OBITUARIES

MACDOUGALL—Juanita MacDougall, known to her friends as “M a m a Nita,” died of breast cancer in her home Aug. 23, 2016, while surrounded by members of her family.

Juanita MacDougall
Nita was born Juanita Angeline Blalock on Nov. 28, 1949, to Robert L. Blalock and Mable L. Hunt, in Glendale, Calif.

Nita loved music and was a talented musician throughout her life, which she shared openly with family, friends and whoever would listen.

She also had a deep love for animals and often referred to them as her furry friends. It wouldn't be strange to hear that she had taken in a stray and given it a good home.

She founded and owned several businesses in Hood River over the years, including Gifted Grooming and Mama Nita's Karaoke.

She was also immensely caring and would often take in someone who was struggling in

one way or another, give them a job, a shoulder, friendly advice and a kick in the pants if that's what they needed.

Nita overcame incredible odds throughout her life and was a true survivor in every way. She knew what it was to struggle. She also knew what it was to get back up and be better and more successful than ever before and had no problem helping others do the same, simply out of the goodness of her heart.

She will forever be in the hearts of anyone who came into contact with her.

Nita is survived by her brothers: Robert “Bob” Blalock, Lee Blalock, Merlin Jenson; and sisters: Donna Prewett and Paulette Zazueta; her children: Lloyd “Lee” Corwin, Lela Lowe, Cindy Farleigh and Cable Parsons; and several grandchildren, great-grandchildren, nieces and nephews.

The Miracle-Ear Foundation
Since 1990 the Miracle-Ear Foundation™ has been providing hearing aids, follow-up care, and educational resources to people with hearing loss who demonstrate personal inability to financially provide for their hearing health needs. We do this because we believe everyone in our community deserves quality hearing instruments.

*Hearing aids do not restore natural hearing. Individual experience may vary depending on severity of hearing loss, accuracy of evaluation, proper fit and ability to adjust to amplification. A Miracle Ear® representative can determine which model and options may be right for you. **Hearing test and video otoscopic inspection are always free. Hearing test is an audiometric test to determine proper amplification needs only. These are not medical exams or diagnoses, nor are they intended to replace a physician's care.
