The range, perhaps, was never so good. At the opening of spring there was but little old grass left over, hence the grass is all or nearly so, of this year's growth. The range cattle are in splendid condition, except milch cows.

There are two saw mills in Park precinct. One, an overshot, on Freezout creek, owned by James Weisner, and the other 6 or 7 miles above on Grouse creek, owned and operated by Thos. Rich. These mills are filling a long felt want by settlers of the Upper Innaha.

Miss Maud Turner, of just below Freezout, came near being drowned in the Innaha river Wednesday while fording the river, on horseback, from the east to the west side. He horse stumbled over a submerged boulder, unseating his fair rider and pitching her into the cold deep mountain torrent. She floated away rapidly and lodged against a large stone amid stream. After standing by this stone long enough to recover from her great fright, she "pulled for the shore" and reached it. What an opportunity for some gallant to have displayed his courage, but he was absent.
