STEP from 1B

glass art, gift certificates from area merchants and more.

Proceeds from the annual

fundraiser help support the work that the STEP volunteers do to return the fisheries in the Siuslaw Basin to historic levels, and run its education programs, including the "Fish Egg

to Fry" aquarium project currently set up in 18 area classrooms.

Students raise the eyed steel-head eggs to fry stage before first graders release them into

Munsel Lake in early May. For more information about the STEP program, contact club president Ron Caputo at 541-997-4961.

Meet Marley

Marley came into the shelter very emaciated and missing hair due to a bad yeast infection. With good food and medication he is getting better. It is unclear at this time if his hair will ever fully come back. The family had an older dog at one time and they got along well, they were unclear if he would do well with dogs his own age. He has a lot of energy and would do best in a home with children 12 and up. No cats. Children 12yrs and up ok

If you would like to meet Marley any of his friends, please visit us at:
