# Florence Tech Solutions

Florence Tech Solutions is a mobile computer support company serving the Florence area. The owner and technician, Jolene Medeiros, has over 13 years experience in computer repair and a love for technology.

FTS holds the solutions to all your technical needs. We support both home and small business in networking, computer repairs, back-up data, tutoring and more. Whatever your tech issue is, we've got you covered.

We are not a major corporate conglomerate; we are a local business in the

Florence community. This means your happiness directly affects ours. When you are pleased, we can sleep at night. You're not just another customer to us, we treat you like family.

We know how intimidating your computer can be, so let us help. Why spend your day trying to solve your tech problems when FTS can get you back up and running in no time?

We service both MAC and PC computers, so come see us at the senior expo to answer any questions you may have and to book an appointment.

# Futurity First Insurance

The economy has changed dramatically in the last few years. Futurity First helps you prepare for those changes.

Futurity First Insurance Group offers solutions to help retirees maximize their social security income, leave a legacy to their loved ones and protect

their assets. We are focused on your needs and won't recommend a solution just to sell you a product. Our advice stems from one goal — to help you live a worry-free retirement.

Call Tim Sinclair at 541-285-4812 or Dawn Eden 541-999-1150 for a no-obligation appointment.
