The collegiate department will hold its session in the senate chamer at 10 a. m. Thursday, and at the same time Friday. The exercises of the association proper will begin on Wednes-day evening, and continue until Friday

THE RAILWAY BRIDGE .- Work on the Oregon Railway & Navigation company's bridge across the Willamette at Portland will be commenced as soon as the com-pany has been notified of the decision of the engineers selected by the mayors of Portland and East Portland to determine the width of the drawings. The width of the draw will be about 150 feet, and the west end of the draw will be situated at the Portland wharf line, so that, if occasion requires, ships may drop down the river, holding to the wharf all the time. The west end of the bridge will be between H and I streets, and Front street will be reached by a sharp curve. The superstructure will be almost entirely of steel, and will be twenty feet wide The overhead road 'for teams will be twenty-two feet above the railroad track, and at each side there will be walks for foot passengers. Work on the structure will be commenced soon, and its building will probably occupy eight months. The cost will be between \$350,000 and \$400,

OF SOME INTEREST .- In the window of Ladd & Bush's bank is posted a circular letter from the Fidelity bank, Cincinnati, under date of June 13th, which is of some interest in the light of recent developments. The letter assures customers, depositors, and friends that, notwithstanding adverse reports which have been anonymously circulated concerning the shaky condition of the bank, its resources, its capital surplus, and deposits, are larger than those of any other bank in the city. Several days after this an nouncement the bank suspended, in consequence of the late wheat agitations in ago, and a fearful condition of affairs was found. THROUGH A BRIDGE .- While a team of three oxen, driven by Samuel Prather, was crossing the bridge over Butte creek, at Shrick's mill, on the boundary be-tween Marion and Clackamas counties, several days since, the Clackamas county end of the bridge gave way, and the driver, oxen, and load of five sawlogs were precipitated into the creek beneath. a distance of fifteen or twenty feet. Strange to say, neither the oxen nor the driver were hart, nor was the wagon injured. The wagon and oxen were gotten out without much trouble. Clackamas county has already let the contract for repairing the bridge.

HONGRY FOR OFFICE .- Now that Jan med as local in estion is being very THE FRUIT EVAPORATOR .- At & m flers, the ge of the board of trustees of Willamet ly discussed as to who will probably b pointed his successor. One thin coms very evident, and that is the office of the board of trustees of Willamette university, held last evening, it was de-cided to sell to R. S. Wallace the acre tract (triangular shaped) next to the col-lege campus, situated in the fork of the Y of the O. & C. switches, for \$500. Mr. Wallace agreed to this price. He will go to work forthwith and put up a building suitable for the fruit-evaporating estab-lishment, which he will rent to the com-pany which is now being organized for that purpose. This is a very good loca-tion for this establishment, as it must ship in a great deal of fruit, and should will not go begging. Already several will not go begging. Already several names are prominently mentioned in that connection, among whom are Capt. Plumes, Mr. Fitzgibbon, Mr. Cherry, of Albany, D. A. Moore, and several other dark horses in the race. J. L. Fer-guson, the inspector of hulls, has not yet signified his purpose to resign, but in an-ticipation of that event there are several applicants in prospect. The name of J. J. Holland is mentioned among the ap-plicants most prominent. It is probable no appointment will be made for several months.—(Oregonian. ship in a great deal of fruit, and should be next to the railroad track. evening lawn party of the senson was given on Friday evening by Misses Lena and Minnie Breyman, at the residence of their father, Mr. Eugene Breyman, on Court street. The handsome lawn was picturesquely lighted by many Chinese lanterns, and rustic seats and tables were scattered here and there over the grounds. The pleasure of the early part of the even-ing was added to greatly by the strains of music from the H. A. C. band, which was giving one of its entertaining con-certs in Wilson avenue. PLEASANT LIAWS PARTY .-- The first What the Post Office Department In-tends to Do About Mail Boutes in Marion and Linn Counties.

The following letter to Hon. John H Mitchell, U. S. Senator, explains itself

POST OFFICE DEPARTMENT.

WASHINGTON, D. C., June 18, 1887. Hon. John H. Mitchell, Portland, Or-egon: Sir: I have the honor to inform you that in compliance with the agree-ment with you April 14, 1887, a thor-ough examination has been made touch-ing the cause of complaint against the discontinuance of star service between the Oregon and California railroad and the Oregonian Railway (limited) line out-door games had been indulged in, a luncheon, composed of the most choice of viands, was served under the trees and partaken of by the guests, while the most inspiring of music was rendered by the horn quartette, composed of Messrs. Coomer, Waln, Mack, and Byley. After luncheon the company withdrew to the parlors, where the evening until a late hour was very enjoyably passed in cards, dancing, games, conversation, etc. The guests departed at midnight. Those invit-ed, and nearly all of whom were present, were Misses Mary Stout of Portland, Nellie Boise, May Boise, Alice Hatch, Nellie Gilbert, Maggie Cosper, Anna Parmen-ter, Esther Hall, Lizzie Dalrymple, Atddie Earhart, Eva Earhart, Clara Earhart, May Carpenter, Edna Moody, Sadie Nel-son, Miss Bliss, of California, Sallie the Oregonian Railway (limited) line, and Superintendent J. L. Wilder reports that an exchange of mails betwee en the two railroads is made at Woo thirty-six miles from Portland, and that by the present time-cards on the two railroads the mails are delivered as promptly by one road as by the other to the post offices from which complaints have been received.

