THE GOLDENSON CASE.

Characteristic Conduct of a Prisoner During the Argument.

SAN FRANCISCO, March 25.—To-day witnessed another of those exciting scenes which have been so frequent during the progress of the Goldenison murder trial. Attorney Love, in his argument for the prosecution, referred to the defendant as having always been a "bad boy, and working for what he will get—the gallows."

GOLDENSON FOUND GUILTY.

He is Convicted of Murder in the First Degree.

SAN FRANCISCO, March 28.—Arguments were concluded to-day in the case of Alexander Goldenison, charged with the murder of the school girl Mamie Kelly on November 10 last. The court immediately charged the jury, which retired at 4:07 p. m. Goldenison, who was present in the court room, was taken to his prison cell, located in the same building where the court was held, to remain there until the jury was ready to report. The court room was full of spectators, who waited patiently for the verdict. About 4:45 the jury announced that they were ready to report, and the prisoner was sent for. His face expressed great anxiety as to the result, but he, however, attempted to hide his fears by a vain endeavor to smile. Ten minutes later the jurors filed into court and took their seats. "Have you arrived at a verdict, gentlemen of the jury?" inquired the judge. The foreman, stepping forward, said they had, and then read: "People versus Alexander Goldenison. The jury in the above entitled case find the defendant guilty of murder in the first degree."

Excursions under the New Law.

SAN FRANCISCO, March 26.—It does not appear that the interstate commerce bill is yet fully understood by railroad-managers even. There were certain general conclusions reached at a recent conference of railroad managers at Chicago. One of the most interesting was that the law does not prevent the present system of overland excursions from the east to the Pacific coast. The rate of \$60 for round trip to the Pacific coast from Missouri river points, and \$80 for the round trip from Chicago to the coast, tickets to be good for six months, will hold under the general understanding of the law. In fact eight excursions are booked to come to California next month, but all parties must pay the same rates and there will be no favored classes. The Canadian Pacific and Pacific Mail are outside of the provisions of the bill. Railroad officials have little to say that is definite concerning the probable effect of the bill. Freight rates are to be higher. The first meeting of the commissioners will be awaited with much interest on the part of the transcontinental lines.

Freight Rates on Hops.

SAN FRANCISCO, March 29.—Under the new tariff, as governed by the passage of the interstate commerce bill, the rates on hops will be as follows: From Pacific coast terminals to Missouri river common points, \$1.75 per 100 pounds; to St. Louis and common points, \$1.85 per 100 pounds; and to Chicago and common points, \$1.95 per 100 pounds.

A CRUEL REJOINER.

"How old would you take me to be, Mr. Snooks?" she lisped, looking unutterable things at him. "I dunno," he replied twisting nervously about in his chair. "I'm awfully old, I assure you. I've seen twenty-three summers!" "Then you ought to wear glasses," he then earnestly. "Why, Mr. Snooks? Glasses at twenty-three?" "Yes, your eyesight must be bad." "I'm sure I don't know why you should think so," she pouted. "Because I'm afraid twenty summers have gone by that you haven't seen!"

The Mountain Sentinel, published at Union, Union county, which has been in existence 21 years, has suspended. The type and machinery will be moved to La Grande and the Lagrange Journal will be published. On the 15th of March the big tunnel was in 1983 feet from the east and 1928 feet from the west.

Twice in the history of Oregon has it happened that a man has been arrested for that phenomenal crime, stealing a red hot stove. But never before the present time, in the memory of the writer, has the larceny of a house been reported. Now comes some member of the Multnomah Rod and Gun club of Portland and says that a little house that was built by Mr. Buell Lamberson in the Portland city park for the use of sportsmen in rainy weather, has mysteriously disappeared. It is supposed some one in that vicinity has put rollers under the little house, hitched a team to it, and drawn it away. Certainly it has been taken without the permission of anyone who had a right or title in the building. It cost in construction about \$100.

THAT WAS BUSINESS.

Omaha sinner—How do you like your new minister?

Omaha saint—Don't like him at all. He is not cut out for a preacher; he ought to have been a business man.

"That's a fault, is it?" "Yes, sir; he has entirely too much business ability. Last Sunday he preached a roaring sermon on hypocrites, and at the close invited all hypocrites in the congregation to stand up. Of course no one arose."

"I suppose not, but what of that?" "Why, then he followed his advantage by passing the contribution box."

COULDN'T HOLD HER AFTER THAT.

"Mamma, does our new girl, Myra, get mad and run away when any one talks to her?" "Why, no, my child; of course not. Why do you ask such a foolish question?"

"Cause papa had to hold her this morning while he told her about the dinner she was to get to-day."

"That horse soon got so hot it would not hold the hired girl any longer."
