THURSDAY, FEBRUARY, 20 1902.

The farmer who begins the new year with the intention of reducing expenses will find many opportunities for so doing, and will also be surprised at the end of the year at the many avenues for allowing loss. One cause of loss is the neglect of the farm wagons and implements. An account kept of the cost of repairs will show that quite a large sum goes in that direction, much of which could be saved. The use of more oil on tools, and keeping them sharp and in the best condition for use, will save labor, which is an item that must be paid for. Too many unprofitable animals, however, cause more loss than anything else, and the farmer should begin the new year with sufficient courage to thin out the flocks and herds so as to retain only the best and most profitable.

In Vienna the price of beef, mutton and pork is so high as to place these meats beyond the reach of the poorer classes, and for nearly fifty years their place has been taken by horse and donkey meat. There are in Vienna 185 butcher shops which sell horse and donkey meat exclusively, the price of the choicest cuts being from 5 to 10 cents per pound, which is much much less than half the price charged for the same cuts of beef. During the last year for which the figures are available, no less than 25,640 horses were slaughtered for food in Vienna. The inspection of the animals is extremely thorough and careful, government inspectors being present at each slaughter-house with full power to condemn any animal. Dealers in horse and donkey meat, and restaurant keepers who offer it on their bills of fare are obliged not only to plainly state the fact but also to keep in sight of customers the government certificate of inspection.

Have you ever thought how difficult it was to find an unbroken family? Most of us are fragments of families here and there struggling as best we may. We think of father, mother and relatives, now scattered like the mists of the morning. There is something in this that makes us forget each other's welfare when we become separated. How often do we write to brother or sister? We dare say if you sit down to count the days, it has been months, and perhaps years. Once in a while a letter passes telling of the old love, and asking for forgiveness for not writing sooner, and then a long silence. A telegram is handed you; your fingers tremble as you tear open the envelope; you read mother or sister died on such a day. You go away by yourself and shed a few scalding tears and regret a thousand times your neglectance to the dear ones. It is now too late to do better by that mother or sister in the days to come. This great broad world gets too far apart. The duties of life so thoroughly absorb our time that we forget things that we forget things that should be remembered.

THE QUESTION OF Good Reading Matter.

is now uppermost in a great many minds. Men, women and children have begun to think about good reading matter for each member of the family.

In a great many cases they they have not the slightest idea what it shall be.

Then, nine times out of ten you are not satisfied because you took some little old worthless thing.

Stop and think

Let us settle the question

You will feel better satisfied, because the most popular and useful presents now-a-days are the monthly and weekly magazines. They are interesting and instructive, not foolish story papers. We are the agent for every magazine published in the United States or Europe, and we can furnish you magazines for the children of any age as well as for grown people.

Another Point

Good magazines are not expensive these days. A few of the most popular "dollar a year" magazines are given below. They contain the best literature of modern times, which cannot fail to please all who are fortunate enough to to be a reader. Here they are,

Ladies' Home Journal
Woman's Home Companion,

Designer,
Munsey,
McClures,
Cosmopolitian,
Leslie's,
Success,
Saturday Evening Post,
Junior Munsey.

The higher priced magazines, varying in price rom $2 to $4 per year are

Review of Reviews,
World's Work,
Harper's publications,
Scientific American, etc,

If you want a Teacher's magazine, or one devoted to Music, or any other profession, we can secure it for you.

PULLMAN ORDINARY SLEEPERS.

The tourist travel between the East and the Pacific Coast has reached enormous proportions in the last few years, and calls for a special class of equipment. To meet this demand the Pullman Company has issued from its shops what it technically calls the "Pullman Ordinary Sleeper." These cars appear similar to the regular sleepers being built on the same plan, but not furnished with the same elegance. They are equipped with mattresses, blankets, sheets, pillows, pillow-cases, towels, combs, brushes, etc., requiring nothing of the kind to be furnished by the passenger. Each car has a stove for making tea and coffee and doing "light housekeeping," and each section can be fitted with an adjustable table. A uniformed porter accompanies each car, his business being to make up berths, keep the car clean, and look after the wants and comforts of the passenger. In each of the trains which is dispatched daily from Portland by the O. R. & N. Co. is to be found one of these "Pullman Ordinary Sleepers." The car attached to the "Chicago-Portland Special" goes through to Chicago without change, and the one in the "Atlantic Express" runs to Kansas City without change. Passengers in this car for Chicago change to a similar car at Granger.

Much of the first class travel is being carried in these cars, the rates being lower, and the service nearly equal to that in the palace sleepers.
