Black Inventors and Science Pioneers Touching Lives Every Day

IS

Have you ever ridden in an elevator, worn shoes, played with a Super Soaker or used a microphone? Then your life has been touched by an African-American scientist.

Follow the maze to match each inventor

FEBRUARY

Early elevators had doors that had to be opened and closed by hand. Elevator doors that open and close automatically made riding an elevator safer.

In 1914, this

inventor created a

'safety hood" which

made polluted air

safer to breath. This

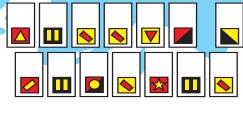

was an early version

of the gas mask.

HISTORY

This NASA engineer is best known for inventing the Super Soaker water blaster. The success of his invention has funded his own research and he now has more than 100 inventions to his name. Use the code to discover this inventor's name.

If you love to pick up a microphone and sing out a song, you will be glad this

scientist loved electricity and

physics. He invented a small

microphone. His technology

is used in 90 percent of

microphones today and in

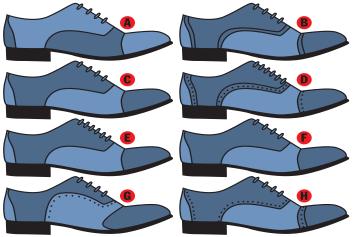

cell phones, laptops, baby

monitors and hearing aids.

Jan Ernst Matzeliger

He invented a machine that could quickly attach the top of a shoe to the sole. The machine made shoes ten times faster than by hand, making shoes more affordable.

Find the two identical shoes.

Replace the missing words.

Mae Jemison

Mae Jemison has always had big _____. Her big dreams took her into space! She is the first African-American female

1992, she flew aboard the space shuttle Endeavor.

Mae loved and dancing as a child. In

college she decided to medicine. After becoming a doctor, she went to Africa with the Peace Corps. When she returned , she decided to follow another dream—to be an astronaut.
