WATCH OUT FOR PHONE SCAMS

Residents should be on alert for fraudulent callers

Lane County Sheriff's Office (LCSO) and local businesses are warning residents about telephone scams targeting the elderly and people who have problems with their computer.

An area bank has seen an increase in money wiring scams over the past few months and urges the community to be on alert for instances of fraud.

In one case, a fraudulent company contacted a resident over the phone and told him they needed to perform updates on his computer. He agreed and paid them \$350 to access his computer.

The company logged into the man's online banking account and transferred money from his money market account into his checking account. They told him the funds were from them but that they mistakenly deposited \$5,500 instead of \$500 and asked if he could wire the excess amount through Western Union.

People report that the scam routinely asks for thousands of dollars from its victims.

Local small businesses also are being targeted by this scam.

Another scam will ask for the repayment through prepaid iTunes gift cards.

LCSO reminds the community that reputable businesses and financial institutions

should never ask customers for their personal or account information over the phone unless you initiated the call and they need to validate your identity.

The county offers the following tips to help residents avoid scams:

- Don't give out any personal information over the phone, Internet or mail unless you know exactly who you are talking to and what the information will be used for.
- Never give out personal information to an individual or company that you did not initiate contact with.
- Shred all documents and paperwork containing personal information.
- Don't carry your social security number with you and only give it out if absolutely necessary, or ask for another form of identification.
- Don't use obvious passwords like your birthday, family or pet's names or any corresponding letters/numbers on the keyboard.
- Never open or click on

links from email sources you don't recognize or that seem suspicious.

- Be aware of callers who are unprofessional, pushy or use scare tactics, such as threatening arrest if payment is not made.

- Callers asking for payment through wire transfer, cash cards, such as green dot cards, or other non-traceable methods are signs of a scam. Legitimate government agencies will not ask you to provide payment using these methods.

- Never wire money to someone you don't know.

- Check the caller's information. If they claim to be from a specific agency, call the publicly listed phone number for that agency to verify the caller's authenticity.

- Report all scams immediately to the Federal Trade Commission by calling 1-877-382-4357 or at ftc.gov/complaint. Residents can also report fraud to the Oregon Attorney General's Consumer Hotline at 1-877-877-9392.
