

THE MESSAGE.

It Will be Longer than its Predecessors.

A MOUNTAIN OF VERBOSITY.

He will Talk all Round the Tariff Question--He will also be Careful About the Surplus.

New York, Dec. 2.--A Washington special to the Tribune says:

The president, at the meeting of the cabinet yesterday, submitted a rough draft of his forthcoming annual message to congress. It was fully and freely discussed for four hours, and will again be submitted on Friday to the cabinet in the form in which it is to be sent to congress. Meanwhile speculation is rife as to what will probably be one of the longest official documents ever written by Mr. Cleveland. Those who know say it will contain 22,000 words.

From excellent sources it is ascertained that Mr. Bayard's department will absorb the lion's share of the message. He will announce in the first place either the result of the labors of the fisheries commission or the fact that they are still at work. There is an impression prevailing that the fisheries commission will set for the last time Saturday next, and it indicates that the negotiation of a new treaty has been found impracticable. This result is said to be favored by Mr. Bayard, who is represented as despairing of getting a treaty acted upon by the senate in its present temper. What the president will probably be able to announce in his message is that the commission has agreed upon an interpretation of the treaty of 1818.

A revision of the naturalization laws, the establishment and control of a bureau of registers of naturalized citizens, and a hint as to the advisability of restricting by federal statute immigration of an undesirable kind will be among the topics discussed by the president.

The recent anarchist demonstrations in various parts of the country will be mentioned.

The tariff and other questions of finance the president will have little to say, his plan being to let the secretary of the treasury deal with both questions in his annual report in a general and very guarded way.

The president recommends, it is understood, a liberal enlargement of the free list, mentioning, however, by name, none of the articles which, in his opinion, ought to be placed thereupon. In wording this part of his message much care and attention has been bestowed. Among those to whom it has been read outside the members of the cabinet are Carlisle, Scott and Watterson. Randall has been given no opportunity to inspect it.

The codification of the banking laws, amended in a manner proposed by the comptroller of the currency, is recommended.

The president, it is thought, will, in a cautious way, recommend a liberal system of appropriations for the improvement of the Mississippi river. He will likewise suggest that appropriations for this river will be made separately and not as heretofore in the river and harbor bill, which he has always regarded as an object of suspicion more or less.

The repeal of the pre-emption and timber culture acts is urged in the strongest terms.

The necessity of preserving the national forests is pointed out.

The Pacific railroads will be the subject of a special message later on.

"Ikey," said Oliver Sweat to his only son at dinner the other day, "what have you in the shape of pie?" "Pie plates," promptly responded Ikey. (Stoughton Sentinel.)

"I was walkin' down Third avenue to-day," said old Mrs. Bentley, "when somebody in an upper winder threw out a pail of water, an' most of it landed on my new bonnet an' jest 'bout spoiled it. I don't know when," continued the old lady, "that I've felt so irrigated over enythin'." (Life.)

Mr. Edison's phonograph preserves a conversation for 100 years. But conversations can be preserved that long without a phonograph. For instance, there is the celebrated conversation between the governor of North Carolina and the governor of South Carolina. (Louisville Courier-Journal.)

A colored woman called her twins Truth and Falsehood. When asked why she did so, she answered: "Well, sah, Truf never needs no quietin'." He jes' lays down whar yo' put him an' goes right to sleep. But dat dar Falsehood, allers a startin up jes' when yo' tho' yo' had got him to sleep. (Epoch.)

President Lincoln once said that the best story he ever read in the papers of himself was this: Two Quakeresses were heard discussing the probable termination of the war. "I think," said the first, "that Jefferson will succeed." "Why does thee think so?" asked the other. "Because Jefferson is a praying man." "And so is Abraham a praying man," objected the second. "Yes, but the Lord will think Abraham is joking," the first replied conclusively. (Boston Budget.)

FRANCE'S CRISIS.

The Conservative People Fully Aroused.

THEY WANT GREVY TO RESIGN.

They are Afraid of the Consequences of His Letting Go the Reins--A Change of Sentiment.

CHICAGO, Dec. 1.--A special to the Daily News from Paris says: It is impossible to test the temper of the French people at present. The radicals who are at the bottom of the trouble, are on a run, and it looks as though Clemenceau's efforts to pull down the pillar of the temple would be frustrated. The radicals, under the lead of Rochefort, and the destructionists under De Roulde, must have abandoned their conspiracy to overthrow Grevy under a pretense of wiping out a government of shame and scandal, having become alarmed by the unconscious boost they had given their great enemy Ferry. They are now offering their support to Grevy. Clemenceau himself, disconcerted by the vision of ruin disclosed, has humbled himself to Grevy, but the president has not decided to accept his compromising overtures. The departments are pouring in protests against deposing him, and mayors and magistrates are forwarding telegrams saying that the persistence of the radicals would annihilate the republic. There is now presented a spectacle of many who have been Grevy's bitterest foes during the past two weeks groveling at his feet.

Paris is calm, but it is a calm that causes distrust on the part of the authorities, and precautions have been redoubled. The streets are being placarded in all directions with posters, which are torn down as fast as possible by the police.

PARIS, Dec. 2. Noon.--Every thing is quiet through the city thus far. The police declare that they arrested M. Paul De Roulde and Louis E. Michel yesterday to save them from the violence of the crowd. The papers are generally of the opinion that after the events of yesterday President Grevy cannot postpone his resignation. They approve the attitude of the chamber as calm and dignified.

"Le Soleil" declares that President Grevy's deference of resignation was especially aimed at M. Ferry. Some papers believe that the events of yesterday will restore union among the republicans.

PARIS, 1:30 p. m.--President Grevy's resignation has been sent to the president of the senate and to the chamber of deputies. It will be read at the opening of the sitting of chambers. Crowds are in front of the chamber of deputies. The police have cleared the approaches to the building, and have stopped traffic in the vicinity.

PARIS, 2:20 p. m.--President Grevy's message resigning the presidency of the republic has just been read in the chamber of deputies yesterday as a decisive demonstration necessitating his resignation. After recalling his services to the country, which had assured tranquillity at home and peace abroad, he declares that he leaves office with a feeling of sadness, while declining to be responsible for future events.

The deputies received the message with profound silence. M. Floquet read a letter from the president of the senate summoning a congress of the two chambers at Versailles, for the purpose of electing a new president. The sitting then closed, amid cries of "Vive la republique!"

"How can I fix matters to be safe from the law?"

When this had been done the chief expressed his great pleasure and satisfaction and inquired:

"And now what shall I pay you for your services?"

"The other half, sir," was the calm reply.

Moral: It is a wonder the lawyer left so much for the bank.