In order to further facilitate the delivery of mails between the two roads, service will be retained on route No. 44,128. from Salem to Silverton, and No. 44,136, from Turner by Aumsville to Mehama And if arrangements can be completed with the officers of the railroad company between Albany and Lebanon, service will be retained between those points.

On the other star routes it would appear that service need not be maintained between the railroads, and therefore route No. 44,126 (Salem to Knight) will be continued as curtailed, to begin at Macleay, and route No. 44,252, from Jefferson to Scio, will be discontinued.

Very respectfully, A. LEO KNOTT, A. Gener Second Assistant P. M. General,

ACCIDENT AT THE ASYLUM .- Yesterday morning, while a piano belonging to Dr. Josephi was being lowered down through the staircase from a second story, at the asylum, the rope to which the tackle was ached parted, letting the piano fall eavily upon the railing, smashing the tter. The heavy instrument fortunateatter. ly did not fall directly to the floor, but owed the stairway till it struck the ottom post, where it stopped. When the boxing was taken from the piano, which was an upright, is was found that it hal sustained no damage, beyond a few slight scratches. No one was hurt,

REDINGTON'S RANCH .- Several parties in this city have received from J. W. Redington, editor of the Heppner Gasette, a photograph of his residence in that city, on which is printed the following: "Bach-ranch of the Bach-ranch of the Dash, and his partner, J. W. Redington. The bunch near the post is a cat with head bound up in a dishrag to cure toothache. What are the w-i-l-d cats saying about it?" THE FREE DELIVERY. - Six of the eighteen mail boxes which were expected have arrived for the free delivery system, and the remainder are daily expected. The pouches to be used by the car-riers are also on hand. Twelve or thirteen boxes will be put up in different parts of the city, at places which were announced in the STATESMAN some time since. Postmaster Odell has not as vet

definitely determined, however, that these are to be the points, but it is not likely that any material changes will be made. Except the placing of the boxes, every thing is in order for the establishment of the system.

AN INTERESTING MATTER.-The stage of the Willamette is an interesting matter to Portlanders just now. The water in the Snake and Columbia rivers is very high, yesterday being about on a stand still. The temperature was considerably higher all throughout the In-land Empire yesterday, the thermometer showing an average of 80 degrees at the various points reported as early as 8 o'clock in the morning. The rise in the Snake is wholly insignificant, considering the present stage of the water in that stream. The Willamette has fallen one-tenth of a foot and now

A RIVAL .- The steamer Tressa May, which last year enjoyed the greater part of the passenger traffic between Yaquin and Newport, is now to have a rival. The Yaquina Post says: "The steamboat Montesano arrived here last Sunday, fifteen hours from Astoria, Columbia river. She is a stern-wheeler, of eightyseven tons capacity, carries 100 passen-gers, and will ply between this city and Newport. She is owned by the Welch brothers, and was brought in by Capt. marks 24.9 feet in Psrtland.

COAST SURVEY .- Work will be prose

ented all summer on the coast of Oregon and Washington by the U.S. coast survey. Tillamook bay, Nehalem river, Nestucca bay and Shoalwater bay, the coast from Gray's harbor to cape Flat-tery, the islands of Puget sound, adjacent to Rosario straits, and the coast of Ore-gon from Tillamook bay to Yaquina, Simslaw and Umpqua will be embraced in the season's work.

To BE ARGUED .- Recently a rehearing to argue the matter on Satur

land.

THE O. P.'s INDEBTEDNESS .- It in learned that beyond all doubt the Oregon Pacific company will pay all of its old ing the Portland Cable Railway company Oregon indebtedness up to April, 1887, before July 25th. They will then be free from all indebtedness in Oregon, as they are now paying all the bills of April and May, and will pay monthly hereafter. The work is now being pushed vigorously from the South Santiam out, their bridge men bave been ordered out along the line with piledrivers, etc. It is their intention to get to the summit before winter. They are now receiving bids for grading from the South Santiam across the summit, and the rails will arrive from San Francisco on every steamer .--- [Albany Herald.

