Monday Night's Results  
 4-Builders 5, Pepsi-Cola 2  
 Engineers 6, Laundries 4

A home run by Street in the last half of the sixth inning with the bases loaded and two men out scored four runs for the Engineer team here Monday night enabling them to come from behind in a close, hard-fought contest and win handily over the Laundries club by the score of 6 to 4.

After the first two men up to bat had grounded out, Feilder reached first base on a costly error by Miller, Laundries first sacker, and then advanced to third on a hit by Martini, the next man up. Following this, Puckett, pinch hitting for Rex, received a base on balls which filled the bases for the grand slam which pushed in the winning runs.

A rally by the losers in the following inning was cut short by Pitcher Kennedy when he struck out Miller for the last out after the bases had been loaded.

Leading all the hitters was Perryman, Engineer catcher, who sin-

gled three times in three times at bat. He was followed by teammate Martini who hit a home run and a single in three times at bat. Jensen, Laundries catcher, also hit two for three.

The outcome of the contest pushes the Laundries team out of second place in the league standings to third and advances the Engineers to fourth.

In the opening game of the evening the league leading 4-Builders defeated a hard-trying Pepsi-Cola outfit by a 5 to 2 score. Behind the steady two hit pitching of Griffin, who chalked up his fourth victory of the season, the winners collected seven hits off Miller to hold a commanding lead all the way.

Leading the hitters for the win-

ners were Gilbert, hitting three for four, and Karamanos who hit twice in three times at bat. Only hits off Griffin were by Bob Quesinberry and Varrelman.

## Hobbies of Recruits Must Be Followed in Army Personnel Work

A recruit was being interviewed at the reception center of a camp in the south. His hobby he listed as "inventing gadgets." The interviewer thought such a general entry should be investigated, so he inquired:

"What kind of gadgets do you invent?" The recruit thought a minute, then replied, "Well, the last thing was an airplane engine!"

Full steam ahead on the water system!
