Downtown Revitalization Team earns approval for banners

By CHANTELE MEYER
Siuslaw News

After months of work, the Florence Area Chamber of Commerce Downtown Revitalization Team (DRT) presented the Florence City Council its proposal to add banners along main thoroughfares into the city. These banners would add curb appeal to make key locations more attractive to passing motorists.

Councilors Joshua Greene and George Lyddon moved and seconded the motion, and it passed unanimously.

Kelli Weese, city recorder, said, "The proposed banner design is of this wonderful heron on a seaside backdrop."

One of three phrases will be included in the design of the banners: "Come See What We See," "Historic Old Town" and "Mainstreet District."

The banners will be 20 inches wide, 96 inches tall and hang 10 feet above the sidewalks.

They will be made of durable canvas, as researched by the DRT.

"This is specification that I've used previously ... this is the exact same specification I ordered back in 2005, and they are still in use and doing quite well. The canvas is still in use and doing quite well. The canvas lasts much longer than any other type. They are used on

both coasts and in many different cities," said DRT member David Wiegan.

"You've done a great job. It's a great project and it brings that curb appeal to us, which is important," Greene said to the DRT.

When the project begins in the spring or summer of this year, the banners will be placed in strategic places.

Weese said, "These are proposed to be on the very tall poles along the highway, which have streetlights. ... They are going to be very high, which is important because they're trying to get (the attention of) drivers, as opposed to pedestrians."

The 21 banners will range along Highway 126, from Quince Street to the intersection of Highway 101, and along Highway 101, from the intersection with Highway 26 to the southern end of the Siuslaw River Bridge.

There also will be banners in the gateways to Old Town.

Wiegan said, "We would like to think this is just the beginning of a number of different aspects to deal with aesthetics, along Highway 101 in particular. We have a number of other things in mind for the future. We have to get started."

Mayor Joe Henry responded, "This is a good step forward."