BOUGHT AND SOLD .- Ladd & Bush yesterday purchased of M. Brey the twentyfive feet front at the corner of Commercial and Court streets, made vacant by the removal of Chas. Hellenbrand's and another building. The price paid was \$8,000. This is surely a very good price, and probably the highest price ever paid in Salem for vacant real estate. The purchasers will put up a brick building, but just what style has not yet been deter-mined upon. An effort is being made to build another brick block, to extend from the corner purchased to the Capital Na-tional bank building. There is no doubt that such a block would pay well on the investment, and it would greatly enhance the appearance of the city.

FOR INDIANAPOLIS .- Prof. Z. M. Parvin, director of the conservatory of music

of the Willamette university, will leave on Monday next, the 27th inst., via the Oregon Short Line, for Indianapolis, Ind., to attend the meeting of the music teachers' national association. He will be absent for six or seven weeks. Prof. Parvin will be the only representative from Oregon in that body, and will sit as a delegate by virtue of his office of vice president of the M. T. N. A., for Oregon, to which office he was elected with a view to the future organization of a state musical association in affiliation with the national one.

THE RIVER. - A large quantity of freight is now being shipped by the river route between this city and Portland. From Portland clear through to Corvallis a splendid boating stage prevails, but ow-ing to present light freights only two boats, belonging to the O. R. & N. Co., are now making regular trips. Between Portland and Corvallis the steamer Orient is running and the Occident is on the Portland-Dayton route.

Thompson; capital stock \$150,-000. The business of this incorporation is to lay down, build and maintain street railways and tramways, the cars of said road to be propelled by horses and steam or other power applied by means of endless cables, and to do and perform all acts and things necessary to carry out the

purposes for which the corporation was formed.

ARRESTED FOR ASSAULT .- Yesterday afternoon James Farley was arrested upon complaint of Whitney Holman, for assault committed upon the latter. It appears that young Holman, with one or two other boys, had found Farley's cow inside the city limits, and in hopes of making a little money, were driving her to the pound. Farley saw them just as the cow was about to be driven in, and he became so angered thereat that he jammed Holman up against the inclosure. He will be tried Monday in Recorder Strickler's conrt.

OLD IRON IN DEMAND .- Mr. Cherry, a foundryman of Albany, Linn county, is in the city, buying up all the old iron he can find and shipping it up the valley for recasting at his foundry. There is a great scarcity of iron in this state just at the present time, and much of that now in Portland is unavailable, having been stored in lower wharves and being now under water. However, it is serving a good purpose holding down the wharves, and won't suffer any damage from its summer submersion.-[Portland Telegram.

TOOK A HEADER. - Yesterday after noon, while Thos. Smith, son of Dr. T. C. Smith, was coming down Gaiety Hill, in South Salem, on his bicycle, at a lively pace, the rubber tire of the by-wheel came off and caused him to take a header. The young fellow struck on his left side and face. He was taken to his home, where it was found that, although badty bruised about the hip and face, no bones were broken. He will be all right in a few days.

AGAIN ON DUTY .- The steamship Mex ico which was wrecked in Georgia bay, near Panama, some time since, has again been placed upon the route beteen Victoria and Pur

an extended rusticating trip amongst the Cascade mountains. The party, mounted upon horseback, and accompanied by pack animals, will first start for a hot spring just north of Mt. Jefferson, discovered several years since by Judge Waldo. After spending a short time there, they will follow as nearly as possible the divide of the mountains in a southerly direction, and will make Mt. Shasta in California their final destination. The party expects to be absent about four months.

A SUCCESSFUL AFFAIR .- The excursion to Albany yesterday on the steamer Bentlev was very successful. A large number of pleasure seekers left with the boat a little before seven o'clock a. m. and arrived at Albany at noon. The reception they met with at Albany was warm, as is stated in a telegram to be found in another column. The excursionists arrived here a little after seven last evening, having had an excellent time.

SOMETHING UNUSUAL .- The attention of the fastidious public is called to the very fine bill of fare presented for the Sunday dinner at Strong & Co.'s, for to-lay from 4 till 8 p. m. This firm, always enter-prising, has prepared for to-day a dinner unustally excellent, even for Sunday dinners, for which the usual price of 50 cents will be charged, Don't neglect this op-portunity of satisfying your critical taste.

FRATERNAL VISIT .- Yesterday afternoon Messrs, F. J. Babcock, Wm. T. Gray, Geo. B. Gray, E. P. McCornack, M. N. Chapman, E. M. Lafore, J. O'Donald, and J. D. McCully left for McMinnville upon a fraternal visit to the Masonic council at that place, which convened in special session last night. They will re-turn to-day.

WAS MADE HERE .- The engine for the electric light plant mentioned yesterday morning as having been made in San Francisco was manufactured by B. F. Drake & Co., of this city. The boiler only was brought from San Francisco. Mr. Drake's facilities for work of this kind are second to no other foundry in the state.
