Fishing from 1B

warm water fish species tends to be slower during the winter months. There are numerous lakes in the Florence area that can provide good opportunity and have both boat and bank access.

SIUSLAW RIVER: *Chinook, steelhead*

The fall Chinook fishery is very slow and basically over for the season. Any remaining fish are in spawning condition.

Look for small numbers of fish to be in the lower river above the head of tide this early in the season. Casting lures or bobber fishing can be productive during low clear flows.

ALSEA RIVER: *Chinook, steelhead*

The fall Chinook fishery is very slow. Most remaining fish

are actively spawning. A small number of new fish may enter the basin over the next couple weeks.

Winter steelhead season has arrived. The best chances to hook a chrome steelhead at this time would be in the lower section below Five Rivers. Tossing spinners, or floating bait or a jig are good options during low clear flows.

SALMON RIVER: *Chinook, steelhead*

The fall Chinook fishery is very slow. Most remaining fish are actively spawning or already spawned out.

Winter steelhead season tends to kick in this time of year. A small number of fish are likely in the system now and look for the numbers to steadily increase over the coming month. Casting lures, bouncing the bottom or drifting jigs or bait under a bobber

are good techniques to consider.

SILETZ RIVER: *Chinook, steelhead*

The fall Chinook fishery is slow. A small number of new fish may be found in the lower river but most remaining fish are actively spawning or spawned out.

The wild coho fishery is now closed for the season.

Winter steelhead season is just getting underway.

This time of year typically sees the first few fish entering the river. Best chances early on during lower flows will come from below the town of Siletz. Side drifting, bouncing bottom or bobber fishing can be productive.

WILSON RIVER: *Steelhead, Chinook*

The river is still high. When the river drops, fall Chinook and winter steelhead will be

available. Fishing should be fair to good. Anglers are reminded that the river above Jordan Creek is closed to all salmon fishing.

YAQUINA RIVER: *Chinook, steelhead*

Anglers are having very little success for fall Chinook in the upper section of tide water.

Most fish are now on the spawning grounds. The winter steelhead run is now underway. The Big Elk tends to start seeing fish this time of year in small numbers. Look for the next good rain event to get the fishery going.

The wild coho fishery is now closed for the year.

COOS COUNTY LAKES AND PONDS: *Trout*

Lakes in Coos County are open all year for trout fishing. Trout will not be stocked until the spring. Some trophy trout were stocked in both Bradley and Butterfield lakes in October. Anglers have been catching some of the large trophy trout on small flies or slowly trolling spinners.

COOS RIVER BASIN: *Dungeness crab, steelhead, bay clams*

Steelhead have been caught in the past few days on the West Fork and East Fork Millicoma rivers along with the South Fork Coos River. Drifting eggs or fishing a jig under a bobber are effective ways to catch steelhead. Anglers fishing the South Fork Coos River above Dellwood will need a permit from Weyerhaeuser, which they can pick up at the Dellwood office.

Recreational harvest of crab re-opened from the Columbia River to the California border. It is still recommended you discard the crab viscera (guts/butter) before cooking. Crabbing will be slow in Coos Bay due to the amount of freshwater in the bay from the recent rain.

TENMILE BASIN: *Trout, coho, steelhead*

Streams in the Tenmile Basin are now closed for trout fishing until May 22, 2016. Tenmile Lakes is open all year for trout but trout fishing has been slow.

Wild coho season is closed. A few steelhead have been caught in Tenmile Creek near Spinreel Park from anglers

plunking with bait. Steelhead fishing is open in Tenmile Creek and Eel Creek.

UMPQUA RIVER, SOUTH: *Steelhead*

The South Umpqua is currently open to adipose fin-clipped steelhead harvest, and winter steelhead fishing should pick up with the recent rains.

There will be excellent hatchery steelhead harvest opportunities on the South Umpqua as the season progresses, especially around Stanton Park in Canyonville.

WINCHESTER BAY: *Bottomfish, perch*

Fishing for bottomfish in the Triangle and South jetty has been successful.

PACIFIC OCEAN AND BEACHES: *Bottomfish, Dungeness crab*

Recreational harvest of crab re-opened in the ocean from the Columbia River to the California border. It is still recommended you discard the crab viscera (guts/butter) before cooking.

Fishing for bottom-fish is open to fishing at all-depths. Fishing for black rockfish and lingcod continues to be very good from Charleston to Bandon when the ocean is calm enough for anglers to get out on the water. The marine fish daily bag limit is seven fish and a separate daily limit for lingcod (two).

Anglers can only keep 3 blue rockfish and 1 canary rockfish as part of their daily limit and there will be no harvest of China, quillback, or copper rockfish.

Retention of cabezon is prohibited until July 1.
