THE AUGUST GALE.

Much Damage Done to Crafts Along the Grand Banks by the Great Storm.

St. Johns, N. F., Sept. 8.—Reports daily arriving from all parts of the country go to show that the gale of the 26th of August was one that will be long remembered for the loss of life and the extent of the damage sustained from it. A vessel, the name of which is unknown, was wrecked back of Langley island, near St. Pierre, and as no trace of her crew has yet been found, it is feared that they all must have met with a watery grave. Several large vessels went ashore on Dog Island, near St. Pierre, and in many cases became total wrecks. One hundred thousand dollars will not cover the extent of the damage to property sustained by Newfoundland vessels that were on the banks during the storm. Many vessels arriving have even a sadder record to tell of those going in the morning had no chance to return, but were swallowed in the pitiless storm or were driven to sea to drown.

The French banker Chevrenel reports having passed a large vessel bottom up on the banks. From the description it appeared to be of fifteen men. There are as many as five banking schooners missing from Barin, five from Grand Bank and one from Burges, all of which were on the banks the morning of the gale, and have not yet been seen or heard from. If these vessels are lost, breadwinners by hundreds have perished. Nor are the south and west parts of the coast the only places that suffered. A telegram to-day gives the first report from Labrador of the gale, and says from the places so far heard from, as many as ten schooners have been lost, but fortunately no lives.

THE TELEPHONE IN CHINA.

The Shrewd New Yorker's Contract for its Introduction is Confirmed.

WASHINGTON, Sept. 8.—The Chinese minister has decided that so far as his government can make them so, the concessions to Count Mikiewicz are confirmed, and in fact the papers only require the signatures of American financiers who are to carry out the enterprise, and the informal ratification of the concessions at the state department. Count Mikiewicz resents publication of his alleged record by envious rivals, and declares that he will make it worse for papers maligning him. He admits he has had a checkered career, but denies he has ever deliberately injured or defrauded anyone. The telephone he will introduce in China has been perfected by electricians associated with him. It is an electrical device combining the Trumbull, Bell and Edison machines. There are no patent laws in China.

DESPERATE PRISONERS.

They Gag and Blind the Warden and Make Their Escape.

STOUX FALLS, Dak., Sept. 8.—Two prisoners escaped from the United States wing of the territorial prison here last evening, Henry Esmond, in for mail robbery, and Ed. Powers, in for murder. The latter was a soldier from Fort Mead. They threw a blanket over the head of the deputy warden who came to lock them up, gagged and bound him and left with \$30 and two Winchester rifles.

THE LABOR PARTY.

They Claim Almost Everything Except the Earth.

NEW YORK, Sept. 9.—That the united labor party managers intend to do thorough work in the state this fall as well as in this city and Brooklyn, may be inferred from the fact that the executive committee has completed an arrangement for holding about 240 mass meetings in the cities, large towns and country districts of New York. There is scarcely a place of importance that will not be covered, and by the list of speakers announced, the state will be canvassed well. This will include Mr. George, Dr. McGlynn, the Rev. Hugh O. Pentecost, Dr. Houghton, and in all probability the Rev. Melancthon I. Lockwood, of Cincinnati, Victor H. Wilder, Mr. Farley, and other candidates on the ticket, together with nearly all the speakers of local prominence, who have made themselves known to the public in this cause. "I am utterly unable to give any estimate as to the vote we shall poll in the state," said Secretary Barnes yesterday, "but I know that it will be far larger than is expected by the politicians of the old party."

QUESTIONABLE VENGEANCE.

If the Girl Deserved to be Shot What Did the Husband Merit?

SCHENECTADY, N. Y., Sept. 9.—This morning in a crowded restaurant Frank Knight, aged 35, of hitherto good reputation, met Miss Ida Wallace, a young woman whose conduct has made her a subject of scandal, and without any warning and in commonplace conversation he drew a revolver and shot Ida in the right breast. She fell unconscious and the horrified spectators allowed Knight to walk out with his smoking revolver. He went directly to the police station and surrendered. He merely stated that he had shot the girl because she had given him a disease which he communicated to his wife, causing her death. The deceased Mrs. Knight left her husband a few months before her death and having no friends went to the county almshouse and died of a loathsome malady. She was very well behaved and respectable. Ida Wallace is unconscious. Physicians say she will die.

THE SOCIALISTS.

