Fishing from 1B

for cutthroat trout, casting small spinners, spoons or fly fishing streamers or dry flies can be very effective. Bait is not allowed above the head of tide until Sept. 1.

SILETZ RIVER: Steelhead, cutthroat
 Steelhead fishing is fair. This run typically peaks by early July. Casting spinners, drifting bait or using a bobber and jig can be effective. Cover water and fish small and simple as the river conditions are low and clear. For cutthroat trout, casting small spinners, spoons or fly fishing streamers or dry flies can be very effective.

WILSON RIVER: Steelhead, Chinook, cutthroat
 Fishing for steelhead and spring Chinook is slow. The water is low and clear, so use lighter gear and target the deeper holding areas. Trout angling should be fair.

YAQUINA RIVER: Cutthroat
 For cutthroat trout casting small spinners, spoons or fly fishing streamers or dry flies can be very effective. Angling for all species in streams above tidewater is restricted to artificial flies and lures until Sept. 1.

COOS COUNTY LAKES AND PONDS: Trout, warmwater fish
 There are trout available for kids in the Millicoma Pond at the Millicoma Interpretive Center and fishing is excellent. Millicoma Pond is set aside for kids fishing only and is a great chance for them to hook into fish. Call before traveling to Millicoma Pond to make sure the gates are open. The phone number is 541-267-2557.

Fishing for largemouth bass is best in mornings and late evenings. Bass will be found in a little deeper water associ-

ated with cover, like weedlines or other structure.

Bluegill fishing is picking up with many fish found in or near shallow water. Plastic worms, shallow crankbaits, topwater lures, and spinner baits are good to use for bass. Bluegills will bite on worms, small jigs, or flies.

UMPQUA RIVER, SOUTH: Bass

Trout fishing is catch-and-release only in the South Umpqua and tributaries. Bass fishing should be good with warmer water temperatures.

TENMILE BASIN: Trout, bass, yellow perch

Trout fishing has been slow in Tenmile Lakes due to warm water. Trout anglers should fish in the deep water and fishing is usually best in the mornings.

Largemouth bass fishing has been good over the past month. Anglers are catching bass near structure or on the deep end of the weed lines using spinner baits, jigs, or rubber worms. Top water lures have been effective in the early mornings or evenings.

Fishing for yellow perch has been slow in Tenmile Lakes. Anglers fishing along the edge of the weedlines are having the best success. Worms fished near the lake bottom work very well for catching yellow perch.

The water level in the lakes is very low so boat anglers should use caution.

COOS RIVER BASIN: Dungeness crab, bay clams, rockfish

Angling is restricted to artificial flies and lures in streams above tidewater.

Anglers have been catching a few rockfish along the jetties and submerged rock piles. The marine fish daily bag limit for bottom fish (rockfish) is seven fish and a separate daily limit for lingcod (2). Anglers can

only keep three blue rockfish and one canary rockfish as part of their daily limit and there will be no harvest of China, quillback, or copper rockfish. Retention of one cabezon per day is allowed.

Crabbing has been decent for those crabbing from a boat with the best crabbing near high tide. There has been a mixture of hard shell and soft shell crab in the catch. It is still recommended you discard the crab viscera (guts/butter) before cooking.

Recreational harvest of bay clams remains open along the entire Oregon coast.

Clamming is excellent during low tides near Charleston, off Cape Arago Highway, and Clam Island. There are also

good places to dig clams even on positive low tides in Coos Bay.

NOTE: Recreational harvest of razor clams is closed from the north jetty of the Siuslaw River south to the California border due to elevated levels of domoic acid. This includes all beaches and all bays.

Before any shellfish harvest trip, make sure to check the Oregon Department of Agriculture website for any updates.

WINCHESTER BAY: Bottomfish, perch

Fishing for bottom fish in the Triangle and South jetty has been successful.

PACIFIC OCEAN AND BEACHES: Bottomfish, Dungeness crab, surf perch,

salmon, halibut

Recreational harvest of crab is open along the entire Oregon Coast. It is still recommended you discard the crab viscera (guts/butter) before cooking.

Razor clamming is closed south of the north jetty of the Siuslaw River.

Anglers fishing the beaches from Coos Bay to Bandon have been catching redbait surf perch.

Sand shrimp or Berkley Gulp sand worms have been working the best for bait. Surf perch fishing is usually best on the incoming tide.

Recreational ocean salmon fishing from Cape Falcon to Humbug Mt. is open for all salmon except coho salmon.

Do your part and volunteer today to help support these local non-profit organizations in our community!

Volunteer • Get involved • Donate

Florence Food Share provides food to those who are hungry in our community. If you have four hours a week available, we are in need of volunteers to staff our Front Desk and also act as Guides as clients walk through the pantry. Please call our volunteer coordinator, Gina Yates, @ 541-997-9110 (Monday - Friday, before noon) to learn more about volunteering. info@florence-foodshare.org 2190 Spruce Street.
