

Going 100% All Out, 'Civvies Buy Bonds

Civilian Patrolmen Lauded For War Effort Cooperation

Our civilian patrolmen here at Camp Adair are to be commended for their splendid cooperation toward the War Effort. They are the first civilian unit to reach the 100 per cent goal of "Every Man a Bond a Month Member."

"The Bond a Month Club" cards, signed by Kenyon A. Joyce, Major General, U. S. Army were given to Mr. Guy E. Cook, Senior Patrolman, and Mr. Elmo G. McReynolds, Head Patrolman, to be distributed among their men. Both have given unselfishly of their time, and their excellent leadership has resulted in this splendid achievement.

War I Vets

Veterans of the First World War, Cook, McReynolds, Webb (winner of the Purple Heart) Brennan, Dodely, Duplissy, Gorman, Saltmarsh, Swan, Ray Walden and many others, who's names are too numerous to mention, are still in the fight.

Guarding this post long before

the soldiers came, the men patrolled in total darkness. Since then many have been transferred to Corvallis and Salem Airports, Bend and Bonneville.

They returned in January to resume their work here at Camp Adair. We again wish to congratulate every man of the Civilian Post Patrol, for their "FIGHT WITH DOLLARS" to make "EVERY PAY DAY BOND DAY."

Such patriotism cannot go unrewarded, and we hope that someday—soon, we of World War No. 2, and you of World War 1, will join in celebration, to drink a "Victory Toast to Us," who have fought on and on, with every human weapon, against THE ENEMY.

The Post Patrolmen's Commanding Officer, is 1st Lt. Hugh H. Tonsfeldt—whose home town is Pendleton, Oregon. Lt. Tonsfeldt is an "Old Timer" here at Camp Adair, and is also doing a swell job as Prison Officer.—War Bond Office.

Theirs Is the Bond That Counts

Emblemizing in this picture the Civilian Army Patrol on this Post is (right) Charles E. Webb, Sr., War I veteran who was awarded the Purple Heart for his part in the Argonne offensive and is one of the "100% club members" of the civilian company. Many are War I vets. In the center is the "chip", none other than Sgt. Charles E. Webb of SCU Hdq. Co., who joined up with his dad's old outfit, the 35th Div., though it was then re-mobilized as the 37th Div. And at left, giving the senior Webb the certificates for 100% Bond Holders signed by Gen. Kenyon A. Joyce, is Guy Cook, chief clerk of the Civilian Guards.

Reading They Like

Camp Adair's Librarian Recommends
Newest Books You'll Like to Read

Army librarians are often asked what the soldiers like best to read. It's a difficult question to answer quickly for soldiers are many and their tastes are varied. Soldiers are all types and read nearly everything. We have patrons who, like the president and the librarian, are ardent mystery fans. There are the Western fans. There are those who want every subject.

The librarian is continually amazed by requests for books on cookery, how to raise angle worms, dehydrated foods, fertilizer, interior decoration, the cosmological eye, antiquities of Peru and many others which no one would guess a soldier might be interested in. One can only conclude that "You just never can tell."

Some of the books in the library that are very popular are: "King's Row," by Bellaman. The inside story of a small town which takes off the lid and reveals more than everything.

"Strange Woman," by Williams. A woman who loved as she pleased.

"For Whom the Bell Tolls," by Ernest Hemmingway. A dynamic story of the Spanish Civil war.

"Guadalcanal Diary," by Treguskis. This recent book on the struggles in the South Pacific is prov-

ing very much in demand.

"Studs Lonigan," by James T. Farrell. Many have found that this powerful novel of a young Irishman in Chicago makes good reading.

The delightfully funny "Our Hearts Were Young and Gay," by Skinner and Kimbrough, is making them laugh with the amusing experiences of two young girls on a trip to Europe, measles, bed-bugs and all.

"They Were Expendable," by account of experiences on Bataan peninsula calculated to jar an American out of his complacency.

"Native Son" by Richard Wright. The literary style of the startling book might be called "electric." It almost shocks the reader into attention with the power of an electric current.

"Pal Joey," by John O'Hara, and similar books, "What Makes Sammyrin?" by Schulberg, "Low Man on a Totem Pole," by Smjth, "Tobacco Road" and other titles of Erskine Caldwell, books of William Faulkner, James Cain and William Saroyan, all of these are read with interest.

In fact one might conclude that "Soldiers are people — they like anything that's interesting."

there as well. He was formerly with Horace Heidt.

Sgt. Harry Unell and T/5 Ed La Cava are our wonder boys of the week. They were both called for OCS Quartermaster at Camp Lee, Virginia. Upon arrival at Lee, they were informed of the change in physical requirements and that they were both ineligible.

