Help Is Available

Our staff and volunteers know that being a parent is not easy. They understand that babies take a lot of time and energy. They know that pregnancies are not always planned and that circumstances arise making it difficult to care for and properly raise a child. Families that avail themselves of our services know education, encouragement and guidance are always offered with love.

They also know that this is a safe place for them and their children.

They want new parents and soon-to-be parents to know that they are not alone.

Parenting education, encouragement and guidance is offered that will enable families to live healthy life styles and facilitate the upbringing of children in safe and secure homes
