2. CAROL MOORE — 20	K.P. #16 JEAN SCHMALING
<b>18-HOLE PLAY</b>	3. RENE PENGRA — 84

## Fishing

from 1B

and bank access.

### SIUSLAW RIVER:

The river basin is closed to all fishing above the head of tide and will reopen for cut-throat trout fishing on May 22.

### ALSEA RIVER: Steelhead

Winter steelhead fishing is slow. This time of year does tend to be dominated by more wild fish and post spawn run backs. Casting spinners / spoons, floating bait or a jig, or bouncing bottom with an egg pattern are good options.

### SALMON RIVER:

The river basin is closed to all fishing above the head of tide and will reopen for cut-throat trout fishing on May 22.

### SILETZ RIVER: Steelhead

Winter steelhead fishing is slow. This time of year is typically dominated by mostly wild fish. Side drifting, bouncing bottom or bobber fishing can be productive.

### WILSON RIVER: Steelhead,

Chinook

Steelhead angling has slowed in the low clear water. Scale your gear down and choose techniques that fit low water. Bobber and jigs should be an effective technique.

Spring Chinook opened April 1, but fishing is generally very slow until later in the season.

### YAQUINA RIVER:

Steelhead

The river basin is closed to all fishing above the head of tide and will reopen for cut-throat trout fishing on May 22.

### COOS COUNTY LAKES

and POND: Trout

Trophy trout were stocked last week into Empire Lakes, Bradley Lake, and Johnson Mill Pond. Legal size trout are also stocked into Empire Lakes, Bradley Lake,

Butterfield Lake, Eel Lake, Powers Pond, and Johnson Mill Pond. Fishing in the area lakes for trout has been ok with anglers having the best success using small spinners, spoons, or Powerbait. The daily trout bag limit in these lakes is five trout per day with only one trout over 20 inches.

### TENMILE BASIN: Trout,

steelhead, bass

Streams in the Tenmile Basin are now closed for trout fishing until May 22. Tenmile Lakes is open all year for trout but trout fishing has been slow.

Steelhead angling is open in the Tenmile Basin until April 30. In the Tenmile Basin 1 additional hatchery steelhead may be retained per day for a total aggregate of 3 adult fish harvested daily.

Largemouth bass fishing has been a little slow in Tenmile Lakes but should pick up as the weather and water temperatures warm up. Bass will be biting on slower retrieved baits like jigs, jerkbaits, and spinnerbaits.

### UMPQUA RIVER, SOUTH:

Steelhead

The South Umpqua is currently open to adipose fin-clipped steelhead harvest, and winter steelhead fishing will improve as water levels recede. There are still excellent hatchery steelhead harvest opportunities on the South Umpqua especially around Stanton Park in Canyonville.

### WINCHESTER BAY:

Bottomfish, perch

Fishing for bottomfish in the Triangle and South jetty has been successful.

### PACIFIC OCEAN and

BEACHES: Bottomfish,

Dungeness crab, surf perch

Recreational harvest of crab is open along the entire Oregon Coast. It is still recommended you discard the crab viscera (guts/butter) before cooking.

A few anglers fishing the beaches near Coos Bay have been catching redbait surf perch. The ocean has been very rough lately so picking days with lower swells is key to catching fish. Sand shrimp or Berkley Gulp sand worms have been working the best for bait.

Recreational ocean salmon fishing from Cape Falcon to Humbug Mt. runs through April 30.

The season is open for all salmon except coho salmon. Anglers are allowed two salmon per day with a minimum size for Chinook at 24 inches or larger.

A salmon season from May 1, 2016 through April 30, 2017 is currently being developed.

Fishing for bottom fish is closed outside of a line approximating the 30-fathom curve.

The marine fish daily bag limit is seven fish and a separate daily limit for lingcod (two). Anglers can only keep 3

blue rockfish and 1 canary rockfish as part of their daily limit and there will be no harvest of China, quillback, or copper rockfish.

Retention of cabezon is prohibited through June 30.

### • OCEAN SALMON

The recreational fishing season scheduled to be open for Chinook salmon from Cape Falcon to Humbug Mt. will be open as scheduled through April 30, 2016. This season is open for all salmon except coho salmon, with a bag limit of two salmon per day, and minimum sizes for Chinook at 24 inches or larger, and steelhead at 20 inches or larger.

Anglers are restricted to no more than two single point barbless hooks when fishing for salmon, and when fishing for any other species if a salmon is on board the vessel.

### • BOTTOM FISHING

During safe weather windows, spring is a great time for bottom fishing. This past week was moderately successful for many central coast bottom fishers, particularly charter vessels. On the central coast, lingcod catches were especially high and rockfish catches

were good too.

Just a reminder to anglers:

Groundfish (bottomfish) is open only inside of the 30-fathom management line (through September).

Lingcod move closer to shore in spring to lay large egg masses, which are guarded by males. To catch lingcod, try a white plastic grub on a lead jig head in rocky areas when the tide is not running fast.

There's a new rockfish on the block. Deacon rockfish is a newly identified species that was formerly referred to as the solid version of blue rockfish. What does that mean for you? Nothing in 2016.

Every rule that refers to blue rockfish (like the daily bag limit of 3) now applies to blue rockfish and deacon rockfish combined.

Cabezon retention is prohibited January-June; this is an annual seasonal closure.

### • PACIFIC HALIBUT

ODFW staff recommended dates for the sport halibut fishery are available on the ODFW sport halibut webpage. Dates will be finalized by the Oregon Fish and Wildlife Commission dates at its meet-

ing on April 22.

### • SHELLFISH

A couple of regulations were inadvertently left out of the 2016 Oregon Sport Fishing Regulation booklet.

1) The daily bag limit for shrimp (edible) is 20 lb. in the shell; may be taken by traps, pots or rings.

2) Each digger of razor

clams (as with all clams) must have his or her own container, must dig his or her own clams, and may not possess more than one limit of clams while in the digging area (except under an Oregon Disabilities Hunting and Fishing Permit).
