, and in trying to separate the fighters received a cut across the left breast from a knife in the hands of Harry Stacey. Mr. Thebo fainted and was carried into the school house where the doctor took several stitches in the wound and pronounced it not a fatal one. After the cutting a man named Frooman drew a pistol which was promptly taken from him, after which he went into the school house and broke out windows and demolished things generally. A warrant was sworn out for Stacey, but he has left for parts unknown. Frooman is under arrest.

TRIED IN THE CRUCIBLE.
S.S.S.
About twenty years ago I discovered a little cure on my cheek, and the doctors pronounced it cancer. I have tried a number of physicians, but without receiving any permanent benefit. Among the number were one or two specialists. The medicine they applied was like fire to the sore, causing intense pain. I saw a statement in the papers telling what S. S. S. had done for others similarly afflicted. I procured some at once. Before I had used the second bottle the neighbors could notice that my cancer was healing up. My general health had been bad for two or three years—I had a hacking cough and spit blood continually. I had a severe pain in my breast. After taking six bottles of S. S. S. my cough left me and I grew stouter than I had been for several years. My cancer has healed over all but a little spot about the size of a half dime, and it is rapidly disappearing. I would advise every one with cancer to give S. S. S. a fair trial.
