Construction begins on new convenience store on Highway 101

By CHANTELE MEYER
Siuslaw News

Florence Planning Commission approved an application to construct a convenience store and modify an existing fuel station in the 1500 block of Highway 101 on June 14. Construction has since started on the property.

The property at 1544 and 1570 Highway is owned by the LaFranchis. Their agent, Mike McAllister, has worked with the planning commission and Oregon Department of Transportation to redesign the site of the former Cactus Bar-b-que and Taco Time restaurant building and the 76 Station site to the north.

The applicant proposed to

demolish the Cactus restaurant and construct a convenience store for the 76 Service Station on the properties. The demolition began in July and the applicant plans to complete construction within five months. The applicant said work will be completed during daylight hours and some heavy equipment will be utilized.

According to the city staff report, the applicant's proposal includes constructing a new convenience store building in the location of the dilapidated restaurant building, adding parking, removing the restroom structure on the fuel station site, adding storm swales, removing the highway exit point for the drive-through and retaining the parking lot to the

south to fit city code.

The proposed convenience store for retail sales will be 3,070 square feet, slightly larger than the demolished building but comparable to nearby buildings in the commercial district.

The staff design review included examination and discussion about the architecture, landscaping and access improvements.

Staff found that "the architectural quality will likely slightly exceed that of most of the immediate neighborhood with a variety of materials and textural elements."

The 76 Service Station provides fuel and automotive services for passenger-type vehicles.

Friday is deadline for scholarship entrees

For anyone going to college after graduating from high school years ago or trying to retrain for a different career, the Western Lane Community Foundation's (WLCF) second annual continuing education scholarships program might be the help you need.

The application deadline is Friday, July 15.

These scholarships are awarded annually and are designed for students who use permanent home addresses within Florence, Dunes City or Mapleton, as well as nontraditional students. That includes Deadwood geo-

graphical area residents who have already graduated from high school, have their diploma, GED, or were home schooled and are eligible to enter higher education or trade schools.

That includes such applicants as second-, third-, and fourth-year college students, students entering post graduate programs, adults returning to higher education, trade schools, special arts programs, etc., after career or family changes, job losses and older individuals.

Those who meet the minimum qualifications are encouraged to complete an

application, accompanied by a copy of their transcript of grades through senior year of high school, or any completed post-high school education, two letters of recommendation, and a resume including honors/awards, clubs, community service and work history for the last five years.

Applications can be obtained and application packets can be submitted on line or by mail.

Use wlcfc@wlcfonline.org or P.O. Box 1589, Florence, Oregon, 97439.

Applications must be postmarked by Friday, July 15.