After waiting eight days for orders shipping them back to Adair, the fun really began. Harry went to St. Louis to spend a few days with his wife before he railed back to Adair. La Cava had different ideas. His first step was to see the gal of his dreams at the WAVES training station at Millidgeville, Georgia. Upon arrival he realized that he was too far South to get a train that would get him to Camp Adair on time, so he got the bright idea of doing some hitchhiking by plane, which turned out very satisfactorily. After inveigling several rides on Army bombers he finally arrived at Ogden, Utah, where he bussed to good ole Camp Adair. Both the boys are really travel-weary but are looking forward to leaving again at the end of this month. Both of the fellows seem quite satisfied with the way things turned out — but why not?

M/Sgt. John E. Birkes, M/Sgt. Sidney May, T/Sgt. Patrick Durkin, T/Sgt. Carrington Burch, and Sgt. Rudolph Gross pulled through a two-day "ordeal" last week to pass the Warrant Officer's Board with flying colors. It won't be long before we'll be seeing those striped bars around the hospital. Nice going, fellows!

Carl G. Swanson — more commonly known as "Gordie" — from Medical Supply, recently joined the ranks of the Sgts. when his third stripe was added a short time ago. My, how those stripes do shine!

The Medical Detachment was well represented at the Senior Ball at the College in Corvallis last Saturday night. As far as your reporter could determine there were eight Medics there with their gals. The theme of the dance was "Future Fantasy" and everyone had an opportunity to learn his fate according to the stars. Johnny and Claire Schaefer entertained after the dance, and everyone had a swell time.

T/5 Walter Ostrom really has a

A Real Job!

"Would like to give you a taste of handling "The Women," and I don't mean those created by Claire Booth!"

These words spoken, Sgt. Raymond Johnson bid the Sentry "Goodbye," and left on a two week furlough for New Jersey.

Sgt. Johnson handles the Social Swirl for the Camp Adair Sentry.

broad grin these days — and why shouldn't he? He has just become the papa of an eight-pound son, who will be known as Marshall. Congratulations, Pop!

T/5 Fred Seigel is very interested in automobiles and what makes them tick. He is baffled by his latest find—a 1929 station wagon. He doesn't seem to be able to find out where the tick comes from. He also owns two more wrecks (Oops, sorry Fred) Automobiles, that he is reconditioning. Let's hope he finds out what makes them all tick. There's always the scrap drive, Fred.

Timber Wolves Invade Portland; Capture City

(Continued From Page 1) machine guns, 37-mm. gun sections, radio jeeps, 105-mm. howitzers, battalion aid stations, field kitchens and scout cars.

Water Taken Along

Assuring Portland that "it's not that we don't trust your water supply but just that when troops travel they carry their own water," the invading soldiers brought along water from Camp Adair in five-gallon containers and hung lister bags in the center of downtown Portland.

Declaring the "invasion" to be a complete success from every standpoint, army officials pointed out that Tuesday's demonstration was not alone a contribution to the war bond drive but was a valuable practical experience for the troops.

Cook Wires Good Wishes

Unable to be in Portland for the big army show, Major General G. R. Cook, commanding general of the Timber Wolf division, wired Mayor Riley:

"Sorry cannot be with you but do hope you put Portland at the top in sale of bonds."

If Your Name Is Here You Have Mail at P. O.; You'd Better Get It

The following have undeliverable mail held at the Camp Adair Post Office. The addressee may have same by calling at the Post Office and leaving his name, grade and correct address.

With the Medics

by
T 5 John E. Sheehan
QM

Oregon is all wet climatically Says my radio most emphatically If the sun won't come out (Which sometimes I doubt) I refuse to play even statically. Corny, yes?

Now that the sun has come out, our softball team is making terrific headway and a tough bunch of boys they are. After practice last Monday night, M/Sgt. Joe DeBruyne ended up with a sprained ankle and is still hobbling along on a cane. Sgt. Richard Sidon is still in the hospital with a bad leg. Take it easy, fellows — it's only a game, you know. Save a little of that

energy for the Japs. By the way, the administration building will challenge any other sections in the hospital—including the nurses!

Good News!

The Medical Detachment is going to have its own band! Corporal Joseph Sieff will be manager under the supervision of Major Maurice Herzmark, who is taking a very keen interest. Major Herzmark, at one time, was the leader of his own band, as well as being a composer. We are also having complete cooperation from Lt. Johnson and Lt. Wedel. No doubt, with that backing, our band can't be anything but a great success. Corp. Sieff is extremely anxious to get the full cooperation of all the enlisted men in the Medical Detachment. All you musicians who desire to do a little "solid Diggin'" get in touch with Sgt. Gross at the Detachment office. Corp. Sieff is also a member of the SCU Band, and will continue
