

## Fishing from 1B

open. Fish are entering the mainstem with the first entering steelhead near the town of Alsea. Casting spinners, drifting bait or using a bobber and jig can be effective.

- Open for hatchery steelhead through Dec. 31.
- No fishing from a floating device upstream from Mill Creek.

**SALMON RIVER: Chinook**  
The Salmon River and bay is open for Chinook salmon. The run is near the end but a few fish are still entering the system.

Trolling herring in the lower bay is an effective technique. Eggs and bobber can be productive in the upper bay and river as the season progresses.

Parking can be limited at Knight Park during the fall salmon return. Anglers are reminded that from Knight Park boat ramp to Sulphur Creek through Dec. 31,

angling is restricted to single point hook metal lures, fly angling, or salmon bobber angling.

**SILETZ RIVER: Steelhead, Chinook**

The Siletz River and bay is open for Chinook salmon. Fishing is slow.

Fish are throughout the bay and river. Trolling herring in the lower bay is an effective technique. Eggs and bobber or drifting eggs can be productive in the upper bay and river as the season progresses.

Consult the regulations for changes in deadline locations through the season.

Steelhead fishing is slow. Casting spinners, drifting bait or using a bobber and jig can be effective. For cutthroat trout, casting small spinners, spoons or fly fishing streamers or dry flies can be very effective.

**WILSON RIVER: Chinook**

Fall Chinook fishing is fair on the Wilson River. The Wilson has fished well for fall

Chinook this season, and although things will probably start to slow down toward the end of the month, there are still some good fish coming in.

Keep an eye on the weather and River conditions. All of the usual techniques, such as bobber fishing, divers and bait, and back bouncing should be effective.

Although it's still a little early, Thanksgiving is time to start thinking about winter steelhead on the lower Wilson. This basin has some early returning hatchery fish and they should start trickling in towards the end of the month.

**YAQUINA RIVER: Chinook**

The Yaquina River and bay is open for Chinook salmon. Fishing is slow. Trolling herring in the lower bay is an effective technique.

Eggs and bobber can be productive in the upper bay and river as the season progresses.

**COOS COUNTY LAKES AND PONDS: Trout**

Rainbow trout were stocked

in Upper Empire, Bradley, Saunders, Powers and Butterfield lakes last month.

Anglers have been catching lots of trout on Powerbait, flies, or by trolling spinners. This was the last stocking of these lakes until the spring.

Trout anglers are also catching trout in Eel and Tenmile lakes. Trolling wedding ring spinners tipped with a night-crawler has been really effective.

**UMPQUA RIVER, SOUTH: CLOSED**

The South Umpqua is now open.

**WINCHESTER BAY:**

Bottomfish, perch  
Fishing for bottom fish in the Triangle and South jetty has been successful.

**TENMILE BASIN: Trout, bass, yellow perch, coho**

Trout fishing in the streams of the Tenmile Basin are now closed until May 22, 2017.

Trout fishing in Tenmile Lakes is open all year. There is no wild coho fish-

ery in Tenmile Lakes this fall.

Largemouth bass fishing has been decent over the past couple weeks. Anglers are catching bass near structure or on the deep end of the weed lines using spinner baits, jigs, or rubber worms.

Fishing for yellow perch has picked up in Tenmile Lakes. Anglers have been catching a few yellow perch measuring 14 to 15-inches long.

Worms fished near the lake bottom work very well for catching yellow perch. Anglers should fish in water depths of 15 feet or deeper to consistently find the bigger yellow perch.

**PACIFIC OCEAN and BEACHES: Bottomfish, surf perch, salmon**

The ocean remains closed for Dungeness crabbing due to high toxin levels.
