HOME REMODELING

Five Ways To Breathe New Life Into Your Home

An attractive indoor air conditioner or modern refrigerator can help you save energy while reflecting nicely on your sense of style.

(NAPSA)-Whether the urge to remodel strikes in summer or any other time of year, you can seamlessly update your home with just a few simple steps toward improved design, comfort, functionality, energy efficiency and curb appeal.

1. **Work with what you have.** Look around your home. Is there anything in dire need of replacing or refurbishing? Updates may not be as expensive as you might think. Consider this: If your kitchen cabinets are looking a little worn, consider resurfacing instead of replacing them. Just remove the doors, then strip and refinish or repaint them. Invest in new handles and pulls, as well as new hinges if they're visible.

2. **Build a greener home with energy-efficient enhancements.** Homeowners can dramatically cut energy costs without major renovations. Instead of new windows, try caulk and weather stripping to stop any air leaks on the windows you already have. Install high-efficiency water heaters to drive down heating costs. You can also install an ENERGY STAR-certified air conditioner that adds to your home's good looks. For example, the Art Cool Mirror ductless indoor unit from LG has a flat panel with a charcoal mirror finish that complements any décor. Plus, when paired with LG's Smart AC, homeowners can control the system and monitor temperature on their smartphone anytime day or night, whether at home or away.

3. **Beautify your yard to increase personal comfort now and receive more cash later.** Try planting deciduous trees on the south side of your house to provide additional shade in the hotter months, allowing you to cut down on air-conditioning expenses and save energy. What's more, real estate experts estimate that by spending 5 percent of the value of your home on quality, low-maintenance landscaping, you could boost the resale value by 15 percent.

4. **Create a seamless look for your kitchen.** A counter-depth refrigerator, like a 3-Door French Door Refrigerator from LG, will allow homeowners to get the sophisticated look they desire for their kitchen without sacrificing space or the added cost of installing an actual built-in appliance. To help keep the hub of your home clean, establish a message center in your kitchen. Put a bulletin board or chalkboard on the wall and store a calendar, notebook and writing utensils in a nearby drawer to help eliminate clutter.

5. **Stylish lighting is a bright idea.** A striking chandelier or light fixture can serve as a charming addition in a well-composed room. Lighting is also one of the easiest ways to update your space; a petite desk lamp or floor lamp can significantly brighten up a room. Be sure to use ENERGY STAR-qualified bulbs to make it a truly eco-friendly yet chic addition (and save up to \$70 a year in energy costs).

College Planning

An Essential Step For College Loans And Grants

(NAPSA)-Young men seeking funds for college may be surprised to learn that in addition to loan and grant applications there is another form they must complete-their Selective Service registration.

That's because registration with the Selective Service is required in order for a young man to be eligible for Pell Grants, Federal Work-Study, Guaranteed Student PLUS Loans and National Direct Student Loans, as well as federal job training and jobs with the federal government.

Not only does the registration requirement apply to permanent employment, but also to summer and temporary employment with the federal government. In addition, many states, local government agencies, police departments and state bar examiners now require applicants to be registered with Selective Service.

Many states even require it for a driver's license. In most cases, registration with Selective Service is also a condition for male immigrant noncitizens to obtain U.S. citizenship if the young man arrived and took up residence in the United States prior to his 26th birthday.

Registration Is Key

Registration is quick and easy and can be done by either checking block #22 on the Federal FAFSA Student Aid Application or by going online at www.sss.gov

To be eligible for federal loans and grants for college, young men must first register with the Selective Service.

from a smartphone or computer. Those who don't have access to a computer can pick up a registration form at any U.S. post office.

Those still in high school should check to see if their school takes part in the Selective Service registrar program. This provides students with a convenient alternative to registering at the post office. A high school registrar can assist men in registering online using school computers to connect to www.sss.gov.

Educating young men about the registration requirement is essential. If a man fails to register, he is in violation of federal law and subject to a \$250,000 maximum fine, a prison term of up to five years or a combination of both.

To learn more, visit www.sss.gov.

STATEMENT OF CHANGES IN ACTIVITIES AND SOURCES OF FINANCING

Revenue from the local option levy as well as increased state revenue has resulted in financial stability of the Siuslaw School District. The increase enrollment at the elementary and the addition of all-day kindergarten necessitated the hiring of new staff for 2015-2016 which includes 2 certificated positions and 1 administrative position. The Siuslaw School District will also be implementing a self-operating food service program starting July 1, 2015, which resulted in the addition of 6.25 fle of classified staffing. There was an addition of 4.1 fle during the 14-15 school year after the budget process to accommodate the district growing enrollment and STEAM initiatives. This budget is a status quo budget except for the items cited above.
