Col. G. H. McCoy Is In Command

Artillery Officer Is Grad. of Annapolis and Veteran World War I

Col. Gordon H. McCoy, artillery officer, is here in command of Camp Adair. He is a graduate of the Naval academy at Annapolis, a veteran officer of World War I, has made the army his career and is now in his fifties. His experience as an artillery officer covers a large portion of the world and he comes to Camp Adair with a background of service in many capacities.

Decorated with the Medal of Military Merit by the Mexican government, Col. McCoy served with distinction as military attache in Mexico City for three years ending in January of this year. Since that time and until his assignment to Camp Adair June 2, he served on the Board of Economic Warfare in Washington, D. C.

A native of the Shenandoah valley in Virginia, Col. McCoy has been an artillery officer throughout his army career. Since the World War I, in which he served as a captain and then as major, he has been graduated from the Field Artillery school at Ft. Sill, the Command and General Staff school at Leavenworth and the Army War college at Washington, D. C.

In France with the 91st division, composed of troops from the northwest and California, Col. McCoy saw front line service. During this service, he became acquainted with Dr. J. N. Shaw of Corvallis, now head of veterinary medicine at Oregon State college, when Dr. Shaw was veterinarian for the regiment to which Col. McCoy belonged.

With Spanish at his command, the colonel has seen service in the Philippine Islands and the Panama Canal zone during peace time, in addition to his diplomatic assignment at Mexico City.

Col. McCoy was in Mexico City for a short time last month to see to the shipment of his personal and household goods. He arrived here for duty last week.

He is accompanied here by Mrs. McCoy and Beverly, daughter aged 10. They are temporarily located at present and Col. McCoy says he has a home picked out in Corvallis to be occupied when his shipment arrives from Mexico City.

Col. McCoy's command here has been designated as the Corps Area Service command No. 1911. This unit consists of officers and soldiers on permanent assignment (as far as it can be permanent) to Camp Adair. Their functions will be the administration and conduct of the camp.

Separate divisions will be quartered here during their training periods and will be under separate command. After training, they will be moved wherever needed and new ones are expected to come in for a like training.

Water Is Now Flowing In Hospital System

Water was turned into the mains of the hospital unit last week end. The supply for this separate unit comes from springs and a reservoir located on the hill west of the hospital.

Salem Prepares For Recreation

Government Agency to Publish Guide Used To Find Way Around

Service men in Salem will soon have a recreation center, now being set up by the War Services division of the Works Progress administration. It will be planned exclusively for use of soldiers and their convenience, according to Miss Rachael B. Yocom who is in charge.

The building has been secured but must be remodeled and renovated, and soldier recreation must be carried on outside of the center, at least, for the coming week. For that reason, the office is publishing a service men's guide to Salem, in which will be given a list of places to see and things to do, with their addresses and telephone numbers, in addition to other material.

"In the meantime," Miss Yocom says, "Salem theaters offer you special prices, golf courses offer free golf (with the exception of Saturdays, Sundays and holidays) with club rentals at 25 cents a day. "Leslie, Olinger and the Y. M. C. A. swimming pools offer you free swimming. Both Leslie and Olinger are open every day from 11 o'clock in the morning until 9 in the evening.

"Special parties may be arranged, with or without girls between 9 and 10 o'clock in the evening by calling 63. The "Y" pool is available at all times when classes are not being held."

Any further information desired by service men at present or after the bulletin is issued, can be obtained by calling Miss Yocom at Salem 6311 or in the event of her absence questions will be answered by staff members, Miss Yocom says.

Albany Pool Free to Soldiers; 10c Others

The municipal swimming pool in Albany is free to soldiers, it was announced yesterday by H. C. (Sven) Johnson, coordinator, if they will bring their own towels and suit.

There is a charge of 10 cents to all civilians.

Major General and Aide Here

Salem to List Rental Properties in Detail

Chamber Will File All Important Facilities

Using mimeographed forms for the various classifications of accommodations, the Salem chamber of commerce has begun a systematic and detailed survey of all the housing facilities offered in the capital city. The data so collected will be available at the chamber office at all times to any who are interested, C. C. Cochran, manager of the chamber, said.

Houses, flats, apartments, sleeping rooms, house-keeping rooms, cottages, and board and room accommodations. (Continued on page 6.)

Two Camp Teams Win In Corvallis League

In two of the slowest and slopiest games of the present season 4 Builders won from the Soldiers 17 to 9, and Smith-Hoffman and Wright beat the Lumbermen 17 to 8. The nightcap lasted until 11 o'clock, straight up.

The Soldier team was a new one to the league, a change having been made in the area over last week-end.

But a handful of spectators remained for the final out.

General Bradley Arrives Monday For Army Duties

Major General James L. Bradley who is to command the 96th Infantry division at Camp Adair arrived in Corvallis yesterday.

He was born in Missouri in 1891. After attending the usual grade and high schools, he was at the University of Missouri one year. He then went to West Point where he graduated in 1914 being assigned to the infantry.

He has had foreign service in Hawaii, Mexico and Puerto Rico. His domestic stations included the Texas border, Arizona, Montana, Illinois, New York, Georgia and California.

He is a graduate of the Infantry school, the Army War college and an honor graduate of the Command and General Staff school. He was also secretary and instructor at the Infantry school and an instructor at the Command and General Staff school.

Upon activation of the Fourth army, General Bradley, who was G-3 (training and operation officer) of the Ninth Corps Area, became G-3 of the army. He was afterwards made Deputy Chief of Staff and then Chief of Staff of the Fourth Army and Western Defense Command, holding the latter position when he was given command of the 96th Infantry division.

General Bradley is married and has one daughter who has been graduated from the University of California. He and Mrs. Bradley are living at Seventh and Adams streets.

DON'T LET THE HEAT GET YOU!

TAKE THOSE SALT TABLETS—Take those salt tablets several times a day. Every time you take a drink. When you take a tablet, drink plenty of water, BUT don't drink ice water. You might crush the tablet with your fingers before you take it. This will help it to dissolve more readily and will not be so likely to lay in a lump in your stomach and make you ill.

IF YOU FEEL DIZZY or nauseated, get out of the sun—come down off the scaffold and take it easy before you collapse—drink some water—not ICE WATER—and take a salt tablet.

IF YOU FEEL EXTREMELY HOT and your head aches—get into the shade—come down off the scaffold—run water over the back of your neck and on your wrists and take it easy before you collapse.

IF YOU FIND A HOT, RED FACED, UNCONSCIOUS PERSON—get him into the shade—disrobe him—get some water handy and SEND FOR THE AMBULANCE. DO NOT TREAT THESE CASES IN THE FIELD.

IF YOU FIND A COLD, WHITE FACED, SEMI-CONSCIOUS PERSON — keep him lying down—NO WATER—and SEND FOR THE AMBULANCE. DO NOT TREAT THESE CASES IN THE FIELD.

The above instructions are briefly, those for preventing and field treating HEAT EXHAUSTION and SUNSTROKE. Both of these conditions are dangerous and should not be treated by any except experienced persons. We have a fine medical set-up here and they are prepared, both with experience and with equipment. DON'T GET IN THE WAY.
