Cape Perpetua Winter Discovery Series continues Feb. 27

YACHATS — The Cape Perpetua Visitor Center, 2400 S. Highway 101, will offer the next in its Winter Discovery Series on Feb. 27.

Joy Primrose, president of the Oregon Chapter of the American Cetacean Society, will discuss the diverse species of whales, dolphins and porpoises found off the Oregon Coast in her presentation: Whales of the Oregon Coast.

No reservations are necessary. The presentation begins at 2

p.m. Upcoming Discovery Series events include:

- March 5 (2 p.m.) — The Amanda Story and Trail: Learn the tale behind the trail. Doc Slyter, an elder, flutist and tribal council member for the Confederated Tribes of Coos, Lower Umpqua and Siuslaw Indians, along with Yachats resident and trails enthusiast Joanne Kittel, will tell the story of a native woman and her people's forced march over Cape Perpetua's rocky headland to a

resettlement camp and the legacy they left behind.

- March 20 (2 p.m.) — Children's Stories and Tidepool Walk: Children's author Kizzie Jones will read from one of her latest books, and then lead families down to the tidepools for a guided tour.

Jones blends her love of dachshunds and the ocean to create whimsical tall tales.

Titles to her credit include "How Dachshunds Came to Be: A Tall Tale About A Short Long Dog" and "A Tall Tale

About A Dachshund And A Pelican: How A Friendship Came To Be."

- March 26 (2 p.m.) — Oregon Dunes: They're more than just sand. Learn about the origins, shapes and future of the longest stretch of coastal dunes in the United States.

Dina Pavlis, author of "Secrets of the Oregon Dunes" will share photos, stories and knowledge gained from living and playing within the Oregon Dunes National Recreation Area.

No reservations are required for any of the Winter Discovery Series programs.

All presentations and guided walks are free, but a Northwest Forest Pass, Oregon Coast Passport, federal recreation pass or \$5 day-use fee is required within to the Cape Perpetua Scenic Area.

For more information, contact the Cape Perpetua Visitor Center at 541-547-3289.

Fishing from 1B

be good as the river drops from recent high water. Fish are spread out through the system. Angling for Chinook is closed.

An error in the 2016 Fishing Regulations mistakenly lists river as open for hatchery Chinook beginning Jan. 1; the correct opening date is April 1.

YAQUINA RIVER: Steelhead

The winter steelhead fishery is fair in the Big Elk and should continue to produce over the next few weeks.

Look for the next good rain to push in another batch of fish. Anglers are reminded that there is a lot of private property along the Big Elk. Casting lures or bobbers fishing are the best techniques for this river.

COOS COUNTY LAKES AND PONDS: Trout

Lakes in Coos County are open all year for trout fishing. Last week 30 hatchery steelhead, that returned to Eel Lake trap, were stocked into Butterfield Lake to provide additional fishing opportunity for trout anglers.

These steelhead stocked into Butterfield Lake are no considered trout and may be harvest.

The daily trout bag limit in Butterfield is 5 trout per day with only 1 trout over 20 inches per day.

COOS RIVER BASIN: Dungeness crab, steelhead, bay clams

Steelhead anglers are catching lots of steelhead when conditions are right. With the recent rain the river might be fishable today but too high and muddy tomorrow.

Anglers are catching steelhead drift fishing corkies or eggs. Jigs fished under a bobber area also catching several steelhead.

The West Fork Millicoma River is the first river to clear after a rain followed by the East Fork Millicoma and South Fork Coos rivers.

Anglers fishing the South Fork Coos River above Dellwood will need a permit from Weyerhaeuser, which they can pick up at the Dellwood office.

In the Coos Basin 1 additional hatchery steelhead may be retained per day for a total aggregate of 3 adult fish harvested daily.

Recreational harvest of crab re-opened from the Columbia River to the California border.

TENMILE BASIN: Trout,

steelhead

Streams in the Tenmile Basin are now closed for trout fishing until May 22. Tenmile Lakes is open all year for trout but trout fishing has been slow.

Steelhead fishing has been slow in Tenmile Creek and Eel Creek. Thirty five hatchery steelhead from the Eel Lake Fish Trap were recycled back into the fishery at Spinreel Park. In the Tenmile Basin 1 additional hatchery steelhead may be retained per day for a total aggregate of 3 adult fish harvested daily.

UMPQUA RIVER, SOUTH: Steelhead

The South Umpqua is currently open to adipose fin-clipped steelhead harvest, and winter steelhead fishing will

improve as water levels recede.

There will be excellent hatchery steelhead harvest opportunities on the South Umpqua as the season progresses, especially around Stanton Park in Canyonville.

WINCHESTER BAY: Bottomfish, perch

Fishing for bottomfish in the Triangle and South jetty has been successful.

PACIFIC OCEAN and BEACHES: Bottomfish, Dungeness crab

Recreational harvest of crab

is open along the entire Oregon Coast. It is still recommended you discard the crab viscera (guts/butter) before cooking.
