LONDON, Nov. 20.—The Dutch steamer W. A. Scholten, Captain Taat, which left W. A. Scholten, Captain Taat, which left Rotterdam yesterday for New York, was sunk by a collision with the steamer Rosa Mary, of Hartlepool, at 11 o'clock last night ten miles off Dover. The Scholten carried a complement of 230 passengers and crew. The steamer Ebro, of Sunderland, rescued ninety of the crew and pas-sengers, and landed them at the Sailors' Home in Dover. One hundred and forty of the passengers are missing. One passenger and a child of the party brought to Dover were found dead from exposure. It is hoped that passing vessels have rescued the missing ones. The W. A. Scholten's masts are visible from Dover pier. Boats have left Dover, bound in all directions, for the purpose of saving life and property if possible. The Rosa Mary is anchored off Ramsgate with her bows stove.

REMEDY FOR POISON OAK.

A writer in the Popular Science News gives the following remedy for poison oak: "I have always been susceptible to the poison of ivy and oak so as to give me great annoyance unless it is immediately checked on its first appearance. This, common washing soda accomplishes for me if properly applied. I make the application by saturating a slice of loaf-bread with water, then covering one sarface with soda and applying to riage of two young people so favorably the eruption, the soda next to the flesh. When the bread is dried with the animal heat I drop the water on the outer side, so as to keep it thoroughly moistened, and dissolve the crystal soda in contact with the skin. This, you will perceive, is merely a bread poultice—the bread being a vehicle through whose moisture continuously, will not suffice with me. My skin requires the heat and moisture of the bread in order for the soda to act on and neutralize the poison. I rarely have need to retain this soda poultice for more than thirty minutes on any affected part. No pain ensues. Formerly I suffered often for weeks, as the poison would spread all over my body. Now thirty minutes measure the duration of

Andrew Hamilton who was arrested in Baker City a couple of months since for a murder committed in Illinois seventeen years ago, has just been acquitted, it hav-ing been proven that he acted simply in self-defense. Monday some miscreant went to the

sheep camp of Mr. Terrell, on Soldier creek, Grant county, and took everything in sight, except the tent. This is the second time within a month that Mr. Terrell has been treated this way. The Oregon Pacific still has a gang of

men at work in the Malheur canyon blasting out a roadbed, and are also at work on the Cascade division in the west. These barriers once surmounted the road will come with a rush.

The switchback has not yet been delaved by snow in crossing the mountains, although on Tuesday twelve inches was reported to have fallen on the summit, says the Tacoma Ledger. Most of the delays on the Northern Pacific this season have occurred at (points east of the Columbia river.

J. M. Tipton, a young man, arrived in Milton on Tuesday, and took a room at the City hotel, says the Eagle. He said he was on his way to Baker City, where he had friends. About 3 o'clock Wednesday morning strangling and choking noises were heard in his bed chamber, and several occupants of adjoining rooms proceeded to investigate the cause. The young man was found in nearly an insensible condition from hemorrhage of the lungs. He had partly filled one of his boots with blood, using it in lieu of a basin, and the bedding, wall, and floor were bespattered.

The ceremony was performed in the presence of immediate relatives only. An elegant wedding supper was partaken of at the residence of Mrs. Geo. A. Jno. Keller. resp., vs. E. Bley, app.; judgment of the court below affirmed; Hanson E F opinion by Thayer, J.

[This is a suit instituted by Keller to Hudson Dr H recover money from Bley on a contract Hood Miss M for work performed in clearing a number of acres of land. The decision itself is of no particular importance, but Judge Thayer denounces severely the conduct of two of respondent's attorneys, Frank B. Jolly and E. Mendenhall, in accompanying without permission the jury, during Savage Mrs Eliza the trial, to the scene of the performance of the contract. Their presence there would indicate an effort to prejudice the minds of the jury. The judge also rebukes the lower court for not allowing the motion of the appellant's counsel, made in the lower court, after the supposed underhand proceeding on the part of the opposing counsel, to dismiss the jury and summon a new panel. How-ever, he does not disturb the finding of

the circuit court.]

A. S. Kimball, resp., vs. John Moir et al., apps.; judgment of the court below modified; opinion by Strahan, J.

Leon Miss Emma Patterson Mrs F F Secord Dr A

This is an appeal from the judgment of the lower court, in which the plaintiff obtained judgment against the defendant for \$5080, on a promissory note, with \$508 additional as his attorneys' fees. The only question in this case is whether this court will enforce an agreement in a promissory note to pay ten per cent on the amount due as attorney's fees. The decision of the court is that it will not enforce, in such cases, a contract for a specifi amount, but only such as may be adjudged reasonable.

SALEM, Nov. 23, 1887. A. G. Epps, appp., vs. J. H. Oatman, rosp.; appeal from Jackson; judgment of the court below affirmed; opinion by Thayer, J.

[This case is of great importance as re

gards legal practice. The court holds that in an action at law, when a crossbill has been filed and to which a demurrer been sustained in the court appeal from the judgment rendered in the original case does not bring before this court for review the ruling of the trial court on the demurrer to the cross bill. A party wishing to review the ruling of the court on the denurrer to the cross bill must appeal from the decree rendered thereon. An appeal from a judgment at law does not bring up the ruling of the court on the demurrer to the cross bill. Held further, that if in such case it appear that persons other than the plaintiff in the cross bill have interests in the subject matter of the suit, the trial court should order them to be made parties, so that a complete determination of the matters in controversy may be had. The court disproves of any narrow or technical rules as applied to parties in this connection, but thinks that all'parties in interest should be brought before the court, so that a complete determination of the matters in controversy may be had in this one suit.]

Charles Putnam et al., apps., vs. W. S. Webb, Sr., resp.; appeal from Klamath; judgment of the court below affirmed; opinion by Strahan, J.

Without passing upon or considering the allegeged irregularities in the justice's and circuit courts, the court holds that plaintiff's complaint showed no equity upon which this court could act. It presented no sufficient reason why the property adjudged to the present defendant had not been returned to him, and it looked like a plain attempt to take advantage of a legal technicality to perpetrate a wrong. This the court would not sanction or approve. The court applied the maxim, "He who seeks equity must do equity.

PILES CAN BE CURED,

Westfield, N. Y., May 18, 1885.

For thirty-two years I have suffered from piles, both internal and external, with all their attendant agonies, and like many another suffered from hemorrhoids. All those thirty-two years I had to cramp myself to pay doctors and druggists for stuff that was doing me little or no good. Finally, I was ureed by one who had had good. Finally I was urged by one who had had the same complaint, but had been cured by Brandreth's Pills to try his cure. I did so, and began to improve, and for the past two years I have had no inconvenience from that terrible
