RETURNS FROM KENTUCEY.

Big Republican Gains From all the Counties

oursville, Aug. 4 .- There are no elecion returns this morning in addition to me in the morning papers. A fair here in the morning papers. A fair dea of the situation is contained in an estimate of the Courier-Journal, which mys: The additional returns this morn-ing do not show any indication of a pround awell. As far as we can judge, the democratic losses are due to the con-idence and indifference in our party, and the unusually good organization of repub-icans. The republicans voted and the isomocrats stayed at home. Our returns the firm twenty-six counties, which cast the from twenty-six counties, which cast to per cent. of the whole vote of the state. 60 per cent. of the whole vote of the state. The republican vote in the counties re-porting is a little over 60 per cent. of the total, and the, democratic vote is a little over 50 per cent. These fifty-six counties show a loss from Cleveland's majority (34,839) of 7710 of the ratio. If the gains and losses continue the same for the re-mainder, 40 per cent., the net democratic has will be 12,850, leaving Buckner a majority over Bradley of 21,989. The reblicans are claiming it to be more than this from the mountain counties, but some of their best counties are reported, while counties in the western part of the state will be very slow with returns. There is nothing whatever in the situation to indicate a greater proportionate loss in the remaining counties, and with all the information obtainable this morning we do not doubt' that Buckser will have 22,000 more votes than Bradley. If the majority is not as large as our pride demands, democrats have only mselves to blame.

The Commercial's summary is as follows: Seventy-eight counties have re-ported so far, leaving forty-one to report. The figures are from the most reliable dispatches and agree with the returns received at both republican and democratic adquarters. The average republican gain per county from reports so far re-ceived is 325. In the same ratio, the net republican gain of the whole state will be 38,675.

SOMEWHAT BEARISH.

Chicago Bears Comforted by the San Francisco Collapse.

CHICAGO, Ang. 4 .- More than ordinary interest was attached to early prices for wheat to-day, for there was some anxiety manifested to know whether the collapse of the California wheat corner would produce any effect on this market. Two views were taken of the collapse of the San Francisco deal. The bear party held that prices would be lower, and the bulls said they discerned comfort in the out-come. A panic had been averted, no failures had been reported, the banks had not been involved and a normal and healthy state of affairs succeeded the recent strain.

Prices on the curb, however, did not throw the needed light on the situation, and the crowd remained on the keen edge of expectancy until the 9:30 gong made music. It was bear music, however; the 1st of September was at 693%, ent in the position of the leaders. The

acodition was not thought out 11:30 last night. As be was slittle g cheerfully, he was seized with a par-yeis of the heart, brought on by the took sustained by the accident, and

ncis was over 73 years of age, and Francis was over 73 years of age, and was for over twenty years consul for the United States at Victoria, B. C., and for the past three years had been United States consul at St. Thomas and Port Stanley. His family reside at Victoria, and none of his relatives were at his bed-side when he died. Flags are floating at half-mast on all public buildings. The funeral will take place to-morrow.

A SETTLEMENT.

That is What Will Likely Soon Be Effected in the Fisheries Matter

TOBONTO, Aug. 4 .- A cable from London to the Globe says: "Fresh proposals for a settlement of the fisheries dispute have been submitted to the government by the authorities at Washington. They were approved at Ottawa and have been favorably received by the imperial gov-ernment, but are still under consideration. The details are not known, but it is understood that a more popular view of the possibility of speedy settlement is now taken at the White House."

THE YACHT BACE.

They Have a Favorable Time, and the Volunteer Wins,

NEW YORK, Aug. 5.-The day dawned bright, with light winds from the southwest. The fog was thick over the harbor at sunrise, but the sun soon dispelled it and left the horison clear and made a beautiful day for the Goelet cup yacht race, so far as weather was concerned. In fact, there has hardly been a better day for the past three weeks.

The vachtsman were early astir and preparations for the race were began. The harbor was a lovely scene as the yachts, which were clustered thickly together, began to clear up deck and hoist sails preparatory to leaving. Everything was made taut and shipshape aboard the crafts and a fine race was looked for. At 8 o'clock the wind had veered to the south and was blowing more freshly, with a good prospect of more to follow.