They Claim the Whole Henry George Vote, and Want Recognition.

NEW YORK, Sept. 9.—The committee of socialists appointed at the Webster hall meeting last night called at the police headquarters to-day to present their petition for the appointment of inspectors of election. The petition, which covers

twelve pages of foolscap, declares the progressive labor party is a distinct organization, capable of obtaining and casting votes, and that it contemplates holding a state convention to nominate state officers. The party claims to alone embody the labor societies, and asserts that it is responsible for the 60,000 votes cast in this country last year for George. The committee expressed confidence that the commissioners at their meeting Tuesday would recognize the socialists to the exclusion of Georgites.

DOWN IN THE GROUND.

A New York Company Wants to Build an Underground Railway.

NEW YORK, Sept. 9.—Stockholders of the New York Underground Railway Co. elected a board of directors yesterday. Counsel of the company will apply to the superior court next week for a mandamus to compel the commissioner of public works to grant a permit to begin the work. If this mandamus is issued, the company is ready to begin digging in a day or two. This is the route: From City Hall Park, through Center and Mulberry streets, Fourth avenue, Union square and Madison avenue.

TEMPEST IN A TEA POT.

It is Claimed That President Cleveland has Been Accidentally Slighted.

PHILADELPHIA, Sept. 10.—Commander Harper, of the department of the Pennsylvania G. A. R., has issued an order for a Grand Army demonstration in the military parade next Friday. The wording of the order is the cause of no little comment. It reads as follows: "In passing the reviewing stand, or while being reviewed by Lieut. Gen. Philip H. Sheridan, United States army, none but post commanders will salute, and post commanders' colors will be dipped as the parade will be reviewed by President Cleveland, and General Sheridan will be in command of the line." It is claimed by some veterans not Grand Army men that the name of President Cleveland should have been inserted in that paragraph of the order, and that it is a direct slight to the chief magistrate in not doing so. The men, however, are all of the opinion that the matter was an oversight and no slight was intended.

NEW YORK POLITICS.

The Irving Hall Organization to be Ignored.

NEW YORK, Sept. 10.—John O'Brien, chief of the bureau of election, caused to be published yesterday in this city a record of the list of voters whose names are under consideration for appointment as inspectors of election. Four lists are given: Tammany, the county democracy, the republicans and the labor organization. No mention is made of Irving hall. Among politicians, the publication is taken as a notice that that organization's claims are to be ignored.

LITTLE PEOPLE.

"I'm not going to play with Willie Waffles any more," was Flossie's dictum. "Willie is a very nice little boy," said her mamma. "I don't like him. In fact, I don't like boys at all, mamma. I guess it's because I'm not old enough."—N. Y. Sun.

One night at tea the conversation turned on the seven brothers mentioned in the Bible, who, one after the other, married the same woman, as each one younger brother married the widow. "For pity's sake!" cried out 8-year-old boy, "how long did the widow last?"—Boston Traveler.

A 5-year-old Canajoharie boy was taken to Saratoga recently, and for the first time saw electric lights illuminating the streets. He looked at them for some moments in silent astonishment, then ran over to his mother and exclaimed: "Mother, come here. Here's a star on top of a pole."—Albany Journal.

At dinner boiled corn was served, some on the cob and some cut off. When a little girl of 4 was asked how she would have hers she said she "would have it on the bone." During the day, after eating considerable pop-corn, she remarked that she "would not eat any more, as it hid away in her teeth."

ARTIFICIAL BEANS.

Charles B. Fink, senior editor of the Latrobe advance, who is visiting in the east, recently went through a factory in New Jersey where the celebrated "Boston baked bean" is made. He had always believed that beans grew on a vine, but was disabused of that idea. The beans were made of an edible mixture, which was shoveled into machines, worked by girls and came out in bean-like pellets. The proprietor stated that he had been engaged in the manufacture of baked beans over three years and has a standing reward of \$1,000 to any one detecting it from the regular article, and a thorough bean-eater cannot tell the difference. The factory turns out 24,000 quart cans a day in the busy season, and the greater part of the product is shipped to Boston, whence it is distributed over the country.—Johnstown, Penn., Tribune.

ERYSIPELAS.

And obstinate Ulcers, Boils, Carbuncles, and Running Sores of every kind are cleansed, the poison germs destroyed, and a speedy cure effected by using Barry's Prophylactic Fluid. "I have been afflicted with the Erysipelas. Nothing would heal the sore or stop the running. I used Barry's Prophylactic Fluid and found a speedy cure. Have also tried it in several other cases and it proved effectual."—S. F. Greer.

