He was employed in the laundry department at the asylum, and after walking out past the guards, took to his heels and has not since been heard of. Two hunters last week found a common ground squirrel in the last stage of being frozen to death. The only peculiarity of the occurrence is that the squirrels never appear until spring.

Whenever there comes a little cold snap and snow in Portland, the papers begin to chronicle such accidents as upsetting a sleigh, falling on the slippery pavement, or the back of some persons head coming suddenly in contact with the ice on a 2 by 4 pond. While Eastern Oregon seldom fails to have plenty of sleighing and skating every winter, in the past few years there has not been as many accidents as chronicled during the few days that Portland had winter weather.

TO COUNTY SUPERINTENDENTS.

Gentlemen:
The following decision has been recently rendered by this department: "Qualified elector" in the third proviso, section 45, of the school laws, reading as follows: "provided, further that in districts of the third class any head of a family who is otherwise a qualified elector and having children of school age, may vote at such election without property qualifications," means any citizen of this state, male or female, who is twenty-one years of age and has resided in the district thirty days immediately preceding the meeting or election; and further that such "elector" cannot vote for any other than the election of school officers; and, further, that petitions for changing district boundaries must be signed by legal voters, and that "legal voters" here means those who can vote for any purpose whatever, and, hence, those who can vote only for the election of school officers cannot legally sign a petition for the change of district boundary.
