After playing a nine-inning contest and ending in a 12-12 deadlock held last night, the Army Officer team and the league Manager-umpire-bathoy club decided to call a halt for a much needd rest, but promised to come out again next week to try to reach a decision as on hand for the big game which was played before a very good-sized crowd who enjoyed every bit of it. doing their bit in various branches The league team, behind the tight 12 - hit pitching of "Screwball" Quesinberry, fought very hard but was unable to overcome the slugging of the Army men, led by Lt. Colonel Lolli and Captain Findley. The Colonel lined out a screeching triple in the third for the longest hit of the contest.

All members of the manager team lived up to expectations. "Jug" Flint committed about five errors, expected, while playing first seman. "Slim" DeTemple baseman. slammed out two doubles to show that he still had a batting eye along with the power. Doc Smith argued with the umpires and announced his disapproval of all officials. Doc "Screwball" Quesinberry fooled all of them some of the time and some of them all of the time but was unable to fool all of them all of the time, as was necessary. Jimmy Guy led the hitting with three hits in three times at bat.

"Only" 16 errors were made by two teams and claims are made by both clubs that intensive practice will be had all week in preparation for next week's return engagement. Exact date will be announced later.

In the opening game of the evening the league leading 4-Builders walloped the hapless Lumber Co. team by the count of 19-2. Fourteen hits, ten opponent errors and tight pitching of LeTourneux and Griffin all contributed to the Builders' victory. Leading hitters for the winners were Karamanos and Cowne, each with three safe hits. Karamanos hit two more doubles to boost his season's total to eleven.

Tonight finds another meeting of the two league leading Builder teams, and 4-Builders club and Smith-Hoffman-Wright outfit.

Second game of the evening is the all-important Engineer-Soldier match. A win for the engineers would place them in a tie with the SHW team, providing the latter lose their game. First game starts at 7:30 o'clock.

## Supplies to Russia

THREE MILLION PAIRS OF BOOTS and 500,000 blankets are among the items made in Britain and sent to Russia. Eighty per cent of Britain's war production goes to battlefields abroad. Much of it goes to Russia—including planes, tanks, anti-aircraft guns, ammunition, and radio equipment—in large convoys which have battled their way through by Arctic routes despite storms, ice, U-boats and enemy bombers. Fifty British made tanks are being sent each week, and 111 airplanes for every hundred that

were promised to Russia. In addition, British railways have sent 142 locomotives and 1,000 freight cars to carry goods to Russia over the railway across Persia. In Persia, a British-sponsored non-profit organization has built special assembly plants which, by last January, were assembling trucks at the rate of 200 per month. This picture shows one convoy of these trucks winding its way up a Persian river valley on its 8-day journey northward to Russia, loaded with Allied supplies.
