On last Sunday night there was a drunken crowd in the place that yelled and bel-lowed worse than a pack of Comanche Indians. If this is not keeping a disorderly house, disturbing the public peace, or violating the state Sunday law, what is it? This man should either be compelled to keep a decent place or closed up permanently. He has no respect for the laws of the land, and he should be taught some respect. It is understood that a lot of drunken scrubs in North Salem Sunday night beat one of their companions almost to death, and it is kept by this man Costello.

Whereas, Objections have been made recently by a number of prominent citizens and taxpayers of the district to the further employment of a city super-intendent of schools who is no DO one of the teachers thereof, on the grounds: 1st, That it is not sanctioned by law in this, that the legislature has made no provision for the employment of a special superintendent in any district containing under 10,000 inhabitants, and has provided that all districts containing less than that num-ber shall be under the supervision of the county superintendent; 2. That as this district contains about

one-third of the population and pays about one-third of the taxes of Marion county, it is entitled to the services of the county superintendent for at least one-third of his time; and if the county superintendent gave to this district one-third or even one-fourth of his time, the employment of a city superintendent would be unnecessary and therefore a useless expense:

SERATOR DOLFN.-United States Sen- The Records of the Various Counties on Taxes line the State-Some

of them Delinquent.

The taxes due how the various counties to the state for 1886, became delinquent on April 1, 1886. Investigation at the office of the state treasurer showed how many of the counties were square in their accounts with the state:

Baker county, the first on the list, is also the one which owes the state the most. This county is delinquent in variious amounts for every year but two since 1870. Just why it has not been made to pay these amounts is not known. Benton county is clear on the books, and by act of the last legislature, relieving several counties, has a credit of \$1,477.96 on next year. Clackamas is balanced, and has a credit of \$1,400.43. Clatsop has been delinquent for the past several years. Co-lumbia's record is clear, and she has a credit of \$139.19 on next year. Coos, Curry, Gilliam, Grant, Jackson, Josephine, Klamath, Lane, Morrow, and Multnomah owe the state nothing.

Douglas county has a credit on the taxes of 1887 (collected next year) of \$2,271.66. Linn has a credit of \$2,738.24. and Yamhill of \$1,018.97. Crook county is a little behind as yet in the payment of its dues. Lake county would be square on the books except for a dispute con-cerning the payment of \$693.82, claimed by the state on the taxes of 1882. Marion county has just paid its taxes of 1886, minus the credit which she obtained from the legislature. The state, however, claims that she is yet behind on her 1886 taxes in the amount of \$830, inas-much as that much of the refunded money was devoted by it to the settle-ment of the \$830 disputed claim, which was prior to 1886. Polk county is delinquent on the taxes of 1886 in the sum of \$3,240.43. Tillamook county is also behind. The record of Umatilla county is DISMISSED THE CASE.—About a week ago Mrs. Mary Leonard, the woman very poor, she being delinquent for 1886 for \$8,540.11. Union county has paid up the taxes of 1886 in full, but is behind several thousand dollars on the taxes for several years from 1875 on. Wasco has settled 1886, but is also delinquent on other years. Washington county, which several years since, lost heavily from a defaulting treasurer, is working hard toward the payment of her back taxes. She is yet delinquent on 1886, \$5177.

It has been the method of Treasurer Webb to apply the credits obtained from the legislature for a number of the counties (for money paid the state for mortgage taxes, which they had to refund to mortgageors), on taxes due the state, and not to refund moneys alrea ly paid in. Those counties which had previous to the passage of the act paid their taxes were credited on next year, and those which had not paid this year's were credited on this year.

His many friends hope that his fondest wishes may be realized, and that he may return much benefited by the trip.

Our young and enterprising merchant, Jeptha T. Hunt is doing quite a thriving business both at farming and merchandising, and he is always genial, free and accommodating. In treating the boys to the cigars on yesterday afternoon, they saw (or imagined they saw) a change in his appearance which they were unable to account for, until roll call, when upon coming up the steps (his blood hound preceding him) he was heard to say, softly, "Get out of papa's way, doggie; whereupon further particulars revealed the fact that he was actually the father of an 8 pound boy. Mother and child are doing well, and Jep feels away up.