At 8:30 numbers were assigned the yachts and preparations for the departure became more active. The harbor wa fairly alive with small craft flitting about among the yachts to see them start and going to the light ship to witness the race from there. Entries, as announced from the flag ship, included the Volunter, Sachem, Puritan, Atlantic, Priscilla and Mayflower. The course was triangular, and the terms of the race admitted all schooners and sloops of the New York and Eastern yacht clubs. Shortly be-fore 10 o'clock the yachts were all at the starting point, working for a good posi-tion. At fifteen minutes past 10 the sig-nal gun was fired and the race began.

The length of the course is forty miles. There was no time limit and the big sloops got away in the following order: Puritan, Mayflower, Volunteer, Priscilla and Atlantic. The Sachem crossed first of the schooners; others were bunched so as to be indistinguishable. The wind soon began freshening and promised to be stronger in an hour or two. At 11:15 the yachts were all down on the first leg of the course and no change was appar-

AN ELOPEMENT.

A Young Couple in California Run Away and Get Married.

SAN FRANCISCO, August 4 .- Particular reached here this morning of the elope ment of William M. Cameron, aged 22. with Miss Sarah Banbrock, aged 18, from Red Point, forty miles northeast from Red Point, forty miles northeast from Auburn, a Sierra mountain town. It ap-pears that the parents of Miss Banbrock objected to the young man for a son-in-law, and the couple decided to elope Friday evening. Miss Sarah left the parental roof and entered a carriage with her lover and off they dashed to Auburn to have the nuptial knot tied. The flight was discovered a few hours later and soon was discovered a few hours later and soon a pursuing team was after the fleeing couple. The latter reached the end of the long journey at 2 o'clock in the morn-ing and awoke the county clerk, who pro-cured them a license. Next they hauled the justice of the peace out of bed and this official completed the final act. The first overland train took Mr. and Mrs. Cameron out of town. The romantic affair is the talk of Auburn.

THE CALL BOARD.

Matters Are Quiet About the San Franch co Produce Exchange.

SAN FRANCISCO, August 4 .- An air of juietude hangs about the Produce exchange this morning. Business at the call board is not yet resumed, and brokers are quietly discussing the situation. SAN FRANCISCO, Aug 5 .- There are no new developments in the collapse of the wheat deal, and the excitement is apparently dying out. No session of the call board was had this morning, but the general impression among dealers is that the exchange will reopen Monday. All difficulties are being adjusted satisfacto-rily to both sides, and no additional fail-ures are reported to-day.

He said this government would not like the course affairs had taken on the islands. He would not give any explanation beyond this one remark.

LOSS OF MEMORY.

Charles Crocker, Like Jay Gould, Troubled This Way.

SAN FRAFCISCO, Aug. 6. - Chas F. Crocker, vice president of the Central Pacific, was examined before the Pacific railroad commission this morning. Information was elicited that at the stockholders' meeting Crocker presented a res-olution absolving Stanford from all liabilities in California, Utah, District of Columbia, Nevada and Arizona. Witness was asked why he had presented such a resolution, and said: "Oh, I did it because I knew, generally, that Mr. Stanford had done everything that was right, and the resolution was simply a ratification of all the senator's acts by the stockholders: Commissioner Pattison asked : "What

does the reference mean? The release of liabilities?' " No."

"What liabilities are there in the District of Columbia?"

"I am sure I don't know; there may be or may not be any," replied Crocker. A copy of the resolution was called for, and Mr. Cohen promised it should be produced. The witness also stated that loans had been made by the Central Pacific to the Western Development company and the Pacific Development com-pany, but never, he thought, without interest.

Pattison asked the witness how it was that a certain large sum of money had been paid out by him without a voucher, and if the money had been paid to infin-ence legislation; to which Crocker replied that he did not know.

We are informed by our grape growers, says the Jacksonville Sentinel, that there will be a large crop this year, and the market for this product is rapidly increasing by railroads penetrating the various parts of Eastern Oregon. MEDICAL. ITCHING FIVE LONG YEARS.

NEW BLOOMFIELD, MISS., JAN. 2, 1886. HOP BITTERS CO.:

I wish to say to you that I have been suffering for the last five years with a severe itching all over. I have heard of Hop Bitters and have ing more proportionately for a short haul than for a long haul between points in Ling county The complaint relates to a relief from your medicine and torment of the doctors. I have had fitteen doctors at me. One gave me seven ounces of solution of ar-senic; another took four quarts of blood from me. All they could tell was that it was skin sickness. Now, after these four bottles of your medicine, I am well and my skin is well, clean and smooth as ever. HENRY KNOCHE.