FILES CAN BE CURED.

WESTFIELD, N. Y., May 15, 1886. For thirty-two years I have suffered from piles, both internal and external, with all their attendant agonies, and like many another suffered from hemorrhoids. All these thirty-two years I had in cramp myself to pay doctors and have done for me as they did for little or nothing. Finally I was urged by one who had had the same complaint, but had been cured by Dr. Fink's Pills to try his cure. I did so, and began to improve, and for the past two years I have had no inconvenience from that terrible ailment. RICHARD REEDY.

THE GRIM MESSENGER.

Governor Bartlett Holds Out Bravely Against His Coming.

SAN FRANCISCO, Sept. 8.—The governor passed a restless night and was much weaker and had every symptom that proclaimed sudden death. He was delirious from 2 o'clock until 8. Nourishment could only be administered with great difficulty. The symptoms were so alarming that Dr. Perry was sent for early in the morning. At 8 o'clock a bulletin was issued which stated the pulse to be 102; respiration, 34; temperature 99.5. Since then there is no improvement. The governor has been conscious part of the time. He asked for Rev. Dr. McLean, who was immediately sent for.

Rumor of a Big Sale.

PORTLAND, Or., Sept. 8.—The Evening Telegram says: The street talk is, although the report cannot be traced to a reliable source, that Van B. DeLashmott's visit to San Francisco portends the sale of the Stemwinder mine to Senator George Hearst. The senator visited the north about two months ago and made a pretty thorough examination of the various mining properties that have so far been developed. It is said that he expressed himself in very hopeful terms concerning the future of the Stemwinder property. As the senator is a great mining speculator, with a large bank account to back up his hobby, there may be something in the street talk.

Going South.

PORTLAND, Or., Sept. 8.—Messrs. Ferguson and McDermott, United States inspectors of bulls and boilers for this district, expect to leave the first of next week for an official inspection tour of the bays and rivers along the Oregon coast. They will visit Yaquina, and Coos bays, the Siuslaw, Coquille, Umpqua and Rogue rivers. There are about twenty boats in all to be inspected at these points.

Booked for Salem.

PORTLAND, Or., Sept. 8.—To-day Joseph St. Clair and Wm. Lewis, two Chicago crooks, were examined before Judge Dement on a charge of having burglarized the room of C. Sollinger, a guest at the St. Louis hotel. The evidence against them was conclusive, and they were bound over in the sum of \$300 bonds.

FERRYBOAT BURNED.

The Steam Ferry Veto of Sellwood Destroyed by Fire.

PORTLAND, Or., Sept. 9.—The steam ferryboat Veto, which ran from River View cemetery across to Sellwood, burned last night about 12 o'clock and was a total loss. There was no one on the boat at the time, so that the origin of the fire is not known. Someone who saw it after it had broken out, ran up and aroused the engineer, Al Smith, but when he reached the boat the flames had gained such headway that he could not get aboard. When asked this morning how badly the boat was damaged he replied facetiously, that he thought the two aprons were uninjured. The hull burned to the water's edge and sank with the machinery, which was probably ruined by the heat, to the bottom of the river. The wreck lies just at the landing on the Sellwood side of the river. The Veto was owned by a company, of which W. S. Chapman is president. She was a very old boat, having been built for W. H. Foster and run on the Vancouver route across the Columbia. The Jefferson Street Ferry company purchased her for use on the Willamette ten years ago at a cost of \$5200. Since the demands of the Jefferson street line outran the Veto she was the city's fireboat for a year or two and this year was put on the Sellwood line, where she was building up a nice little business.

THROUGH THE DRAW.

The First Ocean Steamer Passes Through the Morrison S-reet Bridge.

PORTLAND, Or., Sept. 9.—This evening's Telegram says: About 11 o'clock this forenoon the steamboat Lurline, Capt. Gray, blew fast to the American bark Coloma, blew four whistles to open the draw, and without any fuss or feathers, both crafts passed through the Morrison street bridge, and up to Smith Bros.' mill, where the Coloma will load lumber for Hong Kong. This is the first deep sea vessel that has passed up the river above Morrison street since the bridge was built, and with a pride that may be considered pardonable under the circumstances, Capt. Noyes ordered the little cannon which is mounted on the fore-castle to be fired as soon as the bark had passed through. This effectually puts an end to the statements of croakers that no deep sea ships would go above the bridge, for Capt. Gray has demonstrated how easily and safely it can be done. This was the one single counter-attraction in the city to-day to the circus parade, but it did not draw near so large a crowd.

