

AQUARIUM HOSTING EDIBLE OREGON CAMP TONIGHT

NEWPORT — The Oregon Coast Aquarium's Edible Ocean Family Camp-Out invites adventurous eaters ages eight and older to explore wild-sourced summer delicacies tonight, July 25, through

tomorrow, July 26. This food-centric adventure walks participants through the forage to fork process, from regulations to gathering to food preparation. Campers can expect to get

their fingers muddy while clamming, test their taste buds with edible seaweeds and foray through coastal forests for edible plants.

This overnight adventure includes admission to the

aquarium, camping accommodations at Beverly Beach State Park and all meals, all for for \$55 for youth ages 8 to 17 and \$70 for adults ages 18 and older.

Discounts are available for

aquarium members.

To learn more about Edible Ocean Family Camp-Out and download reservation forms, visit www.bit.ly/edibleocean.

We'll make sure they get a table reserved in advance.

Pitching staff:
Catfish Hunter
Lil Stoner
Sloppy Thurston

Orval Overall
Red Ruffing
Goose Gossage
Urban Shocker
Squiz Pillion
Zip Zabel
Wimpy Quinn
Boof Bonser
Win Ballou
Don't let the alliteration or wacky iterations fool you ... this would be a pretty formidable staff.

Catfish Hunter pitched a perfect game and won a Cy Young award. Urban Shocker was the last of the known spitballers and a key part of the '27 Yankees.

Lil Stoner was an avid iris grower! Zip Zabel was Zip Zabel, and that's really all you need to know about that.

Depth chart:
C Buster Posey

SS Creepy Crespi
OF Chicken Hawks
OF Ping Bodie
OF Coco Crisp
OF Minnie Minoso
OF Homer Summa
IF Shooty Babbit
IF Stubby Clapp
PR Billy Batsch
A lot of these guys could really hit. Ping Bodie was Babe

Ruth's roommate and was a smack talker extraordinaire.

Coco Crisp is a contemporary, and we know that kid can run and hit and kick.

Minnie Minoso should be in the Hall of Fame.

And Billy Batsch?

Well, we had a real problem with Billy Batsch. Bill was a made guy, a good fella ... but that's a whole other story.

Fishing from 1B

ALSEA RIVER: *Cutthroat trout*

The cutthroat trout fishery is fair in the mainstem and in some of the large tributaries. With the low and warm river conditions the best opportunities will be in the early morning when water temperatures are the coolest. Small spinners are typically productive as wells as small spoons or fly fishing with nymphs or streamers.

SALMON RIVER: *Cutthroat trout*

Cutthroat trout fishing is slow to fair with the early morning being the most pro-

ductive. Using small lures like spinners, spoons or various flies can be productive.

SILETZ RIVER: *Steelhead, cutthroat trout*

Summer steelhead fishing is fair in the upper river. Low flows and warming river temperatures is making new fish race up into the cooler holding waters of the gorge area.

New fish will continually be moving into the river through the summer with peak numbers typically in July.

River flows are much lower than normal for this time of year so think small and subtle presentations.

Typical steelhead tactics apply such as bobber and jig/bait, or casting spoons or spinners.

Cutthroat trout are now also open to harvest and can be found throughout the main stem river and many large tributaries.

WILSON RIVER: *Steelhead, Chinook, cutthroat*

Spring Chinook fishing is slow in the low clear water. Summer steelhead fishing is slow also. Fishing for cutthroat trout should be fair. Use lighter gear for best results as the water is extremely low and

clear. **YAQUINA RIVER:** *Cutthroat trout*

Cutthroat trout fishing is slow to fair. The best opportunities are coming in the early mornings when river temperatures are the coolest. River conditions are very low and warm for this time of year.

The mainstem Yaquina and Big Elk Creek are good places to try casting small spinners or spoons as well as bait fishing near the head of tide.

TENMILE BASIN: *Trout, largemouth bass, yellow perch*
Streams in the Tenmile Basin are open for trout fishing.

Fishing is restricted to artificial flies and lures in streams above tidewater.

Anglers should have good success catching trout in the deeper pools and riffles using spinners or flies.

The water level in Tenmile Lakes is extremely low and boat anglers should use caution when boating in the lakes.

Tenmile Lakes is open all year for trout but trout fishing has been slow.

Bass anglers have been catching several largemouth bass in Tenmile Lakes. Bass can be found this time of the year in shallow water near structure like logs or weed lines.

A few anglers have been catching yellow perch from the fishing dock at the County Boat Ramp and near the edge of the weedlines.

A worm or piece of cut bait fished near the bottom works well for catching yellow perch.

COOS COUNTY LAKES/PONDS: *Trout, largemouth bass, bluegills*

Trout are still available for kids in the Millicoma Pond at the Millicoma Interpretive Center and fishing is excellent. Millicoma Pond is set aside for kids fishing only and is a great chance for them to hook into fish.

Call before traveling to

Millicoma Pond to make sure the gates are open. The phone number is 541-267-2557.

Fishing for largemouth bass and bluegills have been good in many of the Coos County lakes. Fishing for bass will be best in the mornings and late evenings.

Fish for bluegills around structure like submerged logs and weedlines.

COOS RIVER BASIN: *Dungeness crab, bay clams, rockfish, trout*

Streams in the Coos Basin are open although most of the larger rivers will be too warm for trout. Trout anglers should focus on small streams and fish early in the morning or in the evening.

Angling is restricted to artificial flies and lures in streams above tidewater. Anglers should have good success catching trout in the deeper pools and riffles using spinners or flies.

UMPQUA RIVER, SOUTH: *Steelhead*

The mainstem South Umpqua upstream to Jackson Creek Bridge is open to fishing, with trout fishing being strictly catch and release.

Catch and release trout fishing in South Umpqua tributaries below Jackson Creek Bridge is also open, with fishing restricted to the use of artificial flies and lures.

Smallmouth bass fishing should be productive with warming water temperatures.

WINCHESTER BAY: *Bottomfish, perch*

Fishing for bottomfish in the Triangle and South jetty has been successful. Perch fishing has been productive in the bay, and it was reported that good sized striped perch were being caught along the jetty.

Crabbing has been improving, and there have been