The First Sign

Of failing health, whether in the form of Night Sweats and Nervousness, or in a sense of General Weariness and Loss of Appetite, should suggest the use of Ayer's Sarsaparilla. This preparation is most effective for giving tone and strength to the enfeebled system, pro-moting the digestion and assimilation of food, restoring the nervous forces to their permal condition, and for purifying, enriching, and vitalizing the blood.

Failing Health.

Ten years are my health began to fail. I was troubled with a distressing Cough, Night Sweers, Weakness, and Nervous-ness. I tried various remedies pre-scribed by different physicians, but became so weak that I could not go up stairs without stopping to rest. My friends recommended me to try Ayer's Sarsaparilla, which I did, and I am now as healthy and strong as ever - Mrs. as healthy and strong as ever. - Mrs. E. L. Williams, Alexandria, Minn.

I have used Aver's Sarsaparilla, in my family, for Scrofula, and know, if it is taken faithfully, that it will thoroughly eradicate this terrible disease. I have also prescribed it as a tonic, as well as an alterative, and must say that I honestly believe it to be the best blood medicine ever compounded.-W. F. Fowler, M. D., D. D. S., Greenville, Tenn.

Dyspepsia Cured.

It would be impossible for me to de-scribe what I suffered from Indigestion and Headache up to the time I began taking Ayer's Sarsaparilla. I was under the care of various physicians, and tried a great many kinds of medicines, but never obtained more than temporary re-lief. After taking Ayer's Sarsaparilla for a short time, my headache diasp-peared, and my stomach performed its duties more perfectly. To-day my health is completely restored. - Mary Harley, Springheld, Mass.

I have been greatly benefited by the prompt use of Ayer's Sarsaparilla. It tones and invigorates the system, regu-lates the action of the digestive and assimilative organs, and vitalizes the blood. It is, without doubt, the most reliable blood purifier yet discovered. --H. D. Johnson, 383 Atlantic avenue, Brooklyn, N. Y.

VIRGINIA DEMOCRATS.

The Faithful of the Old Dominion Met in State Convention.

ROANOKE, Va., Aug. 4 .- The democratie state convention assembled here at noon. Chairman Barbour, of the state executive committee, called the convention to order. After loud calls Barbour arose and addressed the convention. He said the calling of a democratic convention was always in order in his state, but there was great opposition to this. It was, however, too obvious that a convention was necessary on account of the entous questions involved. 110 said the question before Virginia was the division of opinion on the debt question, which was the greatest party ques-tion that presented itself. He said the difference of opinion could be better determined in the party, and counseled harmony and dispassionate discussion of all issues before the public.

THE KANAKA KINGDOM.

The New Constitution---- An Interview With Gibson.

SAN FRANCISCO, Aug. 6 .- The brig John D. Spreckles arrived from Honolulu this morning, having sailed from there July 12th. The brig had on board as a passenger the deposed prime minister, William L. Gibson, who escaped to the ship upon the conclusion of his trial as described in the associated press dispatches last night. Gibson is looking well.

The ship also brought printed copies of the new constitution, which verify the intelligence received last night. It provides that the general assembly shall consist of twenty-four representatives of the people and twenty-four nobles. A property qualification is required of every voter, and he is also required to be able to speak and read Hawaiian and English. or some other foreign language, though the latter qualification is waived in the case of all who vote at the new election and take an oath to defend the new constitution. Each elector to vote, for a noble is required to own three thousand dollars worth of taxable property, and be in receipt of an income of at least six hundred dollars. The same qualifications are required of those who serve as nobles. Representatives must be the owners of tive hundred dollars worth of real estate and be in receipt of an income of two hundred and fifty dollars per annum, and the electors of representatives must be able to read and write; but this latter is waived in the case of all who subscribe to the new constitution and vote at the first election.

The island was tranquil when the brig Spreckles sailed.

GIBSON INTERVIEWED.

Walter L. Gibson, the aged ex-premier of the Hawaiian kingdom, and to whom

is accredited the recent uprising of the populace as an offset to his influence in governmental affairs, and whose life was supposed to be in great danger, was in a pleasant conversational mood when seen at his hotel by a representative of the associated press this morning.

"The new constitution has many admirable features about it," he said, in speaking of affairs on the island. "Still, it is what might be termed a shotgan or rifle constitution. The king only pro-claimed it through fear of his hie. Whether it will last I cannot, of course, tell. The creation of a new house of no bles with property qualifications is an ex-periment.
