Three ODNRA roads to close for paving

REEDSPORT — Three Oregon Dunes area roads will close or have restricted traffic flows while repaving is conducted for periods between Oct. 3 and 15. All of the road work is weather dependent (wet weather postpones) and is being conducted to improve access to Oregon Dunes recreation sites and facilities.

Roads include:
• Hauser Depot Road: One half-day closure starting at rail-road tracks.
• Umpqua Road: One half-day closure starting just after Umpqua No. 2 parking lot.
• Siltcoos Road: Over two days, traffic flow reduced to single lane between Waxmyrtle and Driftwood 2 campgrounds.

For more information on road closures, contact Forest Service road engineer Joe Acosta at 541-563-8405. Road conditions are regularly updated under the "Current Conditions" quick link on the Siuslaw National Forest homepage at www.fs.usda.gov/siuslaw.

Fishing from 1B

that from Knight Park boat ramp to Sulphur Creek, until Dec. 31, angling is restricted to single point hook metal lures, fly angling, or salmon bobber angling.

SILETZ RIVER: Steelhead, cutthroat, Chinook

The Siletz River and bay is open for Chinook salmon. Fishing is fair. Trolling hering in the lower bay is an effective technique. Eggs and bobber or drifting eggs can be productive in the upper bay and river as the season progresses. Consult the regulations for changes in deadline locations through the season.

Steelhead fishing is slow. Casting spinners, drifting bait or using a bobber and jig can be effective. Cover water and fish small and simple as the river conditions are low and clear. For cutthroat trout, casting small spinners, spoons or fly fishing streamers or dry flies can be very effective.

YAQUINA RIVER: Cutthroat, Chinook

The Yaquina River and bay is open for Chinook salmon. Fishing is fair. Trolling hering in the lower bay is an effective technique. Eggs and bobber can be productive in the upper bay and river as the season progresses.

For cutthroat trout casting small spinners, spoons or fly fishing streamers or dry flies can be very effective. Angling for all species in streams above tidewater is open.

COOS COUNTY LAKES AND PONDS: Warmwater fish, trout

As water temperatures drop this fall warmwater fish will become more active all day long. Bass will be found in deeper water associated with cover, like weed lines or other structure. Plastic worms, shallow crankbaits, top water lures, and spinner baits are good to use for bass. The fall is typically a good time of the year to catch yellow perch using worms or small jigs fished near the bottom.

Rainbow trout are scheduled to be stocked in several Coos County lakes in early to mid-October. Due to extremely low water levels, Lower Empire Lake will not be stocked. Trout that were destined for Lower Empire Lake

will be reallocated to Upper Empire and Butterfield lakes. Currently fishing for trout has been decent in the deeper lakes like Eel Lake. Anglers are having success slowly trolling wedding rings.

UMPQUA RIVER, SOUTH: Closed

The South Umpqua is closed through Nov. 30 to protect spawning fall Chinook salmon

TENMILE BASIN: Trout, bass, yellow perch

Trout fishing has been slow in Tenmile Lakes due to warm water. Trout anglers should fish in the deep water and fishing is usually best in the mornings.

Largemouth bass fishing has been good over the past month. Anglers are catching bass near structure or on the deep end of the weed lines using spinner baits, jigs, or rubber worms.

Top water lures have been effective in the early mornings or evenings.

Fishing for yellow perch has been slow in Tenmile Lakes. Anglers fishing along the edge of the weedlines are having the best success. Worms fished near the lake bottom work very well for catching yellow perch.

The water level in the lakes is very low so boat anglers should use caution.

WINCHESTER BAY: Bottomfish, perch

Fishing for bottom fish in the Triangle and South jetty has been successful.

PACIFIC OCEAN AND BEACHES: bottomfish, Dungeness crab, surf perch, salmon, halibut

Recreational harvest of crab is open along the entire Oregon Coast.

Razor clamming is closed south of the north jetty of the Siuslaw River.

Recreational ocean salmon fishing from Cape Falcon to Humbug Mt. is open for Chinook salmon.

Anglers are allowed two salmon per day with a minimum size for Chinook at 24 inches or larger.

The Nearshore Halibut season is open seven days a week from Cape Falcon to Humbug Mt.

Monitor the marine zone updates for season information. Fishing for bottom fish is open to all-depths.
