

Relay For Life of Florence

“Lights! Camera! Cure!”

Celebrate ~ Remember Fight Back

American Cancer Society research is making a difference in Oregon. In this Season of Hope the 5-year survival rate is now 68%, compared to 50% from 1975-1977.

The world is seeing a significant reduction in cancer incidence and mortality, in large part due to our combined efforts. Currently the American Cancer Society has awarded \$3,848,000 to researchers in Oregon.

ACS is the largest not-for-profit, non-government source of funds for studying cancer. Relay For Life is the signature fundraiser of the American Cancer Society.

Funds raised go to more than research. They provide transportation programs to help patients get to treatments. They provide counseling and support to cancer patients and their families. They provide free or reduced cost lodging for cancer patients and their families if they have to travel long distances for treatment. Your donation provides turbans, wigs, prosthesis, and durable medical equipment to Oregon residents.

Your donations make a difference. The American Cancer Society saves lives and creates more birthdays by helping you stay well, helping you get well, by finding cures and by fighting back. Visit the ACS website at cancer.org. Call 1-800-227-2345 for information about cancer.

*Join Relay For Life of Florence this August and share the experience!
At Relay For Life there is no finish line until a cure for cancer is found.*
