

Fishing from 1B

Casting lures or bobber fishing can be productive during low clear flows.

ALSEA RIVER: Chinook, steelhead
The fall Chinook fishery is very slow. Most remaining fish are actively spawning. A small number of new fish may enter

the basin over the next couple weeks.
Winter steelhead season has arrived. The best chances to hook a chrome steelhead at

this time would be in the lower section below Five Rivers. Tossing spinners, or floating bait or a jig are good options during low clear flows.

SALMON RIVER: Chinook, steelhead
The fall Chinook fishery is very slow. Most remaining fish are actively spawning or already spawned out.

Winter steelhead season tends to kick in this time of year. A small number of fish are likely in the system now and look for the numbers to steadily increase over the coming month. Casting lures, bouncing the bottom or drifting jigs or bait under a bobber are good techniques to consider.

SILETZ RIVER: Chinook, steelhead
The fall Chinook fishery is slow. A small number of new fish may be found in the lower river but most remaining fish are actively spawning or

spawned out.
The wild coho fishery is now closed for the season.
Winter steelhead season is just getting underway.
This time of year typically sees the first few fish entering the river. Best chances early on during lower flows will come from below the town of Siletz. Side drifting, bouncing bottom or bobber fishing can be productive.

WILSON RIVER: Steelhead, Chinook
The river is still high. When the river drops, fall Chinook and winter steelhead will be available. Fishing should be fair to good. Anglers are reminded that the river above Jordan Creek is closed to all salmon fishing.
