

You are sweet enough!

The average American eats about 22 teaspoons of added sugar every day. This adds up to over 70 pounds of sugar a year!

added sugar can lead to getting sick more often.

Count how many teaspoons of sugar each of these drinks contain.

A lot of the added sugar people consume can be found in sweetened drinks.

Eating more sugar leads to weight gain and obesity. This can cause serious health problems such as heart disease and diabetes.

Eating too much sugar makes it harder for your white blood cells to kill germs. That means that eating too much

SUGAR SMART

PARENTS: New government guidelines say that no more than 10% of our daily calories should come from added sugar. For kids that is less than about 10 teaspoons per day.

The American Heart Association recommends a maximum of 3 teaspoons (12 grams) of added sugar per day for kids.

Use Nutrition Facts labels to track the amount of sugar your kids are consuming. Note: food labels do not distinguish between **natural** and **added** sugar.

Mr. Citrus' food truck was very popular. The truck was designed to look like a giant orange and each day he'd drive to business parks at lunch time. People would buy fresh watermelon slices, bunches of grapes, apples and more.

One day, Mr. Citrus parked on a steep hill. When he opened the truck's customer window, fruit began rolling off the counter and down the hill.

Strawberry after strawberry rolled alongside oranges and apples. Luckily, Mr. Citrus was able to catch a large box of grapes before it also tumbled away.

The rolling fruit picked up incredible speed. At the bottom of the hill sat Officer Stan, enjoying a slice of watermelon at the park.

Suddenly, poor Stan was pelted with strawberries, lemons, apples and oranges, knocking him off the park bench.

As he wiped smashed apple bits off his uniform, he called his sergeant on his radio.

"You're not going to believe this, Sgt. Pear, but I was just attacked by an escaped fruit salad!"
