The Air Brakes Would Not Work Properly, and all the Cars Except the Sleeper Badly Smased.

WASHINGTON, Aug. 17 .- As the St. Louis, Chicago & Cincinnati express train on the Baltimore & Ohio road, due here at 6:20 a. m., was approaching the city at a high rate of speed, the engineer sails. She came over under a small found that the air brakes would not work mainsail, topsail, staysail and jib. For two days of the trip she shook out everyproperly and he blew the whistle for the ordinary brakes. It was too late, how-

ever, to check the momentum of the train and it ran upon what is known as the "Y" near the depot, while at the rate of 40 miles an hour. The curve is very sharp, and the express car jumped the track and struck the signal tower. A general wreck ensued and all the cars Hamilton Brosious, the engineer of the train, who was scalded to death, and two passengers. The fireman was badly scalded, and fifteen passengers seriously injured. The signal tower was completely demolished. The telegraph operator fortunately observed the derailment in time to escape by jumping from the window of the structure. His arms were broken, but he was not otherwise injured. Great confusion prevails at the wreck and much difficulty in learning

the names of the dead and wounded. Later investigations showed that the gineer. Ten people were injured serious- absconded. ly; two of them, Chas. Koch and Wilhelm Buck, of Cincinnati, will probably die. The others are Mrs Augusta Barnes, Mrs. Chas Koch, Chas. Morrison, Fireman J. B. The Scotch Thistle Comes Over From England

NEW YORK, Aug. 16 .- The Scotch yacht Thistle, about which so much anxiety has

been expressed, arrived at the bar at Collation and Speeches---The Full Profour o'clock this morning. Captain Barr reports a pleasant passage, except three days of rough weather and three without a puff of wind. The rest of the time they

had a light breeze. The Thistle is cer-tainly a pretty model, and her appearance does not belie her claim to speed. It will take about two weeks to clean her up, set her topmast and bend her racing thing. The trip took twenty-one days.

NO CONFIRMATION.

Probably there Was No Savage Outbreak in Colorado.

A SENSATIONAL REPORT.

OTTAWA, Aug. 15 .- A sensational statement was made here last night by a gen-He Executes a General Power of Attor-

small village on the Gulf of St. Lawrence shore, New Brunswick. He stated that one night about eight days ago, while sleeping in a house in the village, him-self and wife were awakened by two loud reports, but they heard nothing further, and, concluding that the noise was mere-ly peals of thunder, went to sleep again. In the morning they were told that they

had been reports of two cannon shots, which were fired from a cruiser in pur-suit of American fishing schooners. The second shot struck one of the schooner's masts, which fell with the sails and turned the schooner completely over on her side, when she filled and sank immediately. Every man on board went down. The lives lost number twelve or fifteen. The affair, it is said, was witnessed by a couple of Bactouche fishermen, who were off shore in a rowboat, and who carried the news home. After seeing the terrible result of her shots, the cruiser put to sea and was soon lost in the dark. The gentleman says every effort is being made to keep it quiet.

ney to His Son SAN FRANCISCO, Aug. 16 .- A document has been recorded at the new city hall in the shape of a general power of attorney by James C. Flood to his son, James L. Flood. It is generally supposed that the elder Mr. Flood's condition is precarious and that the power of attorney is given on account of his sickness. Another Resignation. PORTLAND, Or., Aug. 16 .- This even-

ng's Telegram says: At the O. R. & N. office this morning it was learned that Supt. Henry S. Rowe will retire on September 1st. His successor, it is said, will be W. H. Holcomb, now general super-intendent of the Chicago, Burlington and Northern railroad at LaCrosse, Wisconsin. Mr. Rowe has been superintendent of the O. R. & N. for several years, and has proved an efficient, trustworthy of-ficer. When Vice-President and General Manager Prescott retired a few months ago he took the latter position, retaining his former title. At that time it was re-

ported that he would remain only as a favor to Manager Potter, until the latter could find a suitable man to succeed him. Mining Machinery Burned.

DAGGETT, Cal., Aug. 16 .- The Oro Grande Mining company's new 60-stamp mill, which was within six weeks of completion, was completely destroyed by fire last night. The loss to mill and machinery is \$135,000; insured for \$20,000.

Cuicago, Aug. 14 .- The Times to-day has a dispatch stating that two men have been arrested on a charge of being the incendiaries who caused the Chatsworth horror. The authority given for this information is a man named Dobbs, who has been working some time for a farmer named Morris Kenoya, about three miles from Kentland, Indiana, Dobbs informed the Times correspondent that the two this year. men were arrested on Saturday on suspicion of having set fire to the bridge They were given a preliminary examination before a justice of the peace, and proofs were adduced considered strong enough to hold them in jail, where they are now confined, pending further proceedings. Dobbs added that his employer, Kenova, was present at the ex-amination. The correspondent inter-viewed M. F. Terrill, conductor of a freight train, and learned from him that the arrest has occasioned considerable excitement. The conductor also said that Yardmaster James, of the Peoria & Western railway, who is stationed at the state line, visited Pentland Saturday and confirmed the truth of the arrest.

THE PACIFIC CABLE.

The Present Situation of the Proposed Imperial Cable.

NEW YORK, Aug. 15 .- The minister of railways at Ottawa received a cable dispatch from London yesterday, which says and Colorow's taking to the war path. the Pacific cable question stands as follows: Fleming proposed that the Impegovernment intimated that they rial could not by a subsidy become parties to a concern which must compete with ex- as exaggerations. isting independent concerns. The Australian government thereupon declared they could not subsidize a cable unless the Imperial government co-operated. There is a suggestion now before the Australian and Imperial governments for a joint government purchase of the East-ern telegraph and other like systems, and the joint construction quantities and were arrested. Repeated of the Pacific cable, thus creating attempts have been made lately to derail a system of government cables throughout the empire. It is calculated that an annual payment of £50,000 made up of contributions from each colony interested, would suffice.
