## Fishing from 1B

Winter steelhead season has arrived. The best chances to hook a chrome steelhead at this time would be in the lower section below Five Rivers. Tossing spinners, or floating bait or a jig are good options during low clear flows.

**SALMON RIVER:** *Chinook, steelhead*

The fall Chinook fishery is very slow. Most remaining fish are actively spawning or already spawned out.

Winter steelhead season tends to kick in this time of year. A small number of fish are likely in the system now and look for the numbers to steadily increase over the coming month. Casting lures, bouncing the bottom or drifting jigs or bait under a bobber are good techniques to consider.

**SILETZ RIVER:** *Chinook, coho, steelhead*

The fall Chinook fishery is slow. A small number of new fish may be found in the lower river but most remaining fish are actively spawning or spawned out.

The wild coho fishery is now closed for the season.

Winter steelhead season is just getting underway. This time of year typically sees the first few fish entering the river. Best chances early on during lower flows will come from below the town of Siletz.

Side drifting, bouncing bottom or bobber fishing can be productive.

**WILSON RIVER:** *Steelhead, Chinook*

The river was at flood stage through mid-week. When the river drops, fall Chinook and winter steelhead will be available. Fishing should be fair to good. Anglers are reminded that the river above Jordan Creek is closed to all salmon fishing.

**YAQUINA RIVER:** *Chinook, steelhead*

Anglers are having very little success for fall Chinook in the upper section of tide water. Most fish are now on the spawning grounds. The winter steelhead run is now underway.

The Big Elk tends to start seeing fish this time of year in small numbers. Look for the next good rain event to get the fishery going. The wild coho fishery is now closed for the year.

**COOS COUNTY LAKES and PONDS:** *Trout, yellow perch*

Fishing for trout has been decent in Bradley Lake south of Bandon and in Butterfield Lake north of Coos Bay. Anglers have been catching some of the large trophy trout stocked this year on small flies or slowly trolling spinners. Trout will not be stocked again until the spring.

Yellow perch fishing has been good in lakes like Saunders Lake. Fishing a worm on the bottom in deep water should provide lots of bites for yellow perch.

**UMPQUA RIVER, SOUTH:** *Steelhead*

The South Umpqua is currently open to adipose fin-clipped steelhead harvest, and winter steelhead fishing should pick up with the recent rains. There will be excellent hatchery steelhead harvest opportunities on the South Umpqua as the season opens.
