THURSDAY, MAY, 8, 1902.

Admiral Sampson died in Washington, Tuesday, May 6. He was suffering from an affliction of the brain.

Latest reports from the Philippines does not confirm the belief that the war is over. A fight recently occurred in which 20 Americans were wounded.

Governor T. T. Geer's name will appear on the election ballott as a candidate for United States Senator, on behalf of the Republicans. Every Republican in Oregon should endorse him and place an X before his name.

A commission of New York philanthropists are making a tour of South, investing educational work. The commission is composed of men who have been interested for some time in southern education. and the trip is for the advancement of this cause.

The registration of voters in Wallowa county is now far short of what it should be at this time. Only a few days remain until May 15, when the registration books close in the various precincts, and the number is several hundred short of what it was two years ago.

It is reported from London that the Cunard Steamship Company has decided to build two new steamships for the Atlantic passenger trade that will eclipse any vessel now afloat. they will be 700 feet long, with engines of 48,000 horse power, and a speed capacity of 25 knots.

Posters are out announcing that the 30th annual reunion of the Oregon pioneer association will take place in Portland on June 18. All persons coming to or born in Oregon territory prior to February 15, 1859, without regard to where they now live, are eligible to membership. Judge T. A. McBride, who came to Oregon in 1845, will deliver the annual address, and W. T. Wright the occasional address. There will be old time talks, feasting and marching.

Timber land in Wallowa county is now being looked after by "cruisers" from all over the country. They quietly go to the land office at La Grande, get a plat of the vacant land, go and see it and make their purchases under the "Timber and Stone Act," or a few file a homestead and are thus preparing for the time when the rail road comes near enough to make a market for the lumber. It seems at times as though somebody has given these people a "hunch" that the advent of the railroad is not far off.

There are more people coming to Oregon this year than in any one year before. A majority of them will visit our state fair to acquaint themselves with the resources of the state. Therefore every county in the state should make an effort to be represented at the coming state fair. No better opportunity will be afforded the different counties in the state to advertise their resources than at the state fair this fall. Immigration is coming our way and we should use every honorable means to get our share. Now is the time to act.—Ex.

The campaign in Oregon is now in full blast. The candidates for state offices are on a tour which will cover most of the state and consume all of the time between now and the second day of June. The candidates for county offices in this county have generally started out on a still hunt and for the next three weeks will be on the the hurricane deck of a cayuse in Promise Land, Garden of Eden, Paradise, Park and intervening places. After June 2nd, one-half of them will take a sail on the hurricane deck of the old time boats up "Salt creek." Such is the life of a politician.

Schley's Silver Service.

BALTIMORE, May 3—The magnificent silver service, made from silver coins taken from the Spanish cruiser Cristobal Colunto be presented to Admiral Winfield Scott Schley by his friends in this state and Washington, has been completed and is on exhibition in the show windows of the manufactures in this city. The service consists of one center piece, one soup toureen and ladle, four vegetable dishes with covers, one gravy bowl and ladle, one roast platter, one game platter, one fish platter, and 19 dessert plates. Upon each piece is engraved Admiral Schley's initials in monogram, and each bears this inscription:

"Made of silver taken from the Spanish cruiser Christobal Colon, destroyed in the naval battle off Santiago de Cuba, July 3, 1898."

The fineness of the silver used was not interfered with, and the metal therefore has almost the hardness of steel. The weight of the coins used was about 1500 ounces, and at the present price of silver represents a value of $600, but nearly six times that amount was required to purchase the coin from the Government.

The presentation of the service will be next Wednesday, at the home of Theodore Marburg, in this city, who with ex-Postmaster-General James A. Gary, and Ives Cobb, of Washington, comprise the commission in charge of its manufacture.

Well Known Pioneer Dead.

BAKER CITY, Ore., April 30.—Jack Vinson, one of the early pioneers who came to this country over 50 years ago died this evening. Vinson came out west when gold was first discovered in California and followed nearly all the great mining excitements of California, Nevada, Oregon, and Idaho. He was an old-time packer, prospector and stage driver. In the early days he drove stage during the time the Indians were so troublesome.

All of the old settlers of Wallowa and Union counties will well remember Jack Vinson.

This summons is published in the Wallowa Chieftain, a weekly newspaper of general circulation in Wallowa county, Oregon, at Enterprise in said county and state, by virtue of an order of the Hon. Robert Eakin, Circuit Judge of the above court, made February 10, 1902, and filed in the office of the Clerk of the Circuit court of said county and state on Feb. 27, 1902. Date of first publication March 6, 1902.

SMITH & HODGIN,
Att'ys for Plaintiff.

PULLMAN ORDINARY SLEEPERS.

The tourist travel between the East and the Pacific Coast has reached enormous proportions in the last few years, and calls for a special class of equipment. To meet this demand the Pullman Company has issued from its shops what it technically calls the "Pullman Ordinary Sleeper." These cars appear similar to the regular sleepers being built on the same plan, but not furnished with the same elegance. They are equipped with mattresses, blankets, sheets, pillows, pillow-cases, towels, combs, brushes, etc., requiring nothing of the kind to be furnished by the passenger. Each car has a stove for making tea and coffee and doing "light housekeeping," and each section can be fitted with an adjustable table. A uniformed porter accompanies each car, his business being to make up berths, keep the car clean, and look after the wants and comforts of the passenger. In each of the trains which is dispatched daily from Portland by the O. R. & N. Co. is to be found one of these "Pullman Ordinary Sleepers." The car attached to the "Chicago-Portland Special" goes through to Chicago without change, and the one in the "Atlantic Express" runs to Kansas City without change. Passengers in this car for Chicago change to a similar car at Granger.

Much of the first class travel is being carried in these cars, the rates being lower, and the service nearly equal to that in the palace sleepers.