THE LOST AMETHYST.

The Wreck Said to Have Been Discovered After Two Years.

SAN FRANCISCO, Aug. 9.—The mystery of the whaler Amethyst, which has not been seen since September, 1885, and about which so many tales have been told, appears to be clearing up. The mate of the Angel Dolly, one of the sealers seized by the revenue cutter Richard Rush, is in the city. He says when he was cruising about the northern islands of the Chocmagin group the hull of a vessel was sighted high upon the beach. It was found she was the Amethyst and that she was broken in two. Two boats were swung from the davits, but everything was deserted and the cabin was in confusion. There was nothing to indicate the fate of the crew, but hopes are entertained that some of them may be alive. The Amethyst was in command of F. H. Coody and Moses Walker was first mate. There were forty-four persons on board of her. She was the property of James Knowland and was valued at \$25,000.

THE DYING GOVERNOR.

Indications that He Will Hold Out a Little Longer.

SAN FRANCISCO, Sept. 9.—The governor seems to have revived somewhat, and indications are that he will live through another day. The symptoms which so alarmed Gov. Bartlett's family early this morning have passed away, and a member of his household said: "He seems so much stronger this morning. We do not look for any immediate change." At 8 o'clock a bulletin was issued stating that his pulse was 108, temperature 100, respiration 32. At 10 o'clock the following was issued: "The governor awoke at 8:30, after four hours' sleep, but did not seem conscious, although he tried to speak. He is now drowsy. Breathing regular, pulse and temperature the same, and respiration has decreased to 30."

THE DYING GOVERNOR.

His Condition Remains About the Same—The Next Governor Calls.

SAN FRANCISCO, Sept. 10.—There is practically no change in Gov. Bartlett's condition to-day. He remains unconscious most of the time, and when his mind clears a little he can recognize no one but his brother. At noon his pulse was 108, temperature 100, respiration 32. Lieutenant Governor Waterman and his private secretary, Boruck, called at the house a few minutes this morning, but were not permitted to see the governor. Waterman said he would perform no official act while a spark of life was left.

A BOLD BURGLAR.

A Man Sentenced for Burglary on Five Indictments.

PORTLAND, Or., Sept. 10.—F. N. Pindexter pleaded guilty to five indictments for burglary this morning, and was sentenced to one year in the penitentiary on each indictment.

Day and Night

During an acute attack of Bronchitis, a ceaseless tickling in the throat, and an exhausting, hacking cough, afflict the sufferer. Sleep is banished, and great prostration follows. This disease is also attended with Hoarseness, and sometimes Loss of Voice. It is liable to become chronic, involve the lungs, and terminate fatally. Ayer's Cherry Pectoral affords speedy relief and cure in cases of Bronchitis. It controls the disposition to cough, and induces refreshing sleep. I have been a practicing physician for twenty-four years, and, for the past twelve, have suffered from annual attacks of Bronchitis. After exhausting all the usual remedies

Without Relief,

I tried Ayer's Cherry Pectoral. It effected a speedy cure.—G. Stovell, M. D., Carrollton, Miss.

Ayer's Cherry Pectoral is decidedly the best remedy, within my knowledge, for chronic Bronchitis, and all lung diseases.—M. A. East, M. D., South Paris, Me.

I was attacked, last winter, with a severe Cold, which grew worse and settled on my Lungs. By night sweats I was reduced almost to a skeleton. My Cough was incessant, and I frequently spit blood. My physician told me to give up business, or I would not live a month, with interest thereon at the rate of 8 per cent. per annum since the 23rd day of June, 1887, together with costs and disbursements of this action. This summons may be served by publication for consecutive weeks in the WEEKLY OREGON STATESMAN, by order of Hon. T. C. Shaw, judge of said court, made at chambers, on the 14th day of August, 1887.

Cured By Using

two bottles of Ayer's Cherry Pectoral. I am now in perfect health, and able to resume business, after having been pronounced incurable with Consumption.—S. P. Henderson, Saulsburg, Penn.

