SETTLE BY ARBITRATION.

Commission Named by the President.

Wilkesbarre, Pa., Oct. 16.—At one o'clock this morning President Mitchell gave out the following statement: "Appreciating the anxiety and impatience of the public and of the mine workers for an authoritative statement from this office, I issue a bulletin to say that I was unalterably opposed to the acceptance or acquiescence in the form of settlement proposed by the mine operators because it restricted the president in selecting the men to determine the questions involved. These restrictions having been removed and representation given organized labor as well as organized capital, I am now prepared to give personal approval to the settlement of the issues involved by a commission selected by the president and I shall recommend to the executive officers of District One, Seven and Nine, in their meetings today that an immediate call be issued for a convention whose authorization is necessary to declare the strike ended. In the meantime I trust the people of our country will be as patient as possible as we are moving as rapidly as the interests of our men will permit."

The official statement announcing the close of the strike was issued at the White House at 2:20 o'clock a. m., as follows:

"After a conference with Mr. Mitchell and some further conference with the representatives of the coal operators, the president has appointed as members of the commission to inquire into and consider and pass upon all questions at issue between the operators and the miners in the anthracite coal fields:

"Brigadier General John M. Wilson, U. S. A., retired, late chief of the engineers in the United States army, Washington, D. C., as the officer of the engineer corps of either military or naval service of the United States.

"E. W. Parker, Washington, D. C. as expert mining engineer. Mr. Parker is chief statistician of the coal division of the United States geological survey and editor of the Engineering and Mining Journal of New York. Governor Gray, of Wilmington, Del., as judge of the United States court.

"E. F. Clark, Cedar Rapids, Iowa, grand chief of the order of Railroad Conductors, as the sociologist, the president assuming that for the purposes of such a commission, the term sociologist means a man who has thought and studied deeply on social questions and has practically applied his knowledge.

"Thomas H. Watkins, of Scranton, Pa., as the man practically acquainted with the mining and selling of coal.

"Bishop John H. Spaulding, of Peoria, Ill. The president has added Bishop Spaulding's name to the commission.

"Carroll D. Wright has been appointed recorder of the commission."

Notice is hereby given that I have sufficient funds on hand to pay all Wallowa County Warrants presented for payment prior to April 1st, 1901. Interest on warrants included in above call ceases Oct. 25th, 1902.

A Good Grain.

Speltz is the best grain to grow on dry land. It produces large crops of hay or grain on hill land and is a great grain to stool. Forty pounds is sufficient to sow on one acre. It yields from 60 to 75 bushels of rich grain per acre and from three to four tons of good hay. The straw is very fattening and liked much by stock. I have several hundred bushels that I will sell at one dollar per bushel. Parties wanting twenty bushels or more can have it delivered at Enterprise free of charge for freight.
