

Draft Boards Told Order of New Calls

Explanation Is Given Of New Classification

Draft headquarters specifically directed local boards today to call up married men last, taking single war workers before husbands and fathers.

The local boards were instructed by orders sent out last night to fill their quotas in this order:

1. Single men with no dependents;
 2. Single men who do not contribute to the war effort but who have dependents;
 3. Single men with dependents and who contribute to the war effort;
 4. Married men without children who are not engaged in the war effort;
 5. Married men without children who are engaged in the war effort;
 6. Married men living with wife and children or children only and who are not engaged in the war effort;
 7. Married men living with wife and children or children only who are engaged in the war effort.
- To be classed as a married man a registrant must have been married before December 8, 1941, and must be living with his wife or children.

To guide local boards on whether or not a man is engaged in the war effort, draft headquarters issued a list of 34 essential activities.

In granting deferment for occupational reasons the board must first decide whether a man is engaged in one of those activities and then determine that his particular job makes him a "necessary man."

Also, the firm in which he is employed must be fulfilling a war contract, performing a government service or a service necessary to civilian life in support of the war effort, or he must be supplying material for such firms.

The essential activities were:

Production of aircraft and parts; ships, boats and parts; ordnance and accessories; ammunition; agriculture; food processing; forestry, logging and lumbering; construction; coal mining; metal mining; non-metallic mining and processing and quarrying; smelting, refining and rolling metals; production of metal shapes and forgings; finishing of metal products; production of industrial and agricultural equipment; machinery; chemicals and allied products; rubber products; leather products; textiles; apparel; stone, clay and glass products; petroleum, natural-gas and petroleum and coal products; transportation equipment; transportation services; materials for packing and shipping products; communications equipment; communications services; heating, power and illuminating services; repair and handtrade services (blacksmithing, armature rewinding, electrical and bicycle repair, automobile repair, harness and leather repair, clock repair, tool repair and sharpening); health and welfare services; educational services; governmental services.

The selective service said "the list of civilian activities necessary to war production and essential to the war effort, which may be used to guide local boards in considering occupational classification of registrants, specifies that such activities must meet one or more of the following tests:

- (A) That the business is fulfilling a contract of the army, navy, maritime commission, or other governmental agencies engaged directly in war production;
- (B) That the business is performing a governmental service directly concerned with promoting or facilitating war production;
- (C) That the business is performing a service, governmental or private, directly concerned with providing food, clothing, shelter, health, safety, or other requisites of the civilian daily life in support of the war effort;
- (D) That the business is supplying materials . . . for contracts included in . . . above; or
- (E) That the business is producing

TO SHARPEN YOUR MILITARY I. Q.

1. These crossed flintlock muskets are the insignia worn by soldiers in what branch of the United States Army? 
2. Watch this one. Define AWOL.
3. Women in the newly organized Women's Army Auxiliary Corps will serve in non-combat duty. What American woman fought with men on the battle line and was voted an annuity for her heroism and patriotic deeds?
4. Name this medal which was awarded to General "Jimmy" Doolittle's 79 fliers who participated in the attack on Tokio. 
5. What is a walkie-talkie?
6. In Army slang it is called "an Army banjo", but it is a useful utensil rather than a musical instrument. Name it.
7. Beside his rifle what are some of the United States infantryman's other weapons?
8. July 3 is an important date in American military history. Arrange these events with the years in which they occurred on July 3.

Washington's first battle	1863
U. S. naval victory at Santiago	1875
Pickett's charge at Gettysburg	1775
Surrender of Vicksburg	1898
Washington takes command of Continental Army	1863
9. This insignia distinguishes what branch of Army service? 
10. Grandsons of two of the best known commanders in the War Between the States, one a Union officer and the other a distinguished Confederate leader, are now major generals in the United States Army. Can you name them?

ANSWERS TO MILITARY I. Q.

1. Infantry.
2. Absence Without Official Leave.
3. "Molly Pitcher," so called because she carried water to American soldiers in the blistering heat during the battle of Monmouth. When her husband was wounded she took his place among artillerymen and served till the end of the fight. She was voted an annuity by the Pennsylvania General Assembly.
4. Distinguished Service Cross.
5. A soldier equipped with a radio sending and receiving set who maintains communications between the front line and headquarters.
6. Shovel.
7. Hand grenade, bayonet, pistol, machine gun, trench mortar, heavy machine gun, Stokes mortar, 75-millimeter gun and 37-millimeter gun.
8. Washington's first battle at Fort Mifflin occurred July 3, 1775; U. S. Victory at Santiago, 1875; Pickett's charge at Gettysburg, 1863; surrender of Vicksburg, 1863; Washington took command of the Continental Army, 1775.
9. Medical Corps.
10. Major General Ulysses S. Grant, III, grandson of General U. S. Grant, and Major General Thomas J. J. Christian, grandson of Stonewall Jackson.

raw materials, manufacturing materials, supplies or equipment or performing services necessary for the fulfillment of contracts in . . . above.

The different major categories of essential activities were broken down in the listing like this:

"Production of aircraft and parts: the production, maintenance and repair of aircraft gliders, parachutes, dirigibles, balloons, aircraft engines, parts, pontoons, propellers and similar products."

"Production of apparel: apparel for the armed forces, and working clothing."

"Communications services: Telephone, telegraph, newspapers, radio broadcasting, and television services and the repair of facilities."

"Educational services: Public and private vocational training; elementary, secondary and preparatory schools; junior colleges, col-

leges, universities, and professional schools; educational and scientific research agencies."

The selective service said "newspapers" was intended to include "all the business of getting out a newspaper" and that such activities came under "other requisites of the civilian daily life" under "C" in the tests to be applied by local draft boards.

Employment Manager Is Called Into Service

Dean Beistel, former manager of the local U. S. employment office, was called up and left Wednesday with others from Corvallis.

Charles Paradis, new manager here, has been in the same job at Ontario, Oregon, and will be here within a few days, Mr. Beistel said.

Army Athletes May Keep Amateur Class

Agreement Is Reached With National Groups

An agreement with the Amateur Athletic Union and United States Lawn Tennis association protecting the amateur status of army athletes is announced by the war department.

The agreement freezes the status of an athlete, as an amateur or professional, as of the date of his entry into the army, regardless of whether he competes with professionals or participates in events for the benefit of company, regimental or other official funds, or for a recognized charity, during his service.

However, if an amateur athlete competes for his own personal profit, either as an individual or a member of an army team, he will lose his amateur status in both the A.A.U. and U.S.L.T.A.

War department officials stated that the spirit of amateurism is a guiding factor in army athletics. Since the objective of leisure time athletics in the army is athletics for all, individual soldiers, as a rule, should not be denied the right to participate even though their status is professional.

Professional athletes in the military service will be encouraged to participate as individuals and members of teams in all army athletic activities, except in sports involving personal bodily contact engaged in by two contestants. In such events contests between professionals and amateurs will be discouraged.

Although the amateur governing bodies agreed to a relaxation of their rules in regard to amateurs competing with professionals, professionals still are barred from competing in A.A.U. or U.S.L.T.A. tournaments, either as individuals or members of an army team. — Post Beacon.

Certain manufacturers are experimenting in the use of glass, terra cotta, and cement as substitutes for the iron, steel, and non-ferrous metals which have been used in the past to make the four million stoves needed to supply the country each year.
