

Sailors from 1B

NED HICKSON/SIUSLAW NEWS

The Sailors gather after a timeout late in the third set against Siletz.

solid serving from junior Olivia Nicol. After exchanging points with the Warriors, the Sailors brought sophomore Alexis Gierke to the service line, where she delivered the next seven points — five of which were unanswered aces.

Up 12-7, Mapleton held at least a four-point lead for much of the first set. But late in the game, the Sailors' 19-15 lead dwindled as the Warriors took advantage of errors to tie the game at 19, then 20 and 21 before taking their first lead at 21-20.

From there, Siletz allowed Mapleton only one more point before taking the first set, 25-21.

In game two, the Sailors once again took the lead, this time on a pair of aces from freshman Alyssa Richards. Like the first game, the Sailors held a slim lead for the first several points. But this time, the Warriors tied the game at 7 and never looked back, going on an eight-point run that left Mapleton trailing 8-16.

The Sailors never got closer than within right points as Siletz claimed the second set, 25-13.

"We just couldn't put it all

together when we needed to," said Crook. "It's going to take time to build a winning culture. The talent is there, we just have to work harder and believe in it."

While the Sailors were tied

with Siletz at 13-13 in the final set, the Warriors pulled away to a 19-13 lead on a combination of aces and Mapleton errors to win it, 25-14.

Richards led the Sailors offen-

sively with five aces, 12 attacks and four kills. Nicol had four aces, two attacks, three kills and 19 digs. Freshman Haley Wells had two kills and nine digs. Senior Hannah Rodet had one

kill and 10 digs. Gierke had five aces on the night.

The Sailors will be at home Tuesday to host Alsea, beginning at 6 p.m.

Fishing from 1B

provide good opportunity and have boat and bank access.

SIUSLAW RIVER: *Chinook, coho, cutthroat trout*

Fall Chinook fishing is producing fair to good results from the lower bay up to Cushman with fair numbers of fish starting to push up to the Mapleton area. Trolling herring, spinners or bobber fishing can all be productive.

The wild coho fishery is open through Oct. 15 with a daily bag limit of 1 adult coho and seasonal limit of 2 adult coho (in aggregate with other

areas with the same bag limit). The lower bay up to the North Fork confluence typically produces the best results early in the season. Lake Creek will not open for wild coho in 2015.

The cutthroat trout fishery is fair for sea runs in the lower reaches of the river and in upper tide water. Fishing during the early mornings or near the larger tributaries is the most productive.

ALSEA RIVER: *Chinook, coho, cutthroat trout*

The fall Chinook fishery is producing fair to good results for both bank and boat anglers. Anglers are having the best action fishing from the lower

bay up to the head of tide. Trolling, casting lures or bobber fishing are all producing depending on the section and conditions.

Bank fishing near the Hwy. 101 bridge or up at the newly opened Don Lindly Park (MP 7 on Hwy. 34) can be good for both Chinook and coho.

The wild coho fishery is under way and will continue through Oct. 15. The daily bag limit of 1 adult coho and seasonal limit of 2 adult coho (in aggregate with other areas with the same bag limit). The lower bay typically produces the best results early in the season.

Cutthroat trout fishing is fair in the lower mainstem below the confluence with Five Rivers.

With the low and warm river conditions the best opportunities will be in the early morning when water temperatures are the coolest. Small spinners are typically productive as wells as small spoons or fly fishing with nymphs or streamers.

SALMON RIVER: *Chinook, cutthroat trout*

The fall Chinook fishery is

producing well for both boat and bank anglers in tide water. Trolling, casting lures or bobber fishing through the high slack tide tends to be the most productive.

Cutthroat trout fishing from upper tide water through the lower river can be effective during the early mornings with sea runs moving through this time of year.

SILETZ RIVER: *Chinook, coho, steelhead, cutthroat trout*

The fall Chinook fishery has been producing fair to good results in the lower bay up to the Chinook Bend area. Chinook can be found through the head of tide but still in small numbers. Trolling or bobber fishing through the high slack seems to be the most productive.

The wild coho fishery continues through Nov. 30 with a daily bag limit of 1 adult coho and seasonal limit of 2 adult coho (in aggregate with other areas with the same bag limit).

The lower bay up to Coyote Rock typically produces the best results early in the season.

WILSON RIVER: *Steelhead, Chinook, cutthroat*

Summer steelhead fishing is

slow. Fishing for cutthroat trout should be fair. Use lighter gear for best results as the water is extremely low and clear. Fall Chinook angling in tidewater will improve over the coming weeks as more fish arrive.

YAQUINA RIVER: *Chinook, coho, cutthroat trout*

Anglers are having fair to good results for fall Chinook from the lower bay up to the Canyon Quarry boat launch area. Trolling herring or spinners during the incoming tide through the high slack typically produces the best results. Small numbers of Chinook are also up near Elk City.

The wild coho fishery is open through Nov. 30 with a daily bag limit of 1 adult coho and seasonal limit of 2 adult coho (in aggregate with other areas with the same bag limit). The lower bay up to the airport boat ramp typically produces the best results for coho.

COOS COUNTY LAKES/PONDS: *Largemouth bass, bluegills*

Fishing for largemouth bass and bluegills has been good in many of the Coos County lakes. Fishing for bass will be best in the very early mornings and late evenings.

Fish for bluegills around structure like submerged logs and weed lines.

UMPQUA RIVER, SOUTH: The South Umpqua is currently closed to all fishing until Dec. 1.

WINCHESTER BAY: *Bottomfish, perch*

Fishing for bottomfish in the Triangle and South jetty has been successful. Perch fishing has been productive in the bay, and it was reported that good size striped perch were being caught along the jetty.

Crabbing has been improving, and Chinook are still being caught in the ocean off of Winchester Bay and in the lower Umpqua River.

PACIFIC OCEAN and BEACHES: *Bottomfish, salmon, Dungeness crab, surf perch*

The ocean is open for harvest of Dungeness crab and crabbing has been good outside of Coos Bay and Winchester Bay.

Anglers are catching surf perch on the area beaches like Horsefall Beach. Fishing the incoming tides with sand shrimp usually works the best to catch surf perch.

Recreational ocean salmon season from Cape Falcon to Humber Mt. is open for Chinook salmon. The non-selective coho season closed Sept. 30.

Fishing for Chinook in the ocean from Bandon to Winchester Bay has been slow.