For years I was in a decline. I had weak lungs, and suffered from Bronchitis and Catarrh. Ayer's Cherry Pectoral restored me to health, and I have been for a long time comparatively vigorous. In case of a sudden cold I always resort to the Pectoral, and find speedy relief.—Edward E. Curtis, Rutland, Vt.

Two years ago I suffered from a severe Bronchitis. The physician attending me became fearful that the disease would terminate in Pneumonia. After trying various medicines, without benefit, he prescribed Ayer's Cherry Pectoral, which relieved me at once. I continued to take this medicine, and was cured.—Ernest Colton, Logansport, Ind.

Prepared by Dr. J. C. Ayer & Co., Lowell, Mass. Sold by all Druggists. Price \$1; six bottles, \$5.

In the name of the State of Oregon, You are hereby required to appear and answer the Complaint filed against you in the above-entitled suit on or before the first day of the next regular term of the above-entitled court, being

Monday, October 10, 1887,

And if you fail to so answer, for want thereof, the plaintiff will apply to the court for the relief demanded in the complaint, to-wit: First—That the two mortgages given by the defendant, the City of Salem Company, to the defendant, William Stuart, for the sum of \$71,940, and dated Aug. 2, 1883, and recorded respectively at page 186 & seq. of Book 18, Records of Mortgages of Marion county, Oregon, and recorded in the records of Polk county, Oregon, be decreed and declared void as against the City of Salem Company, and its creditors and stockholders, and the amount remaining unpaid be decreed and declared a lien on the property mentioned in said mortgages, purchased price, due to the City of Salem Company from Salem (Oregon) Capitol Flour Mills Company, Limited, and James Macdonald, trustee, superior in right and prior in time to any and all liens on said property.

Second—That the property mentioned in the complaint and particularly described in a deed of conveyance from the City of Salem Company to James Macdonald, trustee, and recorded in Book 31, page 584 et seq., records of deeds of Marion county, Oregon, and also described in a deed of conveyance from the defendant, James Macdonald, trustee, to the defendant, the Salem (Oregon) Capitol Flour Mills Company, Limited, and recorded in Book 33, page 85 et seq., records of deeds of Marion county, Oregon, be decreed and declared to be held in trust by the defendants, the Salem (Oregon) Capitol Flour Mills Company, Limited, and James Alexander Robertson, official liquidator of said Salem (Oregon) Capitol Flour Mills Company, Limited, to the extent of the amount due by the City of Salem Company to its creditors for the payment of all claims against the City of Salem Company.

Third—That the deeds of conveyance from the City of Salem Company to James Macdonald, trustee, and recorded at page 584 of Book 31, records of deeds of Marion county, Oregon, and from James Macdonald, trustee, to the Salem (Oregon) Capitol Flour Mills Company, Limited, and recorded at page 85 et seq. of Book 33, records of deeds of Marion county, Oregon, be decreed and declared void as against the creditors of the City of Salem Company.

Fourth—That the amount of the unpaid purchase price of the premises mentioned in the City of Salem Company, Limited, to the City of Salem Company be decreed and declared a lien on said property mentioned in said deeds, and right to any other lien on said property.

Fifth—That the mortgage from defendant, the Salem (Oregon) Capitol Flour Mills Company, Limited, to the City of Salem Company, and particularly described in the complaint, be decreed and declared to be postponed in time and right to the lien on said property for purchase price, and be decreed and declared void as to the creditors of the City of Salem Company, and that the First National Bank of Salem, Oregon, be decreed and declared to have taken said property subject to the lien of the City of Salem Company, its creditors and stockholders, for purchase price, and be decreed and declared void.

Sixth—That there be an accounting decreed between the City of Salem Company and the Salem (Oregon) Capitol Flour Mills Company, Limited, and that the balance due to the City of Salem Company be ascertained.

Seventh—That there be an account stated as to what is due on said mortgages from the City of Salem Company to the City of Salem Company, and that the City of Salem Company be decreed and declared to have taken said property subject to the lien of the City of Salem Company, its creditors and stockholders, for purchase price, and be decreed and declared void.

Eighth—That said lien may be foreclosed and said premises sold to satisfy the same, and that defendants and their persons claiming by, through or under them, be required to answer the same upon said premises, either as purchasers, incumbrances or otherwise, may be foreclosed and sold in satisfaction of the claim or equity of redemption in said premises and every part thereof.
