

Whales from 1B

watching excursions for the winter," says Loren Goddard, one of the owners of Dockside Charters. "Typically our excursions are an hour long, but because the whales are moving fast to Mexico, we have to accommodate for that. We recommend that visitors make reservations early because the winter excursions are very popular."

Goddard says what makes the trips so popular is that "Visitors are curious about whales on the coast. And the whales are just as curious about us as we are of them," Goddard explains. "The best part is when they come right up to the boat. Seeing these mammals up-close is a very special experience."

Gray whales can grow up to 45 feet in length (13.7 meters) — longer than a city bus — and weigh more than 45 tons (41,000 kg).

OSAA from 1B

Assistant Executive Director in charge of basketball. "A strong commitment to training at the local association level has been a key to the success along with the financial commitment from schools and the OSAA Executive Board in adding an official.

"The vast majority of state high school associations in the country are using three-person crews during the regular and post season and we're looking forward to joining them."

At the conclusion of the 2016-17 season, information will be gathered from schools at all classification levels and a thorough review of the effects of using an additional official will be conducted.

According to Simmons, the goal is to implement the use of three-person crews in the post-season for all classifications as soon as feasible.

Meet Hope

Butterscotch is just as sweet as her name. She is also a strong confident dog who is well behaved and loves people. She knows basic obedience, is house trained and gets along well with other dogs. She needs to be in a home with no cats or other small animals though.
